Protect your gums and save your teeth

Just as a ship needs the closest attention under the water-line, so do your teeth under the gum-line. If the gums shrink, serious dangers result.

The teeth are loosened. They are exposed to toothbase decay. The gums themselves become tender and bleed easily. They form sacs which become the doorways of organic disease for the whole system. They often disfigure the mouth as they recede. If used in time and used consistently, Forhan's For the Gums will prevent Pyorrhea or check its progress. Forhan's is safe, efficient and pleasant-tasting. It preserves gum health, corrects tender gum spots, hardens gum tissues so they will offer proper support to the teeth, and keeps your mouth fresh and healthy. Forhan's is more than a tooth paste; it checks Pyorrhea. Thousands have found it beneficial for years. For your own sake ask for and get Forhan's For the Gums. At all druggists, 350 and 600 in tubes.
