### BANK ROBBED IN DAYLIGHT.

Bandits Bind Assistant Cashier, and Loot at Pleasure.

The Farmers and Miners' bank at Ladd, Ill., a mining town, was held up and robbed. The assistant cashier, J. J. Hurley, was alone in the bank when two men entered and covering him with their revolvers ordered him to throw up his hands. The robbers then marched him to a back room where they bound him. They then helped themselves to the cash and escaped. The amount of their booty will be about \$7,000.

One of the two masked robbers, guarded the street door while the other got the cash. Some reports say that the amount stolen is \$20,000. It was mostly in currency. The robbers were gone an hour before the robbery was discovered and the imprisoned bank officer released.

### PRIZE FOR A BALLOON TRIP.

Aero Club of New York Trying to Awaken Interest.

At the first annual meeting of the Aero club in New York it was definitely decided to offer a trophy, to be known as the Lahm cup, in honor of Lieut. Frank H. Lahm's victory in the international race in Europe in September, for the longest balloon trip made in America by members of American aero clubs. Contestants for this trophy must exceed 697 kilometers (about 400 miles).

Preparations for the international cup race in this country next year was discussed. After the regular meeting D. C. Nugent of St. Louis presented

the advantage of that city as a starting place for the race.

### MUST PAY INHERITANCE TAX.

Judge Carpenter Decides Adversely to Pabst Estate.

Judge Carpenter, in the probate court, decided that the Pabst estate will be obliged to pay inheritance tax on \$4,000,000 stock in the Pabst Brewing company, transferred to the heirs of Capt. Fred Pabst a short time before his death. It was held by the state that the transfer of stock was made by Captain Pabst in contemplation of death and was therefore taxable. Judge Carpenter upholds this contention, qualifying his decision, however, by saying that this does not necessarily mean that the transfer was made with the intention of evading the tax.

### MISSISSIPPI HAS RACE RIOT.

Two Men Fatally Wounded in Fight in Town of Wiggins.

Two men were fatally wounded and over 500 shots were fired in a race riot at Wiggins. William Smith, a negro, in resisting arrest, fired on Marshal Quarrels and Deputy Mitche, the latter receiving a fatal wound. Smith escaped to his home, barricaded the doors and windows and defied capture until a mob threatened to burn the house. After surrendering he was locked in the village jail where later on a mob dynamited the structure, fired several volleys into Smith's cell and left him for dead.

While the mob was storming the jail, a large crowd of negroes came on the scene and began firing into the ranks of the besiegers. More than 500 shots were exchanged and D. M. Clarke, a white man, was fatally injured. Several negroes are supposed to have been shot, but so far the total number of casualties has not been learned. Smith was later found alive in the jail, but his arms had to be amputated.

### DEAD IN A LODGING HOUSE.

Doctor Convicted of Killing Wife Blows His Brains Out.

In a cheap lodging house on East Baltimore street, Baltimore, Md., J. Baxter Matthews, of Greensboro, N. C., blew out his brains with a 32-calibre revolver. Dr. Matthews was convicted March 9, 1906, at Greensboro, N. C., of the poisoning of his wife December 1, 1905. He had been out of custody under bail pending the decision of his appeal for a new trial which was denied him, and it is supposed that he committed suicide rather than serve the sentence said to be twenty years in the penitentiary to be imposed upon him.

### Sending Mules to Cuba.

The pack trains at Fort Riley have left for Cuba under command of Chief Packer Thomas Mooney. In the trains are fifteen men and a hundred mules. They go from Fort Riley by express to Newport News, from where they sail immediately on arrival. These are the same pack trains used in the island during the Spanish-American war.

### Inquiry Into the Wreck.

The coroner's inquest into the wreck on the Pennsylvania railroad's electric railway at the Thoroughfare drawbridge at Atlantic City, in which more than fifty persons lost their lives, was resumed November 5.

### Reduction in Pullman Rates.

A reduction of 20 per cent in Pullman palace car rates is demanded by the railroad commission of Texas and an order was issued for a hearing on November 27, regarding the proposed rule, which, if adopted, is intended to go into effect at once. The commission will seek at the same time to pass the rule compelling Texas railroads to haul Pullman cars as the commission may direct.

The average romance is like a practical joke. More enjoyable at the expense of the other fellow.

## PURELY FEMININE

TOUCHES THAT GIVE SMARTNESS TO COSTUME.

