MARRIED,

On Sunday, the 10th inst, by A. R. Blackburn, Esq., Mr. JOHN D. SCOTT, of Omaha city, to Miss ELIZABETH DAVIS, of La Platte, in this county.

Serious Accident.

We regret to announce, that on last Monday about noon, whilst Mr. WILLIAM WILDER, and Mr. PADDOCK, of Omaha, were passing through our city, their horse took fright near Mr. JENNINGS' large building, and started to run at full speed, throwing Mr. WILDER, out of the buggy and breaking both bones of his left leg below the knee. So bad was the fracture, that the bone protruded through the skin. M. PADDOCK retained his seat and fortunately brought the horse to a stand.

Mr. WILDER is a young man of energy and perseverance, and we deeply sympathize with him in his affliction. He has been a resident of this Territory a long time, in fact, one of our earliest pioneers.

☞ The following Steamers have passed up and down the Missouri river, within the last ten days, all of which brought large quantities of freight and passengers to this city.

Those passing up were the Emma, Asa Wilgus, Emigrant, Min ne-ha-ha, Washington City, Florence, Admiral, and Edinburg.

Those passing down, were the Omaha, Hanibal, Silver Heels, Emma, Emigrant, Min-ne-ha-ha, Asa Wilgus and Admiral.

☞ We call the attention of the citizens of Bellevue, to the card of Mr. JAMES J. WEAVER, an energetic mechanic who has come to reside among us. He is an excellent workman—give him a call.

The N. Y. Evening Post, of May 2d., says there are surmises of an armed resistance by Mayor Wood to the new legislative enactment that refers to our city. A hundred muskets have been placed in the station house of the 10th ward. The democratic members of the common council will meet in caucus to act on further resistance.

IMMENSE TELEGRAPHIC ENTERPRISE.—We learn from a gentleman in the way of receiving authentic intelligence on the subject, that a number of gentlemen of this city largely interested in the telegraphic business, have a project on foot to connect New York and San Francisco direct by a line of telegraph.

The plan is not yet fully matured, but when perfected, it will embrace a preliminary expedition under the auspices and protecti n of the government party, which is soon to start on an engineering tour for the purpose of laying out (under the recent act of Congress), a Military Road to the Pacific.

The Telegraphic party, which is to accompany the Military Expedition, will probably consist of some forty or fifty persons, and will be amply supplied with mules and camels for the purpose of crossing the continent with safety and dispatch. The party will start from Omaha city, in Nebraska (to be connected by telegraph with St. Louis), follow the Platte river to the South Pass, and thence direct across to San Francisco.

This is an immense enterprise, and one which requires a large outlay of labor and capital. Shou'd it prove successful, and the submarine telegraph be laid successfully in July, London and San Francisco will be within hailing distance of each other, and the quotations on 'Change in the Metropolis of Europe will be bulletined in the Golden city within an hour.—[N. Y. Mirror, 18th.

The latest way to pop the question is to ask a fair lady, if you shall have the pleasure of seeing her to the minister's.

GREAT SALE OF LOTS

IN

PACIFIC CITY!!

MILLS COUNTY, IOWA.

Terminus of the Burlington & Missouri River Railroad.

THE Proprietors of Pacific City will offer for sale, at Public Auction, on the ground,

On Thursday, the 28th day of May 1857,

TWO HUNDRED LOTS!!

Sale to commence at 10 o'clock and continue from day to day until the same are sold.

Pacific City is situated in Mills county, Iowa, on a beautiful plateau of ground in the Great valley of the Missouri, three miles east of the mouth of Platte or Nebraska river, four miles east of Plattsmouth, the Nebraska terminus of the B. & M. R. R., thirty miles northeast of Nebraska City, twenty-five miles south of Council Bluffs, Iowa, and Omaha City in Nebraska. It is adjoining the bluffs of the Missouri river, at the entrance of Poney creek into the bottom. It extends into the bottom two miles and within two miles of the channel of the Missouri river, the bottom gradually descending to the river. The uncertainty of the river banks for a mile east of the river disapproves of the propriety of building within that distance of the river.

The location is a healthy, romantic, and beautiful one, being backed by bluffs two or three hundred feet high, upon the top of which may be seen the great Missouri bottom for thirty miles south, and twenty miles north.

The site has long been looked upon as one of the most beautiful sites in Western Iowa for a large and thriving City, and has been held by the first settlers in Iowa for that purpose, only awaiting the improvement of the country, the demands for such a town, and the Railroad facilities which are soon to be completed.

A branch of the Burlington and Missouri River Railroad will be built both north and south of this place. The St. Joseph, Council Bluffs, and Sioux City Railroad will undoubtedly run immediately through the town site.

Stone of the best quality and most extensive in Western Iowa lies one mile south, and four miles north of the town.

Four steam mills within five miles of the town are in successful operation, sawing from three to five thousand feet per day, besides a number of water mills.

Another steam mill is on the way to be put up in the town.

A newspaper will be published there by the first of June next.

Lumber is now on the ground, and being sawed, to erect fifteen or twenty houses.

Contracts have been made to burn two and a half million brick this season.

The advantages which this place has over all others in western Iowa—the Railroad facilities which Pacific City cannot miss having, together with being supplied with the best water in the world, with timber, and the best agricultural counties in Western Iowa and Nebraska lying east and west of it, is a sure indication that long ere the Railroad is completed that Pacific City will be the largest city west of Burlington.

Terms of sale will be one-third down; one-third in four, and one third in eight months.—This will be the last and only chance to procure lots of the Company, as the remaining lots after the sale will be devided among the members of the Company, and hence will become the property of private individuals, and prices, as a matter of course, be advanced.
