#### Marine Air Corps **Proves Efficiency** of Fleet Attacks

Fliers Register Hits From 3,000 and 6,000 Feet on Battleship Outlined by Buoys in River.

Quantico, Va., April 15.-The ef ficiency of aircraft operating on the offensive, with a battle ship outlined by buoys on the river surface as the main objective, was tested today by corps aviators and pronounced by naval chiefs from Washington to be "impressive and satisfactory in results obtained."

A feature of the tests, which in cluded bombing at 6,000 and 3,000 feet altitude, parachute jumping, ma chine gun fire from the air and the laying of a smoke screen about the target, was the drill of five airplanes, flying from one formation to an other and executing commands as if they had been soldiers on parade. The evolution were directed by radio from the flying field, which at times was more than a mile away from the drilling air squadron.

Spectators Enthusiastic

At the conclusion of this exercise, in which Secretary Wilbur and Senator Frederick Hale of Maine, chair man of the senate naval committee acted alternately as drill masters, the two officials joined in saying that every order they had given from the ground station had been executed with the precision and promptness nat marks only the performance of crack military organizations.

The spectators, who numbered others Assistant Secretary Douglas Robinson of the navy, Maj. John A. Lejeune, commandant of the marine corps, and Rear Admiral William A. Moffett, chief of naval aviation, also were enthusiastic concerning the bombing tests. While no official tabulation of the comb hits was made, it was conceded that one of the 10 dropped from 6,000 feet landed within the target outline-620 feet long and 120 feet beam measurement-while the remaining nine hits were close.

FARMER FATALLY

BURNED IN HIS CAR

Tobias, April 15.—Harry Wilson, an unmarried farmer, about 35 years old, living two miles south of Mijligan, died at his home Tuesday from the effects of burns received when his sedan auto was destroyed by fire on the road four miles north of Tobias Monday. When Patrick Gill, neighbor, was driving to Tobias Monday, he came upon the burning auto and discovered Wilson unconscious at the roadside, about 15 feet from the car, his clothing practically all burned from his body.

Wilson was a constant smoker, and it is probable that the upholstering in the car caught fire from a spark.

Mrs. Sarah Wilson, 62, mother of the fire victim, was fatally burned chestra.

Mrs. Sarah Wilson, 62, mother of the fire victim, was fatally burned at her home in Tobias about three months ago, while rendering lard. The survivors of the family are: Frank and Elmer, brothers, farmers in the Tobias vicinity, and Mrs. Bert Crouch of Central City, a sister.

John Singer Sargent, Portrait Painter, Dead

London, April 15 .- John Singer Sargent, famous portrait painter, died He was 69 years old.

Sargent, the son of a Boston phy sician, became the most famous por trait painter of his day. He was born in Florence, Italy, in 1856, and was educated in Italy and France. His study as an artist was mainly under Carolus Duran, and he wa about 23 years old when his work was first exhibited at the salon. Since that first success, in 1879, his paint ings were continually exhibited in the famous art salons of the continent. He was a member of the Roya Scottish Water Color society, and in
