

FOUR YEARS OF AGONY.

Whole Foot Nothing But Proud Flesh—Had to Use Crutches—Cuticura Remedies the Best on Earth.

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. At last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day, and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day after five years of suffering. The cost of Cuticura Ointment and Soap was only \$6, but the doctors' bills were more like \$600. John M. Lloyd, 718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

THE CAMERA FIEND.

Man Was Not Satisfied with Ordinary Amusement Like Taking Pictures.

A well-known criminal lawyer one day sauntered into a police court just as a case was called. It appeared that the defendant had no attorney, and the judge glanced about the room to see whom he might assign to the case. "I'll take it, judge," the late comer said, wishing to pass away the time.

"By the way, what is the man charged with?" the attorney presently asked.

"He's a camera fiend of the worst sort, Mr. Brown," the judge said with a slight smile. "I expect to send him to the workhouse for about three months."

"What!" the lawyer shouted, indignantly. "Your honor must be joking. Send a man to the rock pile for three months for a little harmless amusement like taking pictures?"

"Well," the judge said, mildly, "he don't take pictures much—it's the camera he takes."

LOVE LORE.

It is easier to love and be wise than to be generous and have money. Jealousy is green and does not harmonize with Love's hair and eyes. Love laughs at locksmiths, because parents don't lock up their daughters any more.

When Poverty comes in at the door True Love engages her on the spot to do the cooking.

The pity of Love's blindness is that marriage is the only oculist that guarantees to restore the sight.

Don't complain of your lover's amateurishness. In this you have profited that you are the first.

Show me the sweethearts of the land, and I will confess myself that much more puzzled about the men.

Life gave a dinner, and while it may not have been a feast from an epicure's point of view, it was a great success. The guest of honor was Love.

When Love begins to sicken and decay, sometimes the tonic of indifference will effect a quicker recovery than all the careful nursing in the world.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

FACTS ABOUT HUMANITY.

The average number of teeth is 32. The weight of the circulating blood is 29 pounds.

A man breathes about 20 times a minute or 1,200 times an hour. The average weight of the brain of a man is 3½ pounds; of a woman 2 pounds, 11 ounces.

The average height of an American is 5 feet, 9 inches; of a Frenchman 5 feet, 4 inches; of a German 5 feet, 7 inches.

Aged English Clergyman.

Rev. John Aldis, once the most prominent minister of the Baptist denomination in England, has reached the age of 98. He began life in a shoemaker's shop. Afterward he was sent to Horton college, near Bradford, now known as Rawdon college. Later he became pastor of Maze Pond chapel, London, and in 1866 he was elected chairman of the Baptist Union.

To prevent that tired feeling on ironing day—Use Defiance Starch—saves time—saves labor—saves annoyance, will not stick to the iron. The big 16 oz. package for 10c, at your grocer's.

The world likes a winner, but loves a good loser.

Pride goeth before a mark-down sale of left-over Easter bonnets.

Boys will be boys, especially the "ay old ones who have passed 60."

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures whooping cough. 25c a bottle.

A friend in need usually needs all he can squeeze out of you.

ABOUT PRESSING FLOWERS

Pressed Flowers Are Pleasant Souvenirs of a Vacation—How They May Be Preserved.

No prettier or more pleasure-giving vacation spent at the seashore or in the country could be found than a specimen book filled with dried flowers, leaves and seaweeds, and the work of gathering and preparing them would amuse the most indifferent boy or girl. Then it is very simple, and costs little time and trouble.

The collector should provide himself with a tin botanical box, or, lacking this, with several dozen sheets of soft, thick, unglazed wrapping paper, and two boards for covers. The paper and the boards should be several inches larger than the book in which the specimens are to be preserved, advises the Chicago Inter Ocean.

As each specimen is gathered, place it between two sheets of the paper, being careful to make it lie in a natural position. When the collector reaches home, he should transfer the specimens to fresh sheets of paper, placing several sheets between them, and when they are thus placed, one on top of the other, they should be weighted down with anything convenient, say books, or heavy boards, or even stones.

They should remain thus weighted for from 24 to 48 hours, and should then be removed to fresh sheets of paper, and be packed and weighted down as at first, allowing them to stay so for another period of from 24 to 48 hours. The paper used in the first packing may be dried and used again.

When the specimens are taken from the second packing, they should be mounted or fastened on separate sheets of paper for preservation. There are several ways of doing this. One way is to gum down the whole flower or leaf, but a better way is to fasten it in place by putting narrow bands of paper over parts of it. By the last method it is possible, if desired, to remove the specimen to a fresh sheet of paper.

The specimens may be mounted in a scrapbook, or the separate sheets may be kept in a box of proper size; if the latter, a light weight should be kept on them. A bit of camphor in the box will preserve the specimens, but better still it is to open and examine them now and then, so that they may get air. No specimen should be put away until it is perfectly dry, or it will mold.