Waist to Match Coat and Skirt Now Generally in Favor—Short Sleeves Fall Off in Popularity.

A white waist is generally considered correct with a cloth suit just as long as the weather permits of so thin a bodice, but at the same time a silk or cloth waist of the color of the skirt is bound to look somewhat smarter, and, besides, far more economical in the long run. In purchasing the material for a cloth suit, it is an easy matter to get an extra two or three yards for the waist, even if it is not to be made up by the tailor, while if the suit is ordered directly from the tailor he can always match his material and procure an extra allowance for the bodice.

The one-piece dress is still popular, but in cloth a princess gown is too hot to be worn, day in, day out, so that unless there can be more than one walking suit provided, a separate waist and skirt is the better investment.

Then, too, a walking suit is always short and a princess gown is generally more graceful with a long train, save, of course, made up in some fine material as lace or muslin.

Simple models are best in cloth, for there must be as few folds and plaits of the material as possible. The surplus effect, if made to fit perfectly, is good, as the cloth simply crosses over front and back, leaving a little V-shaped opening for the lace yoke. The cloth may be bordered with narrow bands of passe-

menterie or embroidery. For an essentially simple style of dress, a long-sleeved waist is infinitely more appropriate and far more comfortable than the elbow sleeve. Long kid gloves are singularly out of keeping with a rough cheviot walking suit, and then, also, long gloves worn daily are a considerable item upon the expense list.

For house gowns and all elaborate gowns short sleeves, being fashionable now, look very smart, and will be worn through the winter at any rate, but already they are not nearly so popular for the morning as was the case a few months ago.

A fine quality of broadcloth can be made up over thin silk, or even cotton lining will not be uncomfortably heavy even for the house, but there are few of the rough cloths that make satisfactory waists.

If a heavy cloth is chosen—and many of the rough mixed goods are excellent for this time of year—a waist of silk or chiffon cloth trimmed with straps of the material is always attractive and most useful. A chiffon body is pretty, but too light and perishable for wear with anything but the finest cloth. There are, as usual, numberless silks displayed this season which are advertised as quite new. Generally these silks are well-known qualities that have been rechristened and made fashionable once more. As a rule the satin-finished, soft silk wears better than the stiff, dull-finished taffeta.

At this time of year red is always a favorite shade and is now fashionable in all possible tones, from bright red to a deep wine color. This last is to be one of the most fashionable shades for the coming winter.

### CARE OF BABY'S EYES.

Important Precautions Advised by Medical Authority.

Don't let your infants look at brightly colored objects. Never allow them to lie and stare into the sunlight, at the gas, electric light or into the flame of a lamp, for it may strain the nerve of sight and make the eyes weak for the remainder of their lives, declares a physician of a babies' hospital.

"Unfortunately most young children are abnormally attracted by any bright object such as a red feather on a hat, a vivid green or yellow chair, or by artificial light or sunlight," he says, "and they will exert all their strength to turn their bodies so that the bright thing is within the range of vision."

"Knowing this, mothers should make every effort to protect the eyes of babes and make sure that the rooms where they sleep or stay when awake have no objects that will attract and hold the interest of the little one and perhaps injure the optic nerves."

"Always have the sunlight tempered. Put a shade over any kind of artificial light so that it will not shine directly into a young child's eyes."

"When taking an infant out of doors always protect its eyes from the glare of the sun by a parasol or a broad brim on a hat, but do not put a veil over its face with the mistaken idea that this will keep out the dust and incidentally the brightness of the sun or the dazzling whiteness of the snow."

### EASILY MADE PIN-CUSHION

Miniature Sack to Hang on Looking-Glass or Wall.

Our sketch shows, perhaps, the simplest and most easily made form of pin-cushion. It can be made from almost any odd piece of material, and is

NO. 1.—A SACK PIN-CUSHION.

In the shape of a miniature sack, and is filled with bran.

There is a little silk cording running all around the edge, and it is intended for hanging on the side of a looking-glass or on the wall.

## We Sell Pianos

for less than others, because we buy them for less. We buy Pianos at a less price than others, because we buy more of them. We buy more Pianos than others, because we sell more Pianos than others.

Our long years of experience enables us to best select your Pianos for you.

We have a one fixed price—no more, no less. Give you honest, fair and courteous treatment.

We will sell you a Piano for less money than any Piano house in the West, for same quality.

