

JOURNAL-NEWS NOTES.

Some Items Gleaned in the Big Printery at Ninth and P.

Running ten machines two shifts, with two subs in the shop, is the state of trade in the big printery at Ninth and P streets. It beats all how business keeps up in our town.

V. F. Rockey, who has been working in the various chapels in the Journal building for the past several months, has drawn his card and is going to Chicago to work this winter. Mr. Rockey, though young in years, has had some good experience in the trade. His first insight into the mysteries of the art preservative was secured in the office of the Daily Post in this city. After leaving Lincoln Mr. Rockey mastered the Mergenthaler and worked in many of the eastern cities, finally going to London, where he worked several months. He has been doing a stunt on the book side of late, where such a thing as a lay-off is seeming impossible, hence his departure for the Windy City in the hope of a little rest. [N. B.—Since putting this item in type it is understood that Mr. Rockey has been induced to remain in town a while longer.]

George E. Locker has left the News chapel and is now holding down a machine in the Star office. We miss George from our midst, but what is our loss is their gain. (With apologies to "Old Timer").

Jay E. Worley, job man at the New Century, was seen rushing frantically into the Journal office the other day, and of a friend inquired as to where he might find the Poultry Topics subscription clerk. He stated that he desired to secure the publication, as he is entering the chicken business, and there are some few things he doesn't know about the birds. It is intimated, too, that there are other poultry raisers in Mr. Worley's neighborhood who are desirous of informing themselves on similar lines, but that their first step will be to put a padlock on the hen house door.

James Kinkead has been keeping bachelor's hall, Mrs. Kinkead and the new boy having been visiting.

Bartholomew C. Sweeney, late of the Journal Chapel, is now working on the Colorado Springs Gazette.

George Brostrom has been a regular on a machine for three weeks and is not married yet! What do you think of that?

Were this the proper place for the discussion of chapel doings or other inside union workings a "heaps cud be ced."

Some members seem to think that if they had no out of work benefits to pay they could buy and pay for a house and lot each month.

As would naturally be supposed, the sentiment in favor of Smith and Quick hereabouts seems very strong. "JAWN."

CAPITAL AUXILIARY.

Little Interest Manifested at the Election This Week.

Last Monday afternoon was the day of election, held at the home of Mrs. C. H. Turner, and up to a late hour there had seven out of our forty-seven members been up to vote. It looks as though we were interested in our International, doesn't it?

Printersville has lost two printers. George Locker moved closer to the office when he saw signs of winter, and "Billie" Norton has bought a home on Twenty-fifth and Holdrege.

Mrs. J. M. Hatch, of Council Bluffs, spent a few days last week visiting relatives and friends in Lincoln.

Sam Webster, of the Star ad alley, was passing a box of labeled cigars Monday. He says it is a boy, which of course means another union printer.

Mrs. J. F. Lee of Nashville, has been appointed deputy international organizer of Women's Label Leagues for the following states: Tennessee, Alabama, Mississippi, Louisiana and Georgia.

BY YOUR WORKS.

Show by Acts That You Want to Help the Teamsters' Union.

Every union home in Lincoln must soon be supplied with coal or wood for the winter. This must be hauled from the coal yard to the home. Are you going to patronize a dealer who will send your fuel out by a "scab" teamster, or are you going to make good your union professions by insisting on having it delivered by a union teamster? It is up to you to either fish or cut bait on this union proposition. The union carpenter, printer, painter, cigar-maker or anything else who lets his coal be delivered by a "scab" teamster is "scabbing" on a fellow unionist. That's the long and short of it.

The Teamsters' Union has been working against long odds, but a lot of the boys have kept the faith. Now get into line and help them by insisting that your coal dealer delivers by a union teamster. If the coal dealer will not do it, change coal dealers.

LOVELY DEFEATED.

Lincoln unionists will regret to learn that Collis Lovely, vice president of the Boot and Shoe Workers Interna-

tional Union, was defeated at the recent election. Mr. Lovely has been in Lincoln two or three times and he was greatly admired by the scores of union men who became acquainted with him. We are not acquainted with the facts that resulted in his defeat, but we are satisfied that if his successor makes a better officer he will have to be a "king pin."

Mass meeting of workmen, C. L. U. hall, 1034 O street, next Thursday night. Be there!

LINCOLN MADE FLOUR.

Equal to the Best and Lincolnites Should Use It.

The Wageworker is carrying the advertisement of Barber & Foster, millers of Lincoln who make the justly celebrated "Liberty" and "Mascot" brands of flour. There is no reason why a pound of flour made outside of Lincoln should be used in Lincoln. Especially is there no reason why Minneapolis flour should be used in Lincoln. Nebraska raises the best milling wheat in the world, and Barber & Foster grind this prize wheat into flour that is the equal of any flour made anywhere. It is business idocy to ship our wheat to Minneapolis, have it ground into flour there, then ship the flour back to Nebraska. "Nebraska wheat must be ground in Nebraska mills, and the flour baked into bread in Nebraska ovens!" That is an almighty good battlecry for Nebraskans.

The Wageworker urges its readers to try the Barber & Foster flour. The manufacturers guarantee it.

THREATENS GREAT LOCKOUT.

Chicago is threatened with a lockout of 50,000 building trades employes as a result of numerous sympathetic strikes on various big buildings in the down town districts. It is said the trouble is due to a strife between the steamfitters' and plumbers' unions as to which should install pneumatic tubing. Efforts to reach an agreement have proved futile.

EVERYTHING FOR THE HOME AT PRICES TO SUIT YOUR PURSE

The A. D. Benway Co.

Complete House Furnishers

1112-1114 O Street

The attorney general of the United States has made a ruling that the eight hour law applies to work in connection with the irrigation reclamation service. He also holds that firemen, pumpmen and blacksmiths and their helpers employed by the government come under the provisions of the eight hour law. But he adds that the men may work overtime in case of an "extraordinary emergency."

The Commercial Telegraphers' Union of New York has endorsed the candidacy of William R. Hearst for governor. Mr. Hearst encouraged the organization of the Commercial Telegraphers and has none but members of that union working on the Hearst wires.

Fac Simile of Check Issued by Lincoln Overall and Shir Co. to a Young Woman for a Week's Work of Fifty-nine Hours
