PARDEE SAYS SCHOOL REGULATION IS STATE'S AFFAIR.

HAS NO QUARREL WITH THE JAPANESE

Willing to Obey Treaty Provisions—Governor Holds Separation of Caucasian and Oriental Pupils Is Not Violation.

The message of retiring Governor Pardee was presented to the California legislature. Concerning the Japanese school question, Governor Pardee said:

"It is safe to say that the president, when he penned the portion of his annual message upon the opening of congress in which he refers to the treatment of the Japanese in the San Francisco schools, was not aware of the conditions on this coast, especially in California. In common with the people of the east, who have had no experience with the unassimilable people of Japan and China the president does not understand the racial differences between the Japanese and the Chinese and the people of Caucasian blood. Coming in contact only with a few educated and intelligent individuals of these two races, the people of the eastern states do not understand that to permit the emigration of only a small fraction of the whole number of these people means the monopolizing by them of such pursuits as they may engage in. This monopolization would not militate against the public good, were the monopolizers capable of being absorbed in to the body politic in this generation or even the next, becoming integral parts of our cosmopolitan people.

"Unfortunately, however, neither the Japanese nor the Chinese appear to be capable of absorption and assimilation into the mass of our people. It is useless to expect that people with such different racial characteristics and civilization can ever mix with our people and become absorbed into our body politic; they cannot become good American citizens; it is useless to attempt to make them such.

"Under these circumstances it is not at all strange that there is an aversion to the mingling of the children of the two races. And therefore, California has decreed that, whenever it is so desired, the local school authorities may provide separate schools for the Chinese and Japanese children, in which they shall be taught as Caucasian children are, and by equally capable teachers.

"In the case of the Japanese, this separation seems to be the most necessary, because many of the Japanese who desire to attend our schools are much older than the Caucasian children with whom, on account of their deficient learning, the Japanese must be classed. It is not at all desirable that youths, even Caucasian youths of eighteen years or more of age, should be associated in the schools with children of tender ages. The reason therefore is sufficiently explained by its mere statement. The laws of California require the separation of the Chinese and Japanese children from the Caucasian. The treaty, as I read it, does not require that the Japanese shall be put in classes with our children. To give them as good school facilities more than complies with the treaty. Therefore, it would appear that San Francisco, in providing separate schools for the Japanese, is acting strictly within the letter and spirit of the laws of this state and is in no way acting in contravention to the treaty with Japan.

"The state of California, a sovereign state, of the United States of America, has no quarrel with the government, either of Japan or China. But, nevertheless, until the courts of this country shall have declared that California has no right to do so, this state reserves to itself the right and privilege to conduct under the law, state, national and treaty, its schools in such manner as seems best to us, and this without the slightest disrespect to the government of the United States or the subjects of any foreign nation."

**Lee Mantle Is Defeated.**  
The election of congressman Joseph M. Dixon to the United States to succeed Senator Clark of Montana, was assured a caucus of the republican members of the legislature giving him 49 to 22 for Former Senator Lee Mantle of Butte.

**Cremated Body of Child.**  
Charles Peterson, a Chicago laborer, was fined \$25 for having cremated the corpse of his child. Peterson was without sufficient funds to give the child proper burial and held the body in the house five days, hoping to secure money for a funeral. Neighbors complained to the police and when the officers visited Peterson he informed them that, despairing of being able to obtain enough money to bury the child decently he had carried the corpse to the foundry where he was employed and burned it in one of the furnaces.

## BLOATED WITH DROPSY.

The Heart Was Badly Affected When the Patient Began Using Doan's Kidney Pills.

Mrs. Elizabeth Maxwell, of 415 West Fourth street, Olympia, Wash., says:

"For over three years I suffered with a dropsical condition without being aware that it was due to kidney trouble. The early stages were principally back-ache and bearing down pain, but I went along without worrying much until dropsy set in. My feet and ankles swelled up, my hands puffed and became so tense I could hardly close them. I had great difficulty in breathing, and my heart would flutter with the least exertion. I could not walk far without stopping again and again to rest. Since using four boxes of Doan's Kidney Pills the bloating has gone down and the feelings of distress have disappeared."

## Proved Good Man of Business.

While preaching in Pueblo, Col., a few years ago Rev. Edward J. Wilcox found himself in the embarrassing position of being unable to pay his debts. Knowing that if he stuck to the pulpit he would have small chance of getting even with the world, he quit preaching and went into the mining business. To-day he owns mines in Colorado worth \$2,000,000, besides a great deal of other valuable property.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

## Knows Whom He Can Trust.

Police Commissioner Bingham has learned one important fact that will be of aid to him in his official career. When he desires to get the exact facts about some large question that is to the front in New York city he calls in the newspaper reporters located at police headquarters and has a heart-to-heart talk. As one of them says: "He gets it straight, and so straight that not all the men of the force can fool him on that one point."

## Tallest American Soldier.

The distinction of being the tallest man in the United States army belongs to Ernest D. Peck, a first lieutenant in the engineer corps. He is six feet four and a half inches in height. Lieutenant Peck is a native of Wisconsin and was graduated from the Oakkosh high school. Lieutenant Peck is now on duty at Yellowstone Park, Wyoming, and has supervised the building of a military road known as Peck's Pike. He is called Pike's Peak by his comrades in the service.

## Owes Double Allegiance.

Count Prosper D'Epinay, who has been decorated in Paris by the British ambassador with the Victorian Order, is in the odd position of being a British subject and yet a Frenchman at the same time. He was born in the island of Mauritius some 65 years ago. The island, of course, is inhabited by a French-speaking population and once formed part of the territories of France. Both the count's parents being French, the count is regarded in France as a Frenchman, but being born under the British flag he is just as surely a British subject.

