FREE 10-Day Tube Note Coupon

Maybe your teeth are gloriously clear, simply clouded with a film coat. Make this remarkable test

## Dazzling, White Teeth

Here is the quick, new way dentists are widely urging

Make this unique test. Give your teeth high polish and fresh new color simply by removing the dingy film that coats them and invites decay and gum troubles.

THIS offers you a simple, actmost remarkable of all dental tests.

In a short-time you can work a transformation in their color and their luster. Modern science has evolved a

new and radically different method which successfully removes the dingy film that imperils healthy teeth and gums.

Simply send the coupon. Don't your teeth are naturally "off color" or dull. This will prove they are not.

Film-the enemy of beautiful teeth and healthy gams

Run your tongue across your teeth, and you will feel a film ... a viscous coat that covers them. That film is an enemy to your teeth and your gums. You must

It clings to teeth, gets into erevices and stays. It absorbs discolorations and gives your teeth that cloudy, "off color" look. Germs by the millions authorities urge a better way?

breed in it, and they, with tartar, are a chief cause of pyorrhea.

Tooth troubles and gum troubles now are largely traced to that film. Old-time methods fail in successfully combating it.

New methods remove it. And Firm the Gums

Now in a new-type dentifrice, called Pensodent, dental science has discovered effective combatants. Their action is to curdle the film and remove it, then to firm the gums. Ordinary methods fail in these

Harsh, gritty substances are judged dangerous to enamel. Thus the world has turned, largely on dental advice, to this new method.

A few days' use will prove its power beyond all doubt.

Mail the coupon. A 10-day tube will be sent you free. Why follow old methods when world
