## A Toy Department as Nearly a Model as Can Be Made in One Season

We have set our standard at having nothing but practical or beautiful toys without tawdry coloring or material that falls to pieces.

Much of our stock is such as would be found in only the best equipped toy stores. Mechanical toys that will go or do the genuine work include sewing machines, typewriters, printing presses, magic lanterns, animals that "speak," jump, walk, or move parts of the body. We have included many of the high grade toys advertised in the periodicals. Among these are the Weeden steam engines, Ives mechanical trains, Schoenhut Humpty Dumpty circus sets and pianos, and Parker Bros.' games.

We take special pleasure in presenting our dolls. Among them are the Santa line that was awarded grand prize at St. Louis and large varieties from J. D. Kestner and other leading manufacturers. One of the best things about our dolls is that they are cheap. No child should be excluded from these necessities of life. And they need not be. For 25c you may have a beauty with kid body, eyes that shut, light or dark hair and shoes and stockings.

Bring the children to enjoy the entertainment. There is a young man to make the mechanical toys perform properly and someone to show how the typewriters and sewing machines are to be used. Surprises appear whichever way you turn. It's worth a visit to the department to see the fun in the faces of the youngsters.

### Doll Fittings

**Doll Bodies**—45c, 60c, 70c, \$1.00, \$1.25, \$1.75, \$2.50.  
**Doll Arms**—15c, 15c, 20c, 30c, 40c.
