

# MUSIC

By MORLEY CASSIDY.

Paul Whiteman rather "sneaked up" on the musical world. Musicians didn't quite realize what he was aiming at until he had hit it. They thought he was only trying to be King of Jazz.

But he wasn't. He was setting out to be a real musician, as well. And he is, of course, though nobody dared believe it till Gilbert Seider took up the cudgels for jazz.

No one would dare assert nowadays that he is not the modern Moses who is leading his hosts out of the old Moses lead them into? We haven't the New Testament handy to the wilderness.

Anyhow, he is to be in Omaha March 21, he and his 25 men, tried and true. They will be at the Auditorium. It would be wise to buy tickets early, for between 15,000 and 20,000 tried to get tickets to his Chicago concert, and more than 8,000 or 10,000 failed.

One of his principal numbers will be George Gershwin's concerto for the piano and orchestra, called the "Rhapsody in Blue." It is the first piece written in pure classical form and pure jazz spirit. It is something everyone should learn by heart, for most critics expect it to be a turning point in musical history, rather like the battle of Marathon, or Waterloo, or Bunker Hill, if you are up on history. Anyway, a turning point. So be there, if you feel like turning.

### DISTRIBUTORS SHORT OF CARS

The Omaha Hudson-Essex company, after taking their full allotment for February, find themselves unable to make deliveries at the present time, owing to the big demand for the coach.

R. H. Davison of the Omaha Hudson-Essex company states that this last week the dealers from out in the territory have depleted their stock to a point where it is impossible to make immediate delivery on even their retail business in Omaha.

However, he has been assured of an increase in the future months to come, as the Hudson Motor Car company are now scheduled for 20,000 cars for the month of March and hope to be able to supply the demand.

In January the Hudson Motor Car company produced 16,825 Hudson and Essex coaches and there isn't a car in storage anywhere, so those wishing to secure early deliveries on these popular cars should place their orders at a very early date.

### SOUTH AMERICA GOOD AUTO FIELD

Regardless of any so-called saturation point or traffic congestion problems in this country, the automobile industry still has a wide field in which to expand, and this field is South America, according to Guy H. Peaseley, sales manager of Olds Motor works, Lansing, Mich.

"From present indications South American countries will rank ahead of any other in the United States in the number of automobiles per capita," said Peaseley. "In no part of the world is there more activity and enthusiasm regarding things automotive than can be found in the chief South American countries. Recently they sent a delegation here to study road-building, and they are doing everything within their power to foster the use of the automobile."

**To Peel Off Bleached, Rough or Chapped Skin**

To remove roughness, chaps, freckles, blotches, or any complexion difficulty, the best thing to do is to remove the skin itself. This is easily, painlessly and inexpensively done by the application of ordinary mercurized wax, procurable at any drug store in original one-ounce package. The wax absorbs the defective outer skin, a little each day, gradually bringing the second layer of skin to the surface. The pores are unclogged and the face breathes in the life-giving oxygen. The new skin is beautifully soft and spotless, bearing the healthy glow of youth. Just apply the wax as you would cold cream, only not rubbing it in. In the morning wash it off with warm water. It's the most effective complexion treatment known.

## GUARANTEES HIS PRESCRIPTION TO END RHEUMATIC PAINS AND REDUCE SWOLLEN JOINTS

Money Back Says Beaton, If One Bottle of Allenrhu Doesn't Make Any Rheumatic Sufferer Rejoice

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

The Beaton Drug Co. and every druggist in this country is authorized to say to every rheumatic sufferer in this vicinity that if ALLENRHU, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years, and really marvelous results have been accomplished even in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenrhu relieves at once. It immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen of 26 Forbes St., Rochester, N. Y., the discoverer of ALLENRHU, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless ALLENRHU decisively conquers this worst of all diseases, and he has instructed the Beaton Drug Co. and druggists everywhere to guarantee it as above in every instance. If you live out of town ask him to send you full particulars.

## ABE MARTIN On Newspaper Readin'

Th' Newspaper in th' Home.

"I'm gittin' so I kin hardly wait from one awful newspaper sensation to another. O' course I never have t' wait long, but sometimes it seems like ages," said Gran'maw Pash t'day. Gran'maw Pash is too ole t' skate an' dance any more, so we expect she gits a heap o' comfort out o' th' crime wave. So many folks have been murdered she used t' know. An' lots of her ole friends have been looted or sent t' prison, too. "It does seem like I'm th' only one left," she said t'day, when she sent t' Benton Timberlake had been sent t' th' chair. Gran'maw Pash used t' make her home with th' Meadows family before it was wiped out at a railroad crossin', but now she lives with a married darter, but she keeps a pistol in her dresser drawer, so there's no tellin' where she'll sleep t'morrow night. Life is so uncertain these times that I wonder why folks swear, an' lie, an' carry on so. They jest seem t' be busy preparin' 'emselves fer th' devil. 'Fortunes, an' even pocket money, are swept away in a day, or an evenin', too, but folks keep on spendin'. We never see any fist fights any more. Folks settle their differences with pistols. Newspapers are great readin', fer there's hardly anybody that can't git a kick out o' th' police news, or th' front page, an' lots o' times out o' th' marriages. Th' crime wave brings t' mind ole friends an' acquaintances. We learn th' whereabouts o' people long forgotten. They may be murdered in Hollywood, or robbed in Iowa, or in jail in Ohio, or run down by an auto in Oklahoma, or scooped up at a crossin' in Illinois, or held as witnesses in St. Louis, or apprehended by dry sleuths at Greencastle, or divorced in Chicago, or poisoned in Pittsburgh, or wanted fer this or that in Milwaukee, or they may be obscure an' commonplace an' we never do know what's become o' them. But if they've got th' stuff in 'em an' got some ice they're bound t' git in trouble an' played up by th' newspapers sooner or later. Joe Lark told me one time that he killed a teller in Steubenville, O., jest so his ole friends would know where he was, an' that he was sittin' along all right. There's lots o' comfort in readin' th' evenin' paper an' findin' that no one near an' dear has been killed, or mixed up in somethin' disgraceful. O' course it makes th' evenin' drag not t' have somethin' sensational t' discuss, but one kin nearly allus find somethin' awful about somebody he knows of, or used t' know. Even a stolen eat'll help out an' evenin' at home, or even th' robbery of our favorite fillin' station. Reputations are th' cheapest things on th' market t'day.

### "Old Dobbin" Gets a Rest.

Newcastle, Neb., Feb. 21.—With the gradual melting of the snow and the improvement of the roads in general, many automobiles are making their appearance after having been idle for three or four months, and "old Dobbin" is getting a breathing spell before beginning the spring plowing.

Over a period of years

THE Ford car has remained the undisputed leader for value in the motoring world.

There are certain fundamental reasons why this is true. It is a car, properly designed and staunchly constructed, having a motor which has proved itself reliable, long-lived and economical.

It is adequately serviced by an organization reaching to every community and neighborhood.

These combine to give the Ford car the highest resale value in proportion to list price.

And as production volume of the Ford has grown the purchase price has been steadily reduced.
