Aged 105 and That's All.
\$70,000,000 Per Plane.
The Drop Did Not Come.
Mummy Finger Prints.
By ARTHUR BRISBANE

An old gentleman celebrates his 105th birthday, not unusual in these days of long living, and newspapers distribute his views. Never give any advice, says he, and "don't worry." "I have always done what I wanted to do, and have never worried." Never worry and you will live long. Worry poisons the mind and kills in the end. But the gentleman aged 105 is aged 105, and that is all you can say about him. To do what you want to do, and to worry may mean shorter life. It also may mean doing something worth while. To be a Harriman or a Hill, open up great territories, conquer a Salt Lake sea, make a short cut across Salt Lake, help create the great northwest and die too young, is better than never worrying and living to 105.

The regularly established airplane service between London and Berlin makes the 600-mile trip in four hours. These machines, headed this way, would cross the Atlantic in 20 hours. That is something to interest this nation, which talks and spends, but makes no airplane progress.

At spending we are very efficient. On airplane service since the war this nation has spent more than \$400,000,000. How much of that went in waste and graft, do you think? For our \$400,000,000 since the war, and about one thousand millions spent during the war, we have, according to official testimony, just 20 airplanes fit to be of service in war.

That makes our good machines average us about \$70,000,000 each, which is not cheap. They build them in Europe for \$1,800. If the country spends \$400,000,000 more you may be sure that Calvin Coolidge will get some flying machines for the money. Why not buy, for a start, 1,000 machines abroad where they know how to make the kind that fly?

That predicted 1925 drop did not visit the stock market yesterday. Almost everything went up, railroads leading, cotton and wheat following. Call money used in speculation dropped to 3 per cent, and all was serene. The lambs have not gained full headway yet. They are thinking, dear little things. Once they get really started there will be busy moments for stray bears.

Elmer Schlesinger, part of the inside works of Chadbourne, Stinchfield & Levy, lawyers, with clients of the big kind, says: "This is going to be such a boom year as nobody living has ever seen." He is a cool, not excitable young man. And he is probably right. Whatever else you do, be careful not to sell short. "That way madness lies." But don't gamble.

When the lawyer writes "hereto I set my hand and seal," he refers to the ancient custom, as old as Egypt, of sealing documents with the print of the thumb. Three thousand years before Christ thumb prints were used for identification. The Chinese use fingerprints to identify armies of laborers after they are paid off.

Mr. Bogren, expert of the navy, has been making fingerprints of mummies and says that in all the thousands of years no two human beings have had fingerprints alike. What's more important, no two have had brains alike, and that accounts for change and progress.

Sugar companies, oil and railroad companies, are organizing great mergers, bigger and bigger industrial units are coming. In the end, perhaps single units will include entire industries. The big steel company could probably control the nation's steel business tomorrow, except that Judge Gary is conservative.

No need to worry about it. The bigger the better, if the public gets its share of the savings. If the public is not intelligent enough to watch and regulate one big concern, it won't be able to watch and control the secret inside deals of a dozen little concerns.

Very expensive is the overhead in wasteful competition and the public pays the entire bill always. If 10 companies sent five milk wagons and five baker wagons to your block, you and others on the block would pay for the eight unnecessary wagons.

Henry Ford loaded 5,000 automobiles on his ship Oneda, in New York harbor yesterday and sent the load down to Jacksonville, New Orleans and Houston. Ford is a business man, with factories, mines, forests, water power, ships and money enough to buy Morgan & Co., that once imagined it could buy him. When will the first all-metal Ford airplane appear? (Copyright, 1925.)

