

### Lincoln Invites Rotary to Hold Meeting There

#### Conference Looks Favorably on Capital; Sioux City Man Elected District Governor.

(Continued From Page One)

superintendent of the Watertown (S. D.) public schools, and has been a close student of matters pertaining to the welfare and education of youth.

The plan of boys' work as presented by Mr. Harmon follows, in part:

#### Responsibilities of Adults.

1. Individualistic Play Activities—
  - (a) Establishing recreational centers, including the equipment, supervisors, entertainments.
  - (b) Organizing play activities directed toward physical education and health, education.
  - (c) Athletic activities, interests, contests and games.
  - (d) Picnics, camps, hikes, skating, canoeing, swimming, field day events.

#### Group Activities—

The organization of Boy Scouts, 4-H Y clubs or other social organizations. In evaluating boy organizations it would be advisable to compare the number of boys in such organizations with the total number of boys of the city.

This possibility of membership with the program of results achieved will indicate the success of social activities of this kind.

#### Industrial, educational, charitable, humanitarian assistance rendered by the clubs to boys.

The moral environment of the community in its relationship with boys. Attention should be given to pool halls, bowling alleys, smoke houses, vanilla and tobacco sales to minors, public dances, the violation of the 18th amendment and the emphasis of any other situation which affects the morals of boys.

#### Responsibilities of Minors.

(a) Attendance at church, Sunday school or week-day religious education, together with conduct and achievement.

#### School Record—

(a) Scholarship, attendance, conduct.

(b) General school activities, including social, literary, music, art and athletic records.

(c) Record of service in improving the organization, the spirit and the physical condition of the school.

(d) Record of service in assisting in the upbuilding of the morals and the character of other students.

#### The Industrial Record—

Record of the number of hours employed during the period of contest; the amount of money earned; the amount saved, invested or wisely expended.

#### Home Record—

A record of the boy's disposition; his service and the time his leisure hours are spent in the home.

#### His Community Service—

A record of any service that any boy as an individual or any group of boys as an organization such as

### Fairbury Pair, Wed 66 Years, Landed in Nebraska in 1876 With 50 Cents

Special Dispatch to The Omaha Bee. Columbus, Neb., April 3.—Though knocked unconscious for many hours by the explosion of a cannon ball during the battle of Liberty Gap in the civil war, I. N. Thompson, Fairbury, (Neb.) pioneer, has lived to celebrate with Mrs. Thompson their 66th wedding anniversary. They observed the day quietly by visiting in Columbus Tuesday at the home of their daughter, Mrs. Charles Juhnke.

Mr. Thompson is past senior vice commander of the Department of Nebraska, G. A. R.; former county clerk and former clerk of the district court of Jefferson county. He is 87 and Mrs. Thompson is 85, and they're both as spry as most folks 20 years younger. Mr. Thompson's eyesight and hearing are somewhat impaired as result of the force of the concussion when the confederate cannon ball came near snuffing out his life at Liberty Gap in June 1865.

Mr. Thompson cast his first vote for Abraham Lincoln for president in 1860 and has voted for every republican nominee for president since.

#### Chewed Tobacco 68 Years.

Chewing tobacco, Mr. Thompson admits, is his chief hobby. His "plug" has been his constant companion for 68 years.

Mr. and Mrs. Thompson have ex-

perienced all the hardships incidental to pioneer life on Nebraska's prairies. Married in Danville, Ill., March 31, 1859, they made their home there until after his honorable discharge from the union army in 1865, after serving throughout the war. In 1867 they loaded their belongings into a prairie schooner and hit the trail overland to Nebraska.

#### Arrive With 50 Cents

When they arrived at Nebraska City in October, 1867, Mr. Thompson had just 50 cents. The first night these someone stole their harness, and the next day he had to pawn their wagon in order to buy harness so he could take a job as a teamster on the construction of the Burlington railroad through that part of the state. In March, 1868, they homesteaded in Jefferson county near where the town of Thompson, named in his honor, is now located. They retired from active farm life about 25 years ago and have since made their home in Fairbury.

Eight children were born to them, of whom five are now living: Mrs. Charles Juhnke, of Columbus; Homer Thompson, of Kansas City; Edgar Thompson, of Los Angeles; Mrs. Lilly Spence, and Mrs. Alice Grossnicklaus, of Fairbury.

as the Boy Scouts may have rendered along athletic, physical, charitable, social, moral or religious lines which may be accepted as a worthy contribution toward community service.

