

Panic in Wheat Pit on Reports of Cuten Bolt

Frenzied Liquidation Results: May Opens 4 to 11 Cents Lower and Shows Loss of 14 Cents for Session.

By CHARLES J. LEYDEN, Universal Service Staff Correspondent. Chicago, March 17.—Frenzied liquidation of wheat futures today, actuated by extreme weakness in foreign markets and reports that Arthur W. Cutler was getting out of his line, developed a panic in the wheat pit through the day.

What finished as a bullish recovery, but the final price was 11 1/2 cents lower, corn was 3/8 cent down, oats 1/2 cent lower, and soybeans 1/2 cent higher.

Buyers in the local wheat trade and in world markets have become demoralized as a result of a rapid decline in prices the last few weeks. They have been kept away from the fresh offerings in foreign markets and have been unable to meet demand for the same.