Indian School Fugitive Found With Feet Frozen

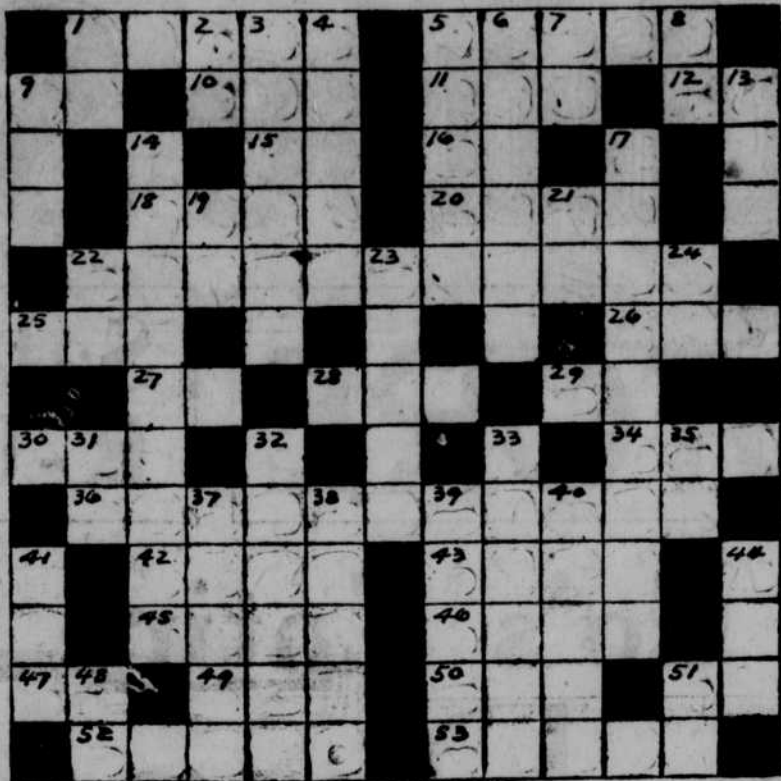

Nebraska City, Jan. 7.—Aaron Hillderbrand, 14, an Indian lad who lives in Oklahoma, was found at the elevator at Paul late yesterday with both feet frozen. He was taken to the Community hospital here for treatment. It is believed no serious injury will result from his experience. The boy said he and three other Indian boys escaped from the Genoa Indian school last Saturday, and he was trying to get to his home at Vinita when forced to leave a freight train at Paul on account of the condition of his feet.

Greger Buys Bank Interest

Beatrice, Jan. 7.—J. E. Lang, Beatrice greger, has purchased an interest in the new state bank at Waterloo, Neb., and has been elected a director. His son, Hugo Lang of this city, formerly connected with the Bank of Crab Orchard, has been made cashier of the bank.

The Daily Cross Word Puzzle

By RICHARD H. TINGLEY.

Horizontal.

- Reposed.
- Capable.
- Proceed.
- One of the books of the Bible (abbr.).
- One of the months.
- Exclamation.
- Doubly (prefix).

- French river.
- An Italian silver coin.
- Peevishness.
- Crossword puzzle worker.
- Group of things.
- Musical note.
- Pig pen.
- Point of the compass.
- Expression of impatience.
- Disclosed.
- Those of ripe experience in particular lines.
- 19.3 cents in Italy.
- A "bunch" of cattle or horses.
- To "clinch" unite.
- Literary or musical composition.
- Glory to the Father (abbr.).
- Pertaining to (suffix).
- Opposite (abbr.).
- Yours truly.
- Forces open.
- Four (from the Greek).

Vertical.

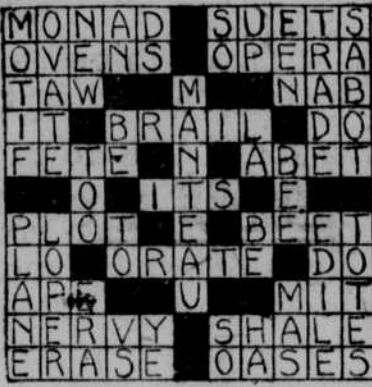

- In this manner.
- Into (prefix).
- A once-famous beer.
- Robber.
- Diminutive.
- Morning services.
- Yes.
- Toward.
- Vehicle.
- Farm animal.
- Upon which grows the maize.
- Words of identification.
- That is (abbr.).
- Concerning.

22. Musical note.

- Extreme.
- Point of the compass.
- Toward the top.
- step.
- Siberian plain.
- Ourselves.
- Arabian mountain.
- Companions.
- To discharge a gun.
- To break out violently.
- Fail behind.
- Definite article.
- Very softly (abbr., musical).
- Mother.

