**Wheat Growth Retarded.**  
Beatrice, April 7.—W. R. Sparks, who resides in the Blue valley, near Hoag, Neb., says that during the last few days of warm weather some of the wheat which appeared to be dead is showing green and in his opinion it will make a fair crop, if weather conditions remain favorable.

## Climalene Chats

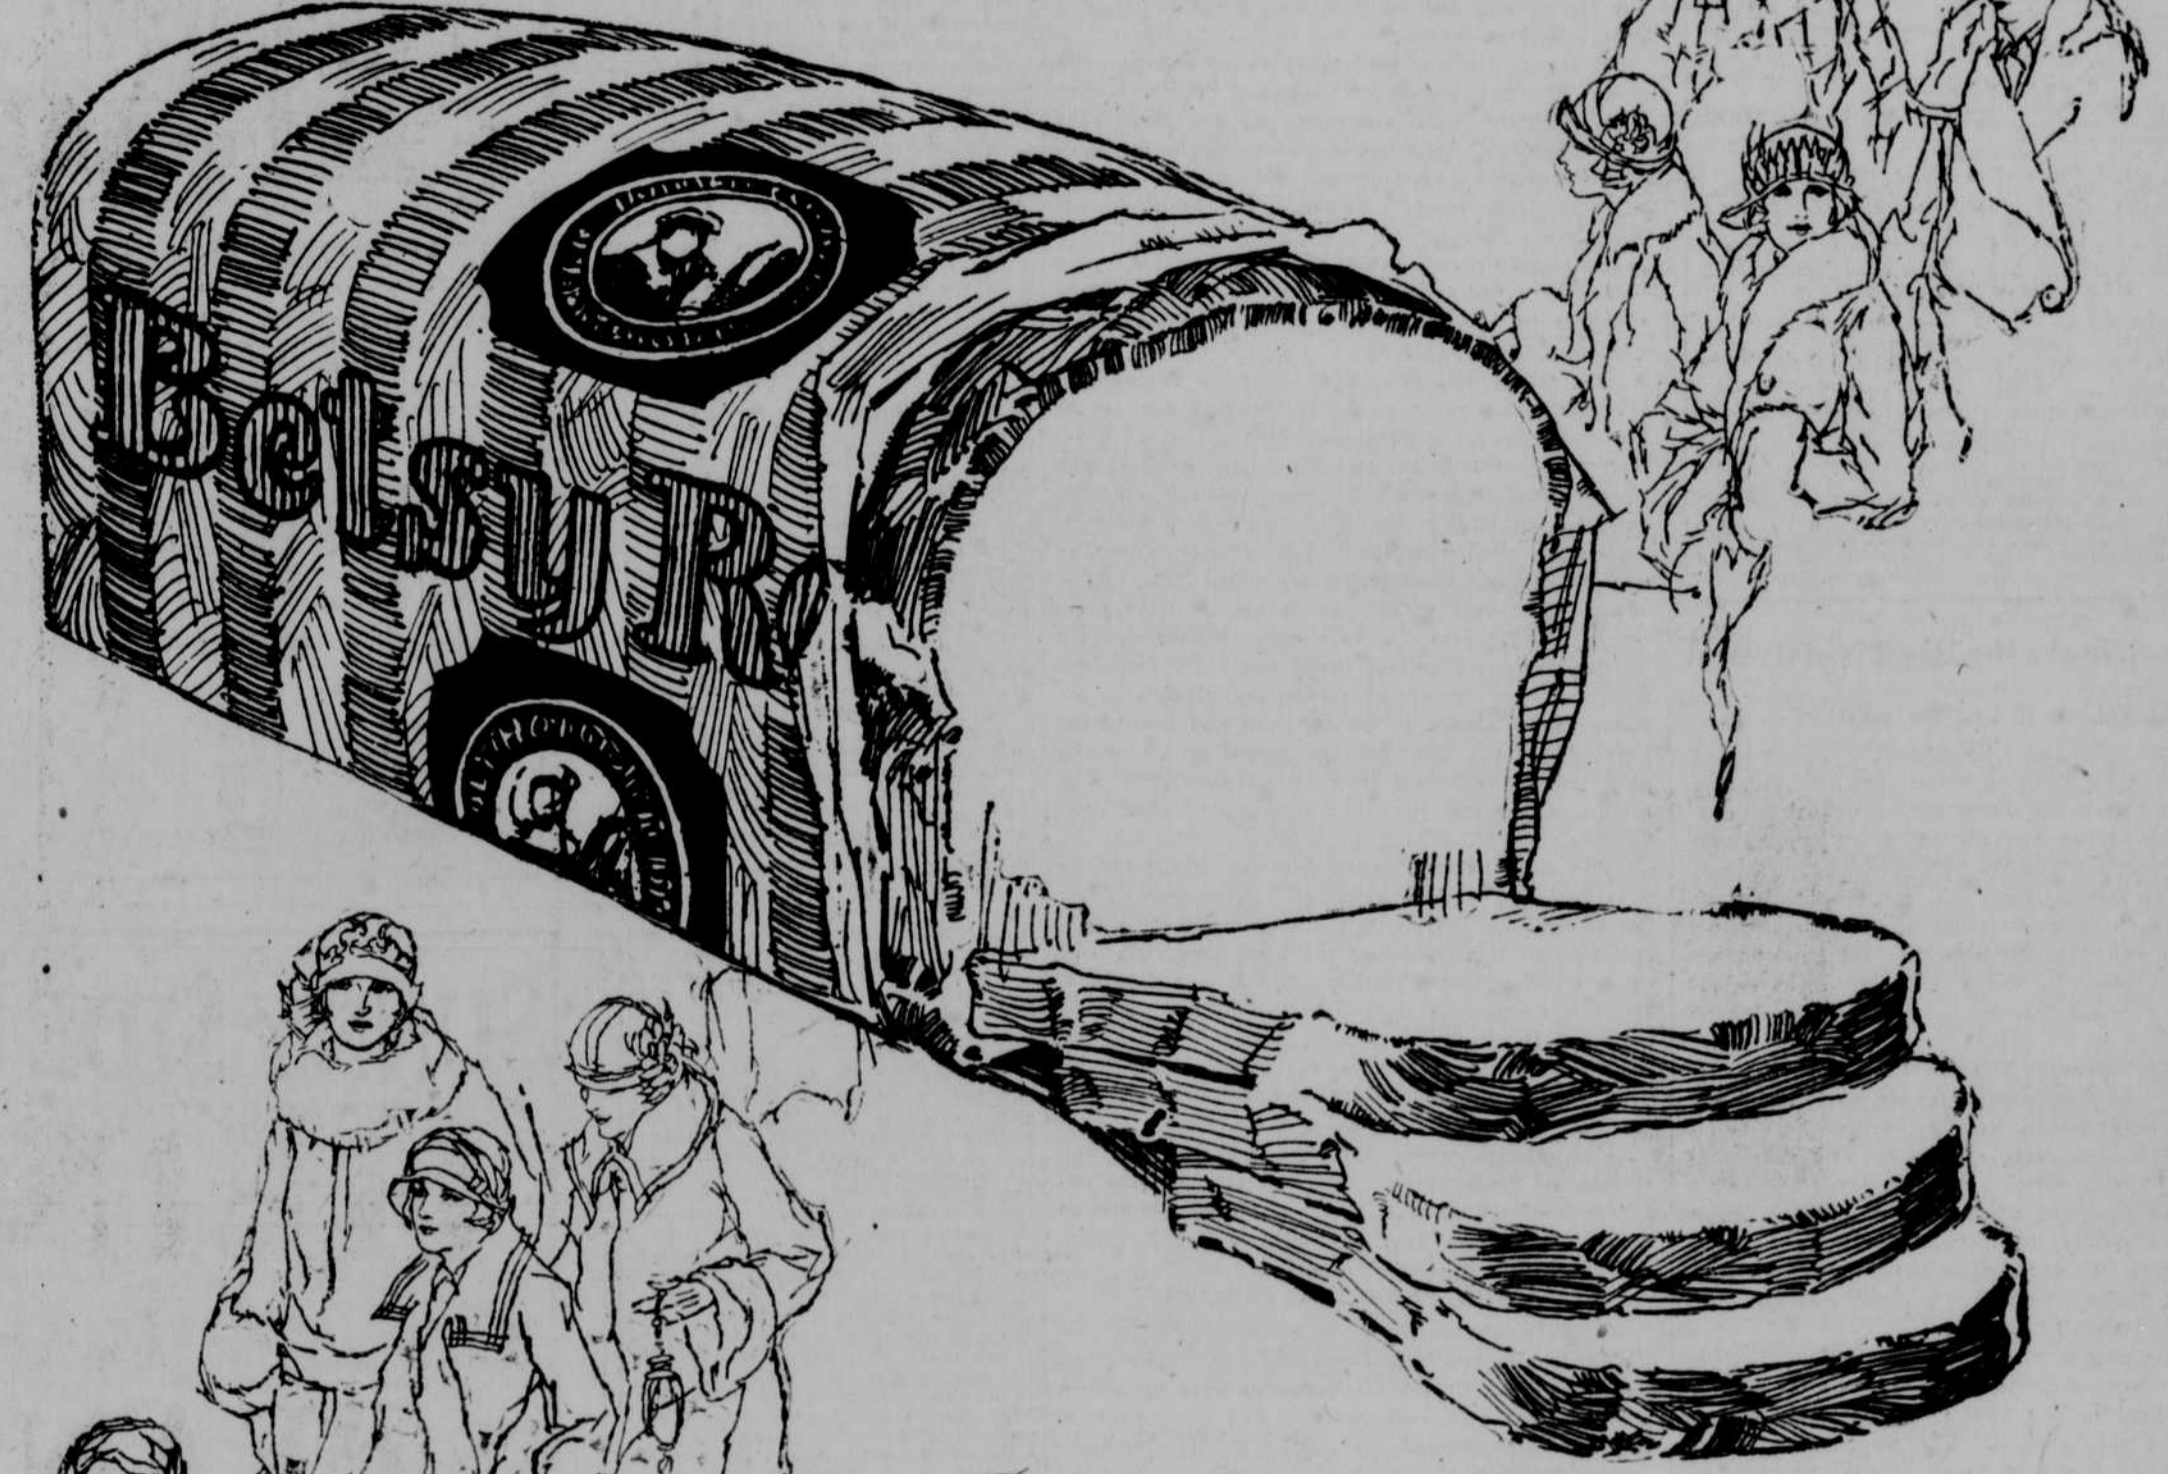

IT'S so hard to believe that a tablespoonful of Climalene in a bathtub can work such changes, that you never will believe it till you try it. You know the difference the minute you get in the water. You have another pleasant shock when you find that there's no "high-water" mark left on the tub. You delight afterwards in the smooth, soft, clean feeling that Climalene and soft water leave with you.

Of course, if Climalene is so good in the tub, it is equally so in the wash-bowl. For the usual toilet or shaving, just a pinch. When Dad comes from the garage or cellar after working on the car or painting, just tell him to sprinkle Climalene on his hands to get off the grease, paint and grime.

Your bathroom package of Climalene comes in handy too when it comes to cleaning day for the tile on walls and floor, for the painted woodwork, or linoleum. Remember always that Climalene, in spite of its wonderful aptness for hard jobs is a perfectly harmless softener and cleanser, with soft-water kindness to tender skins.
