**H. P. LAU CO., WHOLESALE GROCERS.**

This is the representative wholesale house of Lincoln. They occupy one of the best buildings in the city, carry all the wholesale grocery catalogues in-cludes, and are widely known as manufacturers of the celebrated Lau Brand Products. They manufacture unadulterated spices, mustards, baking powder and extracts, and are known as the finest coffee roasters in the west. The growth of this business in the face of strong competition has been the most rapid of any of its kind in this country. This company is known throughout out this and adjoining states for the superior goods they handle. The H. P. Lau Co. not only advertises Lincoln as a manufacturing and commercial center, but it brings many thousands of dollars to the city every week. This is a home institution and wage earners should demand the products sold by this company. So too, should every Lincoln citizen. The object of this movement is to explain the reasons why we should patronize home industry. It is carefully estimated that the non-resident merchant, annually over seven million dollars, and much of this tremendous total leaves Lincoln. Catalogue houses claim part, the non-resident merchant a portion, and the peddler part of the balance. Little of this division aids labor, sustains home institutions or assists Lincoln. The proposition that confronts both labor and the merchant is a legitimate preference for Lincoln people. What we want to do is to impress on the minds of every citizen of Lincoln that every time you buy a package of Lau Twentieth Century Coffee you help to build up Lincoln. This coffee is roasted and packed in this city and is sold by all the leading grocers. Why pay more than twenty cents for a pound of coffee when you can buy Lau Coffee at this price and get a product that is fresh roasted and guaranteed to give satisfaction? This company employs seventy-five men. They have been in business since 1870. The H. P. Lau company is always foremost in any movement for a greater Lincoln age than any one firm we know of. This company also owns the Lincoln Coffee and Spice Mills, which is another one of our large industries. The H. P. Lau company ranks among our biggest taxpayers, and we should foster and encourage such institutions. Consider this proposition seriously, and demand the H. P. Lau products.

**CASTLE, ROPER & MATTHEWS.**

If there is one business more than another that requires for its successful prosecution a large amount of fine taste, delicacy of thought and expression toward its patrons, and a tender respect and regard for their feelings, it is that of the funeral director. We refer with pleasure in this respect to Castle, Roper & Matthews, located at 129 to 124 South Thirteenth street, who have a wide prestige among the families of the wage earners of this city. These gentlemen stand unexcelled in this particular profession. They take charge of funerals from the time of death until the interment, and never fail to give perfect satisfaction. They have the good will and the patronage of wage earners and other good people of Lincoln. This firm has on many occasions manifested a most friendly interest in the cause of labor.
