GILSON'S SORE THROAT CURE.

Good for Tonsillitis.

Office of W. M. LINE, M. D.

Germantown, Neb., Feb. 8, 1904.

I have had most excellent results with Gilson's Sore Throat Cure in diseases of the throat and mucous linings. I find its application in tonsillitis and cases where a false membrane exists in the throat, as in diphtheria, to have an immediate effect, loosening and removing the membrane, and thereby at once relieving this distressing sensation of smothering noted in these cases. My clinical experience with Gilson's Sore Throat Cure has proved to me its value and I can heartily recommend it to all as a safe and reliable preparation for the disease it is recommended.

SMOKES A FINGER.

Peculiar Cigar Filler Makes Smoker Violently Ill.

The following item sent out by the Associated Press is only one feature which the smoker of machine made cigars is liable to get against, says the Streator Trades and Labor Gazette. Should care and time be given in the making of trust made cigars, as do the blue label hand made factories, such incidents would be unknown. But the desire to get large dividends on stock (water and otherwise) by the tobacco

trust, embraces no time for careful inspection before being placed on the market. The dispatch follows:

"Des Moines, April 28.—George Loubard, of Fort Dodge, was made violently sick today by smoking a cigar in which a part of a human finger was discovered.

While the piece of finger was comparatively small it was easily recognized, as two joints and a part of the finger nail could be discerned.

It had evidently been cut off the hand of a cigarmaker by a machine in some factory and unnoticed became mixed with the filler. Loubard had bought several cigars. On smoking one of them he noticed a peculiar flavor. A few minutes later he was taken sick. Breaking open the cigar he found the finger."

SCHAUPP KICKS.

Will Not Take the City Directory Until He Has To.

Adam Schaupp is being sued by the Polk-McAvoy Directory Co. for an advertisement in the Lincoln City Directory. Mr. Schaupp bases his defense on the fact that the solicitors for this concern guaranteed that the work on the directory would be given to Lincoln printeries. That this is the case will be testified to by scores of people who were misled into patronizing the outfit by reason of these promises. Not only were the people led to believe this, but the managers of the outfit shrewdly led certain Lincoln publishers to believe that they were to secure the work. Not until the book was almost ready for delivery was it ascertained that the work was being done elsewhere. The Wage-worker immediately advised people not to accept delivery nor to pay the money for advertising therein, as promises had been violated and contracts rendered void. Mr. Schaupp, whose friendship for organized labor and readiness to stand by Lincoln institutions is well known, refused to accept a copy or to pay for the advertisement. Suit was brought before Justice Bacon, who appeared also as counsel for plaintiff. A change of venue was taken to Justice Risser's court and the trial set for May 8. The plaintiff took a continuance until May 23 to secure evidence showing that the Polk-McAvoy concern is not a trust. Whatever the outcome of the trial, Mr. Schaupp deserves the thanks of organized labor for his firm stand in this matter.
