The first dose opens clogged up nostrils and air passages of head; stops nose running; relieves headache, dullness, feverishness, sneezing. The second and third doses usually break up the cold completely and end all grippe misery. Pape's Cold Compound is the quickest, surest relief known and costs only thirty-five cents at drug stores. Tastes nice. Contains no quinine. Insist upon Pape's.'

'I suffered a great deal of pain periodically. My sides hurt and my back would feel as if it were almost coming in two. Taking Cardui at that time helped me wonderfully. I got all right and remained in good health until last February when... I was in bed quite a while. It looked like my strength would not come back, and I suffered with severe pains in my back whenever I would try to get up. Sometimes I would scream out, my back hurt so badly. My husband got me some Cardui and I took two bottles. Very shortly after I began to take it I could notice I felt better. I began to get stronger. My appetite was improving and I could see that I was much better. After I had finished the second bottle I was able to be up and do all my own housework. So of course I think Cardui is fine. It is the best tonic for women that I know anything about, and I am glad to recommend it. Not long ago I told a lady friend of mine about it and it did her as much good as it has done me. Thousands of other women have recommended Cardui to their friends because they had found it helpful in their own cases. Cardui is sold by druggists everywhere. Try it.'