Our terms suit the laboring man, as we will place a high-grade Piano in your home as low as \$5.00 per month payments.

Come and see us, examine the finest line of Pianos in the west, and let us tell you our plan.

We own and operate five large stores and a factory.

## THEY CURE RHEUMATISM

A Particularly Painful Form of This Disease Yields to Dr. Williams' Pink Pills.

Of the many forms which rheumatism takes, that which is popularly known as sciatic rheumatism probably tortures its victim more than any other. That Dr. Williams' Pink Pills have cured this stubborn as well as painful trouble is a fact proven by the following statement, and no sufferer who reads this can afford to let prejudice stand in the way of trying these blood-making pills.

Rheumatism is now generally recognized as a disease of the blood. Dr. Williams' Pink Pills make—actually make—pure blood. When the blood is pure there can be no rheumatism. Mrs. Thomas Bresnahan, of 54 Mill street, Watertown, N. Y., says:

"My trouble began with a severe cold which I took about a week before Christmas in 1904. I began to have rheumatic pains in my back and limbs and after a time I couldn't straighten up. I suffered the most awful pain for months and much of the time was unable to leave the house and I had to take hold of a chair in order to walk and sometimes I could not stand up at all."

"The disease was pronounced sciatic rheumatism and, although I had a good physician and took his medicine faithfully, I did not get any better. After some six weeks of this terrible pain and suffering I tried Dr. Williams' Pink Pills and that is the medicine that cured me. After a few boxes the pain was less intense and I could see decided improvement. I continued to take the pills until I was entirely cured and I have never had any return of the trouble."

All druggists sell Dr. Williams' Pink Pills, or the remedy will be mailed post-paid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

## CURES CONSTIPATION

It is just about impossible to be sick when the bowels are right and not possible to be well when they are wrong. Through its action on the bowels,

## Lane's Family Medicine

cleans the body inside and leaves no lodging place for disease. If for once you wish to know how it feels to be thoroughly well, give this famous laxative tea a trial. Sold by all dealers at 25c. and 50c.

### Immigrants for Ecuador.

The government of Ecuador has signed a contract with an agency in Guayaquil for the purpose of importing immigrants into the lower and eastern portions of the republic. The company binds itself to import 5,000 families. It is specified in the contract that the immigrants shall be white and preferably of the German or Dutch races.

### Romance in Writers' Lives.

A strange comedy and tragedy was woven into the lives of Ibsen and Bjornson. As young men they were great friends; then politics flung them apart; they quarreled and never met for years and years. Strange fate brought the children of these two great writers together and Bjornson's daughter married Ibsen's only child. The fathers met after a quarter of a century of separation at the wedding of their children.

### A Rule and an Exception.

According to the New York Tribune, a country paper lays down this rule of etiquette: "When a lady and gentleman are walking in the street, the lady should walk inside of the gentleman."

It seems a little strange that this simple rule, so long current among the cannibal tribes of the Andaman and other islands, should find its way into a rural journal of more or less civilization. It would appear that the etiquette editor of the paper in question was either too careless or too hurried to note any exceptions to the rule. Otherwise he would have explained that when the gentleman was thirsty and desired to enter a cafe, the lady would walk on the outside.—Cleveland Plain Dealer.

### Washing Laces.

To wash laces make a suds with naphtha soap and tepid water, put the laces in it and let them soak for half an hour; then squeeze them around and squeeze between the hands to get the water out. Make fresh suds, squeeze laces around again, but do not rub lest you break the meshes; squeeze, then rinse in two waters, with a few drops of dissolved gum arabic in the last water. If the lace is cream or ecru add a few drops of orange dye to the last water, or, if pure white, a few drops of bluing. Spread on a sheet to dry; when nearly dry pull gently into shape and roll from one end, keeping edges even; then wrap in a damp cloth and let lie for half an hour and press with a not too hot iron.

### To Make a Dull Piano Bright.

Alcohol is used by workers in factories to remove the dull appearance from highly polished surfaces of pianos, but the putting on of this liquid must be carefully done, or the finish will be burned, and the case have to be dressed and polished the same as it was when new. This process is costly, so if alcohol is rubbed on the dull spots with a soft cotton or flannel cloth only a little of the liquid should be used. Put on with a light stroke across the surface, then should follow a brisk rub with a soft silk or cheesecloth rag.
