## "Pretty Hands

They Show Everywhere"—By Carmel Myers

"I use lemons—rub my hands with half a lemon, night and morning, if the skin is in the least dry, rough, red or cracked.

"Note the transformation in a few days, as I did when I tried it.

"Lemon juice seems to affect most hands in no other agent can.

"It's Nature's lotion, a whiteness which millions use today to insure youthful looking hands.

"Why not take advantage of it? See how it removes stains. Don't apply only to rough hands, but also to pretty hands for their protection after exposure to hard usage.

"Begin now to use this method daily. Keep a half lemon handy in a saucer by the sink or wash bowl.

"The richest juice, best for the hands, comes from California lemons. Be sure to get this kind. All first-class dealers sell them. I know what these lemons do. It's the simplest thing in the world to take care of your hands like this."

## Your Whole Appearance Depends Upon Your Hair

Without beautiful, well-kept hair, you can never be really attractive. Soft, silky hair is the most ALLURING CHARM any woman can possess. It makes the plainest features appear soft and sweet.

Fortunately, beautiful hair is no longer a matter of luck. You, too, can have beautiful hair if you shampoo it properly.

PROPER shampooing is what makes your hair soft and silky. It brings out all the real life and lustre, all the natural wave and color and leaves it fresh-looking, glossy and bright.

When your hair is dry, dull and heavy, lifeless, stiff and gummy, and the strands cling together, and it feels harsh and disagreeable to the touch, it is because your hair has not been shampooed properly.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why thousands of women, everywhere, now use Mulsified coconut oil shampoo. This clear, pure and entirely greaseless product brings out all the real beauty of the hair and cannot possibly injure it. It does not dry the scalp or make the hair brittle, no matter how often you use it.

If you want to see how really beautiful you can make your hair look, just follow this simple method.

### A Simple, Easy Method

FIRST, wet the hair and scalp in clear, warm water. Then apply a little Mulsified coconut oil shampoo.

Two or three teaspoons will make an abundance of rich, creamy lather. This should be rubbed in thoroughly and briskly with the finger tips, so as to loosen the dandruff and small particles of dust and dirt that stick to the scalp.

After rubbing in the rich, creamy Mulsified lather, give the hair a good rinsing. Then use

another application of Mulsified, again working up a lather and rubbing it in briskly as before. After the final washing, rinse the hair and scalp in at least two changes of clear, fresh, warm water. This is very important.

### Just Notice the Difference

YOU will notice the difference in your hair even before it is dry, for it will be delightfully soft and silky.

After a Mulsified shampoo you will find your hair will dry quickly and evenly and have the appearance of being much thicker and heavier than it really is.

If you want to always be remembered for your beautiful, well-kept hair, make it a rule to set a certain day each week for a Mulsified coconut oil shampoo. This regular weekly shampooing will keep the scalp soft and the hair fine and silky, bright, fresh-looking and fluffily wavy and easy to manage.

You can get Mulsified coconut oil shampoo at any drug store or toilet goods counter, anywhere in the world. A 4 ounce bottle should last for months.
