Retrieving under difficulties. Comanche Franks, champion pointer dog, owned by Charles G. Houston of Augusta, Ga., isn't balked at all by the fact that these birds have been tied in a tree. He stands up on his hind legs and prepares to pull both of them down to bring to his master. —Wide World

The levee safeguards life and property, and thus prevents disaster. This is the day of prevention. Today, danger is marked wherever it exists—on railroads and highways, on land and on sea. Civil officials, as well as medical and dental authorities, are designating Danger Lines that demand our constant attention.

Sensitive teeth warn of Acid Decay at THE DANGER LINE

SENSITIVE teeth are a warning. Be careful. Use every means to prevent decay and infection, especially at that vital point, The Danger Line.

It is at The Danger Line, in the tiny V-shaped crevices where gums meet teeth, that food particles lodge and ferment. Acids form which sooner or later destroy the tooth structure. Decay gradually begins. The gums frequently become irritated and sore. Conditions favorable to Pyorrhea may develop. Serious disease, such as rheumatism, heart and kidney trouble, often results from the infection due to Acid Decay. Even very weak acid conditions at The Danger Line will cause trouble if neglected.

Your dentist will tell you that Milk of Magnesia is a safe, scientific means of counteracting acids which attack the teeth and irritate the gums. Squibb's Dental Cream is made with Squibb's Milk of Magnesia.

Use it regularly . . . morning and night . . . and you can prevent Acid Decay, allay sensitiveness and lessen the peril of Pyorrhea. You can strengthen tender gums and promote a hygienic condition of the entire mouth. You can keep your teeth clean—safely. No dental cream can do more.

Buy Squibb's Dental Cream, made with Squibb's Milk of Magnesia—today. At druggists everywhere.

Keep Them Pretty

Everybody Sees Your Hands—By Marguerite De La Motte

"YOU should see how I keep my hands by using lemon juice! Pretty hands are good to look at and are looked at often. Smooth, soft hands are pleasant to your own and others' touch. But only such hands. Rub half a lemon over your hands night and morning. I have followed this practice for several years. Use lemon juice if they are red, rough, dry or cracked—and in a few days, note the transformation. See how white—and feel how soft and smooth.

"This is Nature's own safe, dainty lotion and whitener—no need for artificial kinds. Most moving picture actresses use this method as I do to get the best results. See how it removes stains.

"Keep a half lemon handy in a saucer by the sink or wash bowl. Use it daily and

have attractive, pretty hands. Begin tonight. You'll be delighted with the way your hands improve no matter how good looking they are now.

"The richest juice, best for the hands, comes from California Lemons. Be sure to get this kind. All first-class dealers sell them."

Slender Women are more popular—

A graceful slender girl holds a fascination which only slender women have.

Men admire a youthful silhouette. Instinctively, they are drawn towards the woman whose figure is graceful and shapely. That's why slender girls are always popular.

But why worry about being overweight? It's easy to reduce. Use Marmola Tablets (thousands of men and women each year regain healthy, slender figures this way). These tablets will make you slender again. Try them. No exercises or diets.

All drug stores have them—one dollar a box. Or they will be sent in plain wrapper, postpaid, by the Marmola Co., 1749 General Motors Bldg., Detroit, Mich.