## Mistake of a Self-Made Man.

"Yes, he got a little fresh and I told him plainly that I knew my business and added that I was proud of the fact that I am a self-made man."

"What did he say to that?"

"He said I made a mistake in not advertising for bids."

**Corrected.**  
"Charley, dear," said young Mrs. Torkins, "you said those losing ball players fielded badly."

"That's what I said."

"This sporting talk is demoralizing your grammar. You mean they felt badly."

**A Slender Theory.**  
"Why are the best instrumental musicians unable to play by ear?"

"I suppose," answered Miss Cayenne, "it must be because no one with a really sensitive ear could endure the terrific din of constant practice."

**Subordination.**  
"What is her idea of a good husband?" asked the woman who was making tidies.

"Her idea of a good husband," answered the one who was embroidering, "is a man who can't afford to smoke cigars or go to the races because his wife plays bridge whist."

**Out of the Woods and Back.**  
Tramp—Madam, I have come out of the wilderness to locate work.  
Lady—Humph! Well, I can give you plenty. Chop that wood and—  
Tramp—Beg pardon, ma'am, I said I was merely trying to locate it. Now that I know it still exists I shall return to the wilderness.—Judge.

Defiance Starch is the latest invention in that line and an improvement on all other makes; it is more economical, does better work, takes less time. Get it from any grocer.

## Has Heavy Liabilities.

Herr Johann Strauss, a nephew of the eminent composer, has been sentenced to a week's imprisonment for debt in Vienna. His liabilities are said to amount to \$35,000.

## Kinsmen of Immortal George.

Many kindred of George Washington dwell on and about the original Washington plantation in Westmoreland county, Virginia. The present occupant of the plantation is named George Washington.

By following the directions, which are plainly printed on each package of Defiance Starch, Men's Collars and Cuffs can be made just as stiff as desired, with either gloss or domestic finish. Try it, 16 oz. for 10c, sold by all good grocers.

## Footballer Showed Courage.

H. J. Henebry, Ireland's Rugby full back, played the other day for 70 minutes against the South Africans while suffering from a split ear, damaged skull, broken middle finger on left hand, strained chest, muscles and torn finger cartilages. He received the injuries in a tackle ten minutes after the game began.

**Safe, Sure and Speedy.**  
No external remedy ever yet devised has so fully and unquestionably met these three prime conditions as successfully as Allcock's Plasters. They are safe because they contain no deleterious drugs and are manufactured upon scientific principles of medicine. They are sure because nothing goes into them except ingredients which are exactly adapted to the purposes for which a plaster is required. They are speedy in their action because their medicinal qualities go right to their work of relieving pain and restoring the natural and healthy performance of the functions of muscles, nerves and skin.

Allcock's Plasters are the original and genuine porous plasters and like most meritorious articles have been extensively imitated, therefore always make sure and get the genuine.

## Made Much on Small Capital.

Twenty-five years ago W. S. Watham left the town of La Grange, Ga., with the magnificent sum of one dollar in his pocket and landed in New York with nothing to his credit but his clothes and his character. The quality of the former does not matter and the quality of the latter has shown itself. He is to-day president of 75 banks, all but four of which are situated in his native state. In return for Georgia's small advance of 100 cents he has pretty well cornered her banking interests and has in keeping a goodly amount of her funds. The four banks of which he is president outside of the state of Georgia are situated in Florida.

## OLD CAPT. CACK'S QUESTION.

Somewhat Pointed, But It Denoted Quick Intelligence.

Pierce Jay, the commissioner of banks of Massachusetts, at the American Bankers' association's convention in St. Louis, advocated a better accounting system.

"But above all," said Mr. Jay, in a discussion of his idea, "we want intelligence. If embezzlement is to be thoroughly put down. Systems are good, but intelligence is better, and in cashiers and tellers and book-keepers and note clerks we want the same keen, quick intelligence that characterized old Capt. Hiram Cack, of Gloucester.

"Cack lay very ill. One day he got down-hearted, feeling that his case was hopeless.

"I fear, doctor," he said, "there isn't much hope for me."

"Oh, yes, there is," the doctor answered. "Three years ago I was in your condition precisely, and look at me now."

"Cack, intelligent and alert, said quickly:

"What doctor did you have?"

# What is Pe-ru-na?

Is it a Catarrh Remedy, or a Tonic, or is it Both?

Some people call Peruna a great tonic. Others refer to Peruna as a great catarrh remedy.

Which of these people are right? Is it more proper to call Peruna a catarrh remedy than to call it a tonic?

Our reply is, that Peruna is both a tonic and a catarrh remedy. Indeed, there can be no effectual catarrh remedy that is not also a tonic.

In order to thoroughly relieve any case of catarrh, a remedy must not only have a specific action on the mucous membranes affected by the catarrh, but it must have a general tonic action on the nervous system.

Perhaps no vegetable remedy in the world has attracted so much attention from medical writers as HYDRASTIS CANADENSIS. The wonderful efficacy of this herb has been recognized many years, and is growing in its hold upon the medical profession.

When joined with CUBEBS and COPAIBA a trio of medical agents is formed in Peruna which constitutes a specific remedy for catarrh that in the present state of medical progress cannot be improved upon. This action, reinforced by such renowned tonics as COLLINSORIA CANADENSIS, GORYDALIS FORMOSA and CEDRON SEED, ought to make this compound an ideal remedy for catarrh in all its stages and locations in the body.

From a theoretical standpoint, therefore, Peruna is beyond criticism. The use of Peruna, confirms this opinion. Numberless testimonials from every quarter of the earth furnish ample evidence that this judgment is not over enthusiastic. When practical experience confirms a well-grounded theory the result is a truth that cannot be shaken.
