

New Gas Holder Ready for Service Last of Month

Outside Work Completed; Tests Next Week; Air to Be Expelled About February 15.

The new gas holder at Twenty-second and Dorcas streets will be ready for service during the last week of February, according to expectations of General Manager Theodore A. Linsen of the Metropolitan Utilities district.

The outside work has been completed. A heating arrangement for the water in the holder is being installed. Tests will be made during the next two weeks. About February 15 the air in the tank will be expelled and the openings will be closed. Then gas will be admitted. The big holder was built in five sections, the lowest being stationary and the upper sections moving up or down according to the quantity of gas in the holder.

The holder has a capacity of 4,000,000 cubic feet of gas, which is approximately one day's supply. The present reserve supply of the municipal gas plant is 1,500,000 cubic feet, which the engineers assert is too small a margin of safety for a city of this size.

The new gas holder, with the site and other accompanying expenses, represents an investment of about \$800,000.

The utilities district acquired 25 acres adjacent to the gas plant on South Twentieth street. The gas holder will be followed by other proposed improvements in the plant.

The average daily consumption of gas in Omaha increased from 4,208,800 in 1922 to 4,560,800 in 1924.

Definite plans have not been adopted, but it is the intention of the utilities district management to convert the gas plant into a coal gas plant, with coke as a byproduct.

The present system of gas manufacture is known as carburetted water gas.

PAUL WHITEMAN IN OMAHA MARCH 21

Paul Whiteman will appear with his concert orchestra at the Auditorium Saturday evening, March 21.

Paul Whiteman was the first musician to prepare special arrangements for his orchestra and play the music according to the score. Before that time the original melody score was used and the musician who could take more liberties with the score than the rest was considered the best artist.

REXALL DRUGGIST CONVENTION HERE

Two hundred members of the Rexall Association of Druggists will meet at Hotel Fontenelle Tuesday and Wednesday of this week.

Talks on the betterment of the drug and sundry business will be given and practical demonstrations of displays will be made at the meeting.

George A. Wilson, secretary of the national association, the man who is reputed to know more about the general trend of the business of druggists than any other in the United States, will make one of the principal talks at the meeting.

A. B. McConnell, head of the Sherman-McConnell company of Omaha will make the address of welcome to the visitors.

MONARCH CEMENT HAS OFFICE HERE

The Monarch Cement company has opened a sales office in Omaha under the direction of Charles E. Marshall, district sales manager.

Monarch Portland cement has been on the market for 15 years and the increasing demand for it has encouraged the management to increase their capacity.

You just KNOW she's well. Your child, too, can be gay, cheerful and light hearted. You just know she's NOT well. There is no reason for her to look or feel this way.

CONSTIPATION means SICKNESS. More human suffering, physical and mental, has resulted from constipation than from any other source. The entire future life of a child can be ruined by lack of attention to the proper daily movement of the bowels. If the bowels do not act at least twice daily it means constipation—that means the bowels are clogged up with the accumulated residue of five to fifteen meals or more with consequent pollution, poison and disease. Dr. Caldwell's SYRUP PEPSIN The Family Laxative. —relieves constipation. It is a combination of Egyptian senna, pepsin and aromatics prepared in liquid form, inviting to the taste, and smooth, pleasant and easy in its action. It is the kind of a prescription a good doctor will give you. Used nationally over 30 years. Pleasing As Honey To Take! Easy As Nature In Action! For both baby and grandma. Syrup Pepsin quickly brings relief to the most severe cases of constipation and the doses may be gradually reduced as Nature resumes her proper functions. 10,000,000 bottles used annually prove its effectiveness. It is sold everywhere where medicine is sold—under guarantee. Try it at your risk. Your druggist will return your money if it fails to do as promised. PEPsin SYRUP COMPANY Monticello, Illinois.

Line Crew Sets Safety Record

Power Company Host to Men Who Complete Year Without Accident.

The Nebraska Power company was host to one of its "line gangs," which went through 1924 without an accident, at a dinner at the Rome hotel.

K. R. MacKinnon, general superintendent of the company, complimented the linemen and told them they were setting an excellent example for other employees.

"Especially is this so," said Mr. MacKinnon, "because this crew has work that contains more hazards than any other line of occupation. New line work, handling of high voltage wires and the placing of huge transformers are some of the jobs these men have to do."

The entire overhead department of the power company in 1924 had 17 "loss time" accidents. During 1923 the same department had 28 accidents. As the company employs 200 men who do work classified as "dangerous," only 46 "loss time" accidents for the year is considered by officials as a good record.

During 1924, the service crew, consisting of Pete Jaspersen, L. Meeks, and E. Ostrand, also had a no-accident record. This crew's work consists chiefly of connecting service wires into homes.

Arthur Nehleen Now City Sales Manager

N. Arthur Nehleen has been named city sales manager of the Goodyear Lumber and Supply company.

Mr. Nehleen for the past five years has been connected with a large building material organization as salesman and superintendent in the marble and tile department.

Mr. Nehleen was born and reared in Omaha and has many friends who will be interested to learn of his recent connection with the newly organized Goodyear Lumber and Supply company.

Appointed Omaha Manager.

W. E. Smyth Joins New Alamito Organization

W. E. Smyth, formerly assistant to the publicity manager of the North-western Bell Telephone company and in charge of publicity work for the Woodmen of the World has joined the Alamito Dairy company as advertising and sales promotion manager.

According to Mr. Schwager, president of the company, the rapid growth of Alamito business has made it necessary to add an advertising manager to the sales staff, especially in service work between the delivery salesmen and the customer, which will be a part of Mr. Smyth's duties.