#### Contest Is Planned.

In explaining the plan, Mr. Harmon said:

"According to this plan it is proposed to invite the neighboring cities to enter a contest for service in the field of boys' work. The responsibility can be assumed by one or more of the clubs of the city so interested. The plan recognizes all kinds of activities that may be directed in the welfare of boys. If several clubs of the community desire to enter the contest the responsibility of adults as indicated by this plan may be divided among the clubs.

"The high lights of this plan are: First, it recognizes both the play time and the work time of boys. It is with

### Heavy Rain Helps Wheat Prospects

#### Wheat Acreage Smaller and Stand Lighter Than in Former Years.

Wymore, April 3.—A soaking rain fell over all territory in southern Nebraska and northern Kansas Thursday and continued most of Thursday night. At Wymore one and one-half inches fell. According to telephone and railway reports received here an average of two inches fell from the Missouri river territory west to Wymore and Crete. Washington and Cloud counties, Kansas, report over an inch of rain. In the vicinity of Chester, Superior, Edgar and Red Cloud from two and one-half to three inches fell and from De Witt to Holdrege an average of two inches was recorded.

All fields and pastures are thoroughly soaked, it being the best general rain for months. Pastures, lawn and wheat fields are showing up green this morning. Wheat in the northwestern part of Gage county is showing about 90 per cent of a stand, but many farmers south and east of Wymore claim the roots of the wheat are winter killed, and several farmers are known to have already plowed up their wheat fields and sowed oats.

The acreage of wheat this year is considerably less than in former years, and the stand generally lighter. The average acreage of oats is much larger than in former years.

#### Wheat Fields Replanted.

Red Cloud, April 2.—Nearly two inches of rain fell here Wednesday night and Thursday. It came too late, however, to help the wheat, 95 per cent of the acreage having been plowed up and the ground planted to

corn and oats, due to winter kill and drought.

#### Drouth Damage Averted.

Ellsworth, April 3.—Threatened damage from drouth in this section was averted by a drenching rain turning to snow last Monday and again yesterday with a misty condition which late in the evening turned to a gentle downpour of rain that continued without abatement until late Thursday.

This makes a favorable winter condition throughout the sand hills doubly good. For the stock a better winter could not be asked for.

With exceptional warmth grass has grown rapidly and this rain in addition makes the spring and summer outlook the best in recent years.

#### Rain Storms Welcomed.

Bridgeport, April 3.—Following an unusually dry and windy season of four weeks, which seriously threatened progress of fall grain and put the ground in bad shape for spring work, this region was visited this

week with two storms that were welcomed by the farmers. On Monday, there was .25 of an inch of rain and snow fell, accompanied by a high wind. Wednesday a slow, steady, downpour thoroughly soaked the ground, adding nearly another half inch of moisture.

#### Inch of Rain at Stella.

Stella, April 3.—An inch of rain has fallen here, coming down gently and slowly sinking into the ground. This rain was the first in three weeks and was much needed.

**Grandmother Knew**

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister. Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders. Gently massage Musterole in with the fingertips. See how quickly it brings relief—how speedily the pain disappears. Try Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

50c and 60c jars and tubes; hospital size, \$2.00.

**MUSTEROLE**

WILL NOT BLISTER

Better than a mustard plaster

**SUFFERED AFTER BIRTH OF BABY**

Trouble Caused by Getting Up Too Soon. Relieved by Taking Lydia E. Pinkham's Vegetable Compound

Talville, New York.—"I thought it would interest you to know what benefited me. I have derived from taking your medicine. A few days after the birth of my third child I got up too quick. Then just before my fifth child was born I had inflammation of the bladder and displacement. Seeing your advertisement in the Liverpool (England) paper I began taking Lydia E. Pinkham's Vegetable Compound and that was the best confinement I had. Whenever I feel run down I always take the Vegetable Compound as I believe them from its peculiar to their sex. For sale by druggists everywhere.

**WOMEN CAN DEPEND UPON LYDIA E. PINKHAM'S VEGETABLE COMPOUND FOR ALL THE ILLS THAT ARE PECULIAR TO THEIR SEX.**
