HERE'S A GOOD THING.

A Central Labor Union That Goes at Its Work Properly.

The Saginaw, Mich., Central Labor Union has gone about its work in the proper way. At a recent meeting it unanimously adopted the following resolution:

"Resolved, That the Central Labor Union authorizes the president to appoint a committee of three for the purpose of ascertaining if the union men who represent the various locals in this body are really putting the principles of 'Trades Unionism' into every day practice;

"Be it further resolved, That the duties of this committee shall be to search for the union label in the clothing, hats, caps, shoes, etc., of every delegate seeking admission to this body, and that the finding be reported to the chair before the delegate is seated."

That's the kind of work that counts. The union man who persists in wearing "scab" clothes and hats or shoes, and buying "scab" products of any kind, is not fit to represent a body of union men in anything, much less a Central Labor Union. The alleged unionist who does not look for the label of fellow unionists ought to have his card taken away from him. Better "scabs" in the open than "scabs" inside the fold—and the man who patronizes the product of "scab" factories is no better than the "scab" himself. The example of the Saginaw body should be followed by every central body in the country.

ST. JOSEPH BARTENDERS.

Decide to Remain in the Fold and Keep on Being Good.

The Union Bartenders of St. Joseph have taken another "think" and as a result have decided to be good and keep in good standing with their international. Organizer Husted spent

a couple of weeks laboring with the disgruntled unionists, and as a result there is no more talk of withdrawing and organizing an "independent union." This will be good news to the union bartenders throughout the Missouri valley, to whom the news of St. Joseph's defection was an unpleasant shock.

The Lincoln local is not making much of a stir these days, but the enthusiasm in the work of unionism is kept keyed up to the proper pitch and the members keep right at work boosting the cause. The local is prospering both as regards membership and finances.

GENERAL MENTION.

Interesting Items Culled From the Local and Other Fields.

Rogers & Perkins carry a full line of union made shoes.

There are 2,000 union barber shops in the city of Chicago.

The largest line of union made shoes in the city at Rogers & Perkins.

Chicago printers cheerfully paid \$300 a week to the striking teamsters.

The street car men of Detroit form the largest union in that city. They number 2,000 and form one-fifth of the total union men of the city.

The American Federation of Labor has chartered a fishing smack and an organizer will sail down the Atlantic coast and organize the fishermen.

The California legislature has enacted a law prohibiting drug clerks from working more than ten hours a day or more than six consecutive days.

New York tailors are demanding a nine-hour day. They have been working ten hours a day, and their wages have averaged less than \$10 a week.

The Washburn-Crosby mill people still declare that the fight on them by the American Federation of Labor doesn't hurt, but they say it in a whinny tone of voice. While every other mill in Minneapolis is running full

time, the output of the Washburn-Crosby mill has decreased 2,000,000 barrels during the last eight months.

The policemen of Lyons, France, are on strike for better wages. This is a strike calculated to make the French Parryites walk the floor 'nights.

Do not forget the Central Labor Union benefit Wednesday evening, July 19, at the Oliver. Fulton Stock company in "Lost Paradise," the great labor play.

The local Stereotypers Union met Wednesday night and enrolled itself on The Wageworkers' roll of honor. Then it took in a new member and transacted some other business.

The sweat shop evil is spreading in Chicago. Forty cases of violation of the law have been reported within forty days. It is claimed that the war on the garment workers is the cause of it.

Philadelphia cigarmakers have averaged an expenditure of \$1,300 a month for the last five months for purely benevolent purposes, not a cent having been expended in strikes. Did the non-union independent workman ever contribute anything like that amount to his suffering fellow non-unionists?

WHAT'S THE DIFFERENCE?

A Labor Paper Propounds a Query That Deserves an Answer.

When a cabinet minister leaves the cabinet he invariably gets a very lucrative position from some corporation doing a financial business with the government. He receives a high salary, presumably because of the inside knowledge he has acquired during his term of office. If such is the case, what difference does it make whether the official knowledge is sold during his term of office or after the term expires?—Machinists' Journal.

Man may buy immunity from man-made law, but there is one law that is above purchase.