On each sheet containing a specimen should be written the name of the flower or leaf, with the place where it was obtained, and the date.

SIMPLE SUMMER DESSERTS

Sponge Cake Light as Air, a Good Fudding, Snow Ball Trifles, Toothsome Brown Joe Bread.

SPONGE CAKE WITH HOT WATER.—Yolks of five eggs, two cups of powdered sugar, well beaten together; next three-quarters of a cup of boiling water, two cupfuls of flour, a pinch of salt, two heaping teaspoonfuls of baking powder and flavoring to taste. Beat the whites of the eggs to a froth. The cake is best cut with a fork.

PEGGOTTY'S PUDDING.—Four ounces of flour, four ounces of suet, rind and juice of lemon, tablespoonful of treacle, one ounce of candied peel, one teaspoonful milk. Boil three and a quarter hours, sifted sugar to be strewn over before serving.

SNOW BALLS.—One cup of sugar, two eggs, four tablespoonfuls sweet milk, one heaping teaspoonful of baking powder, flour sufficient to work into balls. Fry in lard, and when done dip in white of egg, then in powdered sugar until white.

BROWN JOE BREAD.—Two cupfuls of corn meal, two cupfuls of white flour, one cupful of molasses, one cupful of sour milk, one teaspoonful soda. Steam three or four hours and bake half an hour.—N. Y. World.

Chicken Salad. Four pounds chicken will make salad for ten or 12 persons.

Cut the light and dark meat into fine pieces. Use two-thirds of the chicken to one-third of celery. Mix the salad with the dressing, saving some to pour over the top before using.

Salad Dressing.—One tablespoonful mustard, one tablespoonful sugar, a teaspoon of salt, one cup milk, one of vinegar, three eggs. Mix sugar, salt and mustard together and add the vinegar and well beaten eggs. Pour the milk in, stirring slowly all the time. Set in a dish of cold water and cook as soft custard; add a piece of butter as large as an egg and stir in thoroughly.

A Dinner Party.

Everything should be in readiness sometime before dinner is actually announced, so that the maid can go round and see that nothing is forgotten. A thing to impress strongly on servants is the necessity for giving all plate and glass a final polish before putting it on the table, as nothing looks worse than plate or glass which is finger-marked or not perfectly cleaned. Attention to these little points is the mark of a well-trained servant and a good mistress.

A Summer Drink.

Owing to its acidity, buttermilk is of laxative property and is supposed to make general impression on the liver. It can often be taken by those unable to take fresh cow's milk and has been found valuable in the treatment of diabetes, gastric ulcer and cancer of the stomach. It is said to be one of the most digestible of milk products and is recommended to serve the double purpose of food and beverage.

HIS ONE WEAK SPOT.

Prominent Minnesota Merchant Cured to Stay Cured by Doan's Kidney Pills.

O. C. Hayden, of O. C. Hayden & Co., dry goods merchants, of Albert Lea, Minn., says: "I was so lame that I could hardly walk. There was an unaccountable weakness of the back, and constant pain and aching. I could find no rest and was very uncomfortable at night. As my health was good in every other way, I could not understand this trouble. It was just as if all the strength had gone from my back. After suffering for some time I began using Doan's Kidney Pills. The remedy acted at once upon the kidneys, and when normal action was restored, the trouble with my back disappeared. I have not had any return of it."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

LIKE EDGE OF THE WORLD

Unalaska, in the Alaskan Islands, a Desolate Spot—Where White Men May Not Land.

Unalaska resembles other northern stations, having warehouses, docks, the inevitable Greek church and a score of wooden cabins. Whalers leave here for the Arctic regions.

Dutch Harbor is a station for our revenue fleet. There is much coming and going of ships of all nations; there are quite a number of fishing boats, and only two ships out of twelve carry colors of the same country.

Just before entering the harbor one notices a detached rock high against the side of the cliff. It bears a striking resemblance to a Russian priest in full robes. Touched by the sunset light, he seemed to stand blessing the harbor.

Sailing north out into Behring sea, one looks back at the desolate, silent, treeless islands, which seem to wall the edge of the world. Hundreds of miles west they run toward Vladivostok.

Two hundred and forty miles north of Unalaska are the Pribilof islands; not large, but the greatest seal islands in the world. There are many fur seals around the shores of Behring sea and the Aleutian islands, but the great mass of them are bred on the Pribilof group. No white man is permitted to land on these breeding grounds without a permit, signed by the secretary of the treasury of the United States.—Outdoor Life.

ABOUT WOMEN.

Freshness is not to be despised in women, vegetables or flowers.

A woman of gushing proclivities is apt to consider herself irresistible. The woman who nags her husband feverishly sits down to a lonely meal. Wise is the woman who does not expect a man's devotion at election time.

The woman who constantly quotes her husband seldom realizes what an intolerable bore she is to others.

A woman with a musical voice may babble of coal dust and sauer kraut, and still compel you to think of lute strings.—Exchange.

International Cyclopedia.

