away what I may be able to accomplish by speaking in Massachusetts in the congressional and presidential contest a year hence. This year there is nothing particular to be gained, as ar as I can see, by my appearance. You are not running, and there is no resident in question and no congress; nd I would certainly weaken whatever effect would be produced by appearing next year.

Remember, that when I speak I have got to make up my mind that unfavorable comment upon me, and therefore upon the commission, will follow, and I have to weaken myself a certain amount, with the already overwhelming good democratic majority in the next house. I am perwilling to do this for an object, but it does not seem worth while doing it unless there is an object. Of course, if you make a dead point of it, I will come. Meanwhile, cannot you ne down to Oyster Bay between the 13th and 19th? That will be polo week and it might amuse you to see We should very much like to
