ABE MARTIN On Ill-Breedin' and Success

A very dear friend o' ours, an' a gentleman o' unusual ability, wuz slated t' be a rural mail carrier, an' his appointment wuz jest on th' eve o' bein' ratified, when he wuz seen t' accost a lady friend on th' street without raisin' his hat or removin' his cap.

However, there's few places where smokin' is tabooed these days—power mills, funeral services, an' churches. What we're sayin' don't mean that men can't smoke around women.

Chrysler Makes Great Progress

32,000 Cars Built in First Year of This Company's Life.

For most of the public it is hard to believe that a year ago the Chrysler six was nothing more than a name. It is equally hard to believe that 32,000 Chrysler cars could have been built and shipped within so short a space of time.

However, because these are facts, Andrew Murphy & Son feel that they have good reason to feel very optimistic over the Chrysler future.

The Chrysler was first presented to the public at the 1924 New York automobile show. It immediately became the sensation of this show, as it did at every other show where it was exhibited.

"The secret of Chrysler's success," says Murphy, "is simply this—the Chrysler has finally fulfilled a long-felt motoring need. With its low, compact design, it has afforded people a relief from high bulkiness. With its sparkling performance, it has given them a contrast to the sluggishness of other cars.

Murphy, "but we feel this is only the beginning. With Mr. Chrysler and his able associates continually striving to give the public something superior to what has preceded it, we predict many more successful Chrysler years."