The medical faculty of the Paris university plans an international technological encyclopedia. It is to be issued in ten languages, including "Esperanto," the world language.

The man who does all he can generally finds that some one else will do the rest.

Sardinia Once Wild Country.

Sardinia was a wild place in the middle of the last century. A traveler says: "The men are clothed in goat-skins, one before and another behind, without breeches, shoes or stockings, and a woollen or skin cap on the head. The women have no other habiliments than a long woollen gown and a woollen cap. The peasants always go armed to defend themselves from one another, so that traveling in the interior is extremely unsafe without an escort; and it is even dangerous for ships to send their people on shore for water unless they are well armed. In short, the Sardes are the Malays of the Mediterranean."

Paper Telegraph Poles.

Servicable telegraph poles can, it is found, be constructed of paper. Such poles are made of paper pulp, in which borax, tallow, etc., are mixed in small quantities. The pulp is cast in a mold with a core in the center, and forms a hollow rod of the desired length. The paper poles are said to be lighter and stronger than those of wood, and to be unaffected by the sun, rain, dampness, or any of the other causes which shorten the life of a wooden pole.

King Dictates Train's Speed.

When King Edward is about to take a railway journey his majesty is invariably consulted as to the speed at which the royal special shall travel.

Charles Santley, the famous baritone who is still singing at the age of 72, is probably the greatest linguist in the concert world, speaking fluently French, German, Italian and Spanish and has a wide knowledge of Greek and Latin.

Compromise.

"I have a little granddaughter," said a senator, "who is very fond of animals, especially dogs. Her mother has taught her to pronounce the word until it sounds like dahg. Her father sticks to the good old-fashioned dawg, so the child has compromised, and now every canine is a dahg-dawg."

Nothing Succeeds Like "EGG-O-SEE."

The man who preaches the best sermon; the man who tells the funniest stories; or the man who keeps the best store; or the man who makes the best goods; soon finds that people come to him. Merit is the best advertisement in the world. People speak well of things they know are good. They pass the good word along.

The best breakfast food is EGG-O-SEE, for it contains all the life-giving properties of nature's best food, which is wheat.

EGG-O-SEE is deeply in debt to the thousands of wives and mothers who use it in their homes, for these good women tell their neighbors about this great food.

Children and aged persons alike are friends of EGG-O-SEE.

Merit and common sense are the things that advertise EGG-O-SEE most. EGG-O-SEE is cheap. A 10-cent package contains ten liberal breakfasts. EGG-O-SEE is sold everywhere. Grocers must keep it if they want to keep their good customers, for good customers insist on buying EGG-O-SEE.

The fact that no preparation, no cooking is required, makes EGG-O-SEE very popular. Open the package; put as much as you like in a dish; pour on milk or cream and eat. It is delicious. It is wholesome. It makes you strong.

A lot of interesting facts about EGG-O-SEE have been published in book form entitled, "Back to Nature." This book also has a course of physical culture—fully illustrated. Any one wishing this book will receive it free by addressing EGG-O-SEE Company, 10 First St., Quincy, Ill.

Throws Rays Half a Mile.

Light rays half a mile long and 24 times as powerful as the sort commonly in use are the new oxy-petrol lime lights that have been invented for the motorists. The lamp consists of an oxy-petrol blowpipe flame playing on a piece of specially refractory material. A reservoir of material is to be carried on the car and also a cylinder of compressed oxygen. Presumably a stream of oxygen under pressure is saturated with petrol vapor and burnt in the blowpipe and a small, extremely hot flame is produced, this being caused to impinge on something more refractory than lime.

Railway Tariff Simplified.

Germany has just revised its railway tariff, which involves a multiplication of tickets. It is calculated that a traveler with a small family going from Mulhouse to Bale will find himself furnished with 60 tickets, in addition to which are those for baggage.

Give Defiance Starch a fair trial—try it for both hot and cold starching, and if you don't think you do better work, in less time and at smaller cost, return it and your grocer will give you back your money.

The greatest cause of worry on ironing day can be removed by using Defiance Starch, which will not stick to the iron. Sold everywhere, 16 oz. for 10c.

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

Judge Lebbeus R. Wilfey, attorney general of the Philippine islands, has been appointed to the Judgeship of the United States court in China, which is to replace in a large measure the present consular court. Judge Wilfey is from St. Louis.

Two Profitable Postal Systems. Next to Great Britain, Russia has the most profitable postal system, which nets over \$20,000,000 a year.

It's queer how boys catch all their diseases in school term.

Some men are so perfect that it seems as though their wives ought to have them stuffed and mounted.

Do what you consider right, whatever people think of it, despite censure and praise.—Pythagoras.

It isn't until a man swears off that he finds out how many fellows want to treat him.

The people who believe most strongly in luck are those who never have any.

There is a time in every man's life when he realizes what a chump he once was.

A man doesn't need much money if he has a reputation for being wealthy.

To sneer at success is the prerogative of failure.