The solution will appear tomorrow.

Solution of yesterday's puzzle.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place. Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

Barada Loses Last Civil War Veteran

Overseas Veterans Serve as Pallbearers at Burial of George W. Frazee.

Falls City, Jan. 7.—Barada lost its last civil war veteran with the passing of George Washington Frazee, 78, a resident of that community since 1873. The veteran soldier was buried there Sunday afternoon with all of the military honors in the power of his own "buddies" and overseas veterans of the world war, who acted as his active pallbearers. Members of Company B, 134th Infantry, Nebraska National Guard, also participated in the last ceremonies.

Mr. Frazee, who was born in Indiana, enlisted in the union army at the age of 16, serving one year with Company D, 4th Indiana volunteers, and received his honorable discharge on December 24, 1863. Five months later he re-enlisted in Company K, 138th Indiana volunteer infantry, and served with that organization until the close of the war in 1865. He came to Nebraska City in 1868 at the age of 22. The following year he married Martha Jane Irey of Indiana, who survives him. In 1873 Mr. and Mrs. Frazee came to Richardson county to spend the remainder of their lives there.

Besides his wife, he is survived by two daughters, Mrs. Robert Reddick of Kansas and Mrs. William Bollman of Barada.

Merchant Nabbed and Fined for Receiving Box of "Chinaware"

DeWitt, Jan. 7.—Two strangers, who came to town coincident with a shipment of "chinaware" for J. J. Kreucher, pioneer DeWitt merchant, clamped the lid on the merchant for \$100 and costs the minute he signed for the box sent by express. The strangers proved to be state liquor law enforcement officers, who had got next to the "chinaware," and followed it until delivery was made. Not only did they clamp the lid on Kreucher's pocketbook, but they kept the lid on the box and took it with them. It was the first arrest and fine of the kind here for years.

CHILD KILLED BY RUNAWAY TEAM

Bligham, Jan. 7.—Grief settled over the home of Walter Gilbaugh, banker here, today with the death of James, 5, his son.

The youngsters had been very much interested in the work of unloading cinders from a freight car. The cinders were being used as ballast along the railway right-of-way.

For several hours the boy had watched the work. Then a team, frightened by a train, ran away. The team swerved from the road toward the place where the youngster was standing. He did not see it coming and made no effort to get out of the way.

When the team had passed him workmen from the cinder train picked up his lifeless little body. He had been killed almost instantly by a blow from the hoof of one of the horses.

Famous Old Recipe for Cough Syrup

Really and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less. (Get 2½ ounces of Pinex from any druggist, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time. It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma. Pinex is a special and highly concentrated compound of genuine Norway pine extract known the world over for its healing effect on membranes. Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Kearney's Water Plant Completed

Capacity of Works 4,500,000 Gallons Daily; Final Tests to Be Made on Friday.

Kearney, Jan. 7.—Kearney's new \$135,000 municipal water works plant is expected to be in operation within a week. The final tests are to be made Friday, in the presence of the supervising engineering firm repre-

sentatives. Official acceptance is expected to follow, if the test run is up to expectations. The plant has a capacity of 4,500,000 gallons a day, on peak load. The average consumption of Kearney, in summer time, is 1,500,000 gallons daily. Furthermore a reservoir of 1,000,000 capacity, gives a reserve supply in case a need for it should arise. It is an electrically driven plant, producing its own power from oil burning engines of the Diesel type. The current generated daily would be sufficient also to furnish Kearney's street lighting needs, should that ever become necessary.

MAN, 98, NEARLY SCALPED BY FALL

Nebraska City, Jan. 7.—Joseph Huberle, 98, who makes his home with his daughter, Mrs. Fred Stahlhut, west of the city, fell down the cellar steps and was severely injured. He mistook the door leading to the cellar for one to go outside the house. He struck on his head and the scalp was torn from the center of his forehead halfway to the back of his head. Twenty-nine stitches were necessary to close the wound. He also received many bruises about the body.
