Contest Editor, Alamito Dairy, Omaha, Nebraska.

Dear Sir:-

I owe very much to Alamito Milk. I am the mother of four strong. healthy children, the oldest not yet five and the youngest nine weeks; two boys and two girls. I want to tell you, we are an 'Alamito Family.'

Now by 'healthy' I mean they have never been under a doctor's care, except my oldest girl, and her case was just a slight cold.

Now what I want to write about is my little boy. He was three years old last November. He was a strong baby, weighed 10 pounds at birth and got along just fine until he started to walk, then his little limbs looked weak and then I noticed a curve in them until the first thing I knew I had a

bow-legged baby.

I tell you I was just heartsick to think that he was always such a fine baby, and I was so afraid that I would have to take him to a doctor; and how it hurt me to think that maybe he would have to wear those stifflooking braces. But no-he didn't have to, because just when I was about to take him to the doctor, my mother-in-law said, "don't take him to a doctor, just give him plenty of Alamito Milk to drink and plenty of vegetables and see the results.'

So I started in with two and three and sometimes four quarts of Alamito Milk a day and gave him all he wanted to drink and I creamed vegetables for him with Alamito Milk. To my surprise I began to notice a big change in my bow-legged boy, and today you would never say that he was ever bow-legged. His limbs are straight and strong, thanks to Alamito Pasteurized Milk.

Alamito Milk is the best grade milk, pure and put up in clean bottles. It is absolutely safe for anyone to drink and use for all purposes. And in all my years that I have bought Alamito Milk, I have never met an Alamito salesman who was not a gentleman. Is it any wonder I prefer Alamito Milk above all others? Sincerely yours,

Omaha, Nebraska, Feb. 5, 1925

2634 Davenport Street, Omaha, Nebraska.

Mir F. J. Mahoney

It would be hard to find a healthier, happier family than Mrs. Mahoney's, shown above. Good health, after all, is about the only thing that makes happy homes. Drink plenty of milk for better health.

Mrs. Mahoney brings out one of the most important questions before the medical profession today, "bowleggedness," which is rickets. This testimony is conclusive evidence that Alamito Milk is one of the best foods for the prevention and cure of this disease. and also a "safe" product to insure the healthy development of children and grownups as well. Use Alamito Milk in order that you, too, may learn of the wonderful healthgiving qualities it contains.
