Time to Change Your Investment!

\$5,000 invested in a Class "C" farm of 40 acres in rich Mason Valley, Lyon County, Nevada, will show an average net profit yearly on alfalfa of \$50 per acre, a total of \$2,000.

\$6,000 invested in a Class "B" farm of 40 acres in rich Mason Valley, Lyon County, Nevada, will show an average net profit yearly on potatoes of \$150 per acre, a total of \$6,000, \$8,000 invested in a Class "A" farm of 40 acres in rich Mason

\$8,000 invested in a Class "A" farm of 40 acres in rich Mason Valley, Lyon County, Nevada, will show an average net profit yearly on either Class "A" potatoes or "Hearts of Gold Cantaloupes" of \$200 to \$300 per acre, a total of \$8,000 to \$12,000, or 100 to 150% net!

All farms under perpetual and prior water rights—irrigation system owned and controlled by Mason Valley land owners—non-resident owners of farms are not required to invest in improvements or farming equipment—the Mason Valley Development Company, Yerington, Nevada, will furnish all equipment, including tractors, horses, wagons and storage for crops, and will scientifically irrigate and intensely cultivate, harvest and market all crops on a basis of 20% of net profits.

If you have funds for investment in amount of \$5,000, or more, or if you have securities or other investments that are readily convertible into cash, you should lose no time in verifying the truth of our statements above—then invest in a Mason Valley Farm—such an investment will not only assure you safety of principal but enormous profits!

These farms and farm lands comprising approximately \$6,000 acres are owned and now offered for first time by Nevada Morigage and Trust Company. Reno, Nevada—ask for scenie and descriptive poster and full information as to crops and plan of cultivation by Mason Valley Development Company—or ask to have one of our representatives call and discuss the subject with you—you are under no obligations—communicate with
