GILSON'S SORE THROAT CURE.

Good for Tonsillitis.
Office of W. M. LINE, M. D.
Germantown, Neb., Feb. 8, 1904.
I have had most excellent results with Gilson's Sore Throat Cure in diseases of the throat and mucous linings. I find its application in tonsillitis and cases where a false membrane exists in the throat, as in diphtheria, to have an immediate effect, loosening and removing the membrane, and thereby at once relieving this distressing sensation of smothering noted in these cases. My clinical experience with Gilson's Sore Throat Cure has proved to me its value and I can heartily recommend it to all as a safe and reliable preparation for the disease it is recommended.

EASY PHILANTHROPY.

Get the Credit While the Other Fellow Furnishes the Money.

A big "scab" clothing company in Chicago rushed frantically to the front when contributions for San Francisco were called for, and planked down a liberal sum. Of course the fact was mentioned at length in the newspapers and the "scab" clothing manufacturers got a lot of advertising out of it. But the following Monday a notice of a severe reduction in wages was posted in that same company's factory, and the reduction for a month will more than offset the contribution to the San Francisco sufferers. That is a cheap way to get a reputation for philanthropy. It takes a "scab" employer to play that sort of a trick.

Once in a very great while a girl of 25 marries for love, but more often it is for money or to escape spinsterhood.

A COOL SUMMER

NO need to hunt for a cooler climate than this if you cook with Gas. One of our Modern Gas Ranges makes summer a luxury. Heat for cooking, but not for sweltering. A Gas Range Kitchen is the joy of the housekeeper.

Now is the Time

To put in that Gas Range and save fuel bills, save strength and add to comfort. You'll need less ice if you burn fuel gas.

Ever Notice This Fact

People who once use Fuel Gas are never content to return to coal or wood. Gas is the ideal fuel. We sell the Ranges, connect with the mains and furnish the gas. You turn a valve and touch a match. Saves all the work, dirt and worry and fully one-half the expense.

Let us furnish you with estimates on piping your home and supplying fixtures.

Get Off and Stay Off

Last week we advised you to get off of O street when you went shopping for good clothes. Now we advise you to STAY off. It's impossible for you to get as good values for your money there as we can give you. The rent on O street is very high. Our rent is low and we give you the benefit of it. It's a foolish man who pays more for his clothes than is necessary. There's no doubt about the truth of our claim that we sell good clothes for less money than any other house in Lincoln. The goods are here with the price on them so all can see. And the price is always the same to everybody every day in the year. No "Clearing Sales." No "Cut Price Sales," but the lowest prices always. Don't fail to see our suits and get our prices before you buy.

Rev. Louis G. Hoeck, of Brockton, Mass., says: "The greatest evil among the employers of labor is love of money, which results in all interest in their employes being eliminated, and they come to regard men merely as machines, with the result that they turn their employes out of their positions, even when they have been earning scarcely a living. And they are unwilling to increase their wages when business profits increase."

Garry Herrman, formerly a printer and now owner of the Cincinnati Base Ball Club, recently returned \$300 which he received from an organization for the use of his ball park on Sundays when not in use by the league and turned the grounds over to the Toledo Base Ball League. Garry said: "Here is your money back, my friend. I regret extremely that I cannot let you have the park; but you see the printers—and I carry an up-to-date working card in that organization—are on strike, and I have got to help them; they will have the use of my grounds, and I can help the boys in a monetary as well as in the sporting way."

STRIKERS DONATE.

Streator Miners Divide with the San Francisco Sufferers.

Talk about brotherly love and all that sort of thing—the striking coal miners at Streator, Ill., gave an exhibition of it the other day. They have been out on strike for several weeks, and have been on short rations themselves. But when they heard of the suffering in San Francisco they immediately took up a collection and sent \$100 by wire to the stricken city.

That's what unionism teaches. It takes good union men to do that sort of thing. And the Streator miners have reflected honor and glory upon unionism by their unselfish action.

The financier had at last consented to place his head in the hands of a phrenologist.

"This bump," the latter began, "assures us, sir, that you will never die in prison."

"Well, I'll be thankful for that," said the financier, heartily.

"Yes," resumed the other, "the bump of longevity is pronounced. You will live, sir, to serve out your time."—Leather Workers' Journal.
