My Hair Was Quite Gray
My hair was gray. It was falling out. My scalp itched and dandruff appeared. A few applications of Kolor-Bak stopped the itching and dandruff. My hair soon stopped falling out and now is again its original shade. I look ten years younger.
(A typical letter)

Don't Worry about Gray Hair

This Clean, Colorless Liquid Will Restore the Original Shade

Thousands of people have quickly banished grayness and have restored the original shade to their hair with the remarkable preparation known as Kolor-Bak.

Physicians and scientists know that gray hair is hair that has ceased to receive its normal supply of coloring matter or pigment from certain tiny cells in the scalp because these cells have become inactive. No matter what the cause, it is amazing to see how the grayness disappears when Kolor-Bak is used. It is the best known substitute for the natural pigmentation. It also banishes dandruff and stops itching of the scalp and falling hair. If you are gray, Kolor-Bak is all you need to make your hair look "young" again. No need to furnish a sample of your hair—no

tests to make—as this one clean, colorless liquid is effective on any gray hair. Money back instantly if Kolor-Bak is not satisfactory.
