

Men Are Interested In STERLING CLOTHES

Because they contain more style, quality and service than the ordinary ready-to-wear clothing.

Our determination to give the best values in whatever price you wish to pay, and our constant efforts to make our manufacturers bring their garments up to our standard, has resulted in the production of such clothing as any man would be proud to wear, and pay the price for.

We give you an all wool suit as low as \$15, and finer and better fabrics at \$18, \$22.50, \$25, up to \$35. Boys' and Children's Suits at \$1.75, \$2.50, \$3.50, \$3.85, \$4.85 to \$9.00.

Sterling Clothes are the strongest fabric, the most cleverly tailored, the prettiest patterned and the lowest cost garments you'll see this season.

We'll hitch more Value, Satisfaction and Service to your Dollar than you've been getting heretofore

ORGANIZED FARMERS.

If Farmers Would Get Together, Much Wrong Would Be Righted.

It is strange that the newspapers have not had more to say about the partnership of the American Federation of Labor and the American Labor Society of Equity. The latter organization has not made as much out

of the farmer, but it is worth considering. An offensive and defensive alliance between union labor and organized agriculture is a thing of considerable importance.

Control of the supply of farm products being impossible without a perfect organization, the present efforts of the American Society of Equity are bent towards increasing the membership, and these have so far been re-

warded by success. If the farmers demand union made farm implements, union made harness, union made horse shoes, garments, boots and shoes, the unionizing of factories engaged in manufacturing farm implements and machinery, horse goods, horse shoes, garments and boots and shoes, would certainly follow. If young farmers refused to come into the cities and take places now and then as strike break-

ers, the breaking of strikes would be more difficult.—Syracuse Daily Post Standard.

TYPOGRAPHICAL UNION.

Candidates Nominated and Memorial Day Committee Appointed.

Lincoln Typographical Union No. 209 met in regular session last Sunday day afternoon, and the most important business transacted was the nomination of candidates to fill the various offices for the term beginning in August, and for delegates to the Hot Springs convention. The attendance was large but not what it should have been in view of the important work of selecting candidates for the various offices. The following candidates were placed in nomination:

For president—L. L. Ingraham, G. E. Locker.

For vice president—H. C. Peat.

For recording secretary—Fred Iringer, H. C. Bingham, Fred Mickel. For financial secretary—F. H. Hebbard.

For delegates—August Radebach, W. M. Maupin, L. L. Ingraham, H. C. Peat, H. C. Bingham, F. M. Coffey.

For alternates—G. E. Locker, Chas. Turney, Ira Stevens, J. G. Sayer, J. D. Smith.

For executive committee—F. M. Coffey, Sam Webster, G. E. Locker, Chas. Barngrover, Fred Brenner, James Leaden.

For delegate to C. L. U.—Abe Compton, Charles Love, Sam Webster. For delegates trades council—August Radebach, Abe Compton, Sam Webster.

Messrs. W. M. Maupin, H. W. Smith, and C. H. Turner were appointed a committee to prepare for Memorial Day, to act in conjunction with a committee from the Auxiliary.

It was decided to take space in the Hot Springs souvenir to publish roster of the membership of No. 209, all members in good standing on May 15th to be eligible to the roster.

Sam Laidley is working in the Combe shop at St. Joseph.

President Coffey went to Kansas City last week to "scare up" a few machine "subs" for Lincoln. The two daily papers entered complaint that they were running short-handed.

Billy Eldrige, after working for something less than 100 years on the Evening News, has quit and is now operating a ranch of three or four acres on the east side of town.

Miss Clara King is an apprentice on the monotype at the Woodruff shop.

The Woodruff shop has the contract for printing the Cobbe Statutes. This is one of the biggest of state jobs.

"Shorty" Marrs drew his card last week and took his way to Chicago, expecting to stop off at Omaha, Des Moines, Dubuque and Galesburg on the way.

At the last meeting the executive committee was instructed to secure a suitable meeting place for the union. It was also instructed to put up a box at headquarters wherein all non-labeled matter could be placed. The secretary will attach the "stickers" and do the proper thing with the matter.

The Frete Presse is expecting its new "Merg" any day now. It will be the twenty-third "Merg" in the city.

The Barnum & Bailey and the Ringling Bros. circuses are both using "scab" printing from Buffalo. And the printer men are making it hot for them all over the country.

Did the grand jury "scare" you?

"SCABS" PROFITED.

Reap Where Union Men Sowed, But Will Not Act White.

A majority of the street railway employes of Binghamton recently organized and made a request on the company for an increase in wages to 29 cents per hour. The company refused; the men struck. Now the company has increased the wages of the

strike-breakers and scabs to the rate requested by the union, but refuses to recognize the men who have served them faithfully in the past and were only making a very modest request on the company. No cars are being operated after dark and but a very few at long intervals during the day. The men have the support of the public and are confident of success.

NO COURAGE REQUIRED.

Hair Trigger Mouth and Bull-Headed Obstinacy Is Enough.

In speaking of President Roosevelt's attitude toward Moyer and Haywood the State Journal says: "The American people can not restrain their enthusiasm over a president who has the courage to say what he thinks of men of this kind." It is a mistake to suppose that it takes courage to denounce laboring men. The truth is just the reverse. It requires courage to express sympathy for them. It is popular to berate them. The upper crust world has very little toleration for the lower crusts. This is a fact and no one knows it better than President Roosevelt. He weighed very well the effect and knew it would not imperil his popularity to adversely prejudice this case of so-called union labor agitators. The world will hurray with the Journal.—York (Nebr.) Democrat.

Dress Goods and Silk News

Dress Goods is a commodity in which every woman is interested. Realizing this fact our buyer spends considerable of his time in studying the tastes and requirements of the women of Lincoln and surrounding towns. Each week some new and interesting design is added to make the display of dress goods more attractive, if possible, than the preceding week, thus making our stock very much alive. By very much alive we mean goods are coming and going every day. Much care and attention having been taken to buy a medium line of reliable stylish designs, we are at all times open to the new weave productions. All careful thinking people, therefore, will readily understand that a very much alive medium sized stock should be an exceptionally good one from which to select a suit or gown pattern. As very much alive necessarily means that no goods are allowed to lose their usefulness, either as to style or quality, the foremost ideas will be found in our stock. Also our stock is in such a condition that we are always open to the many special values that are offered to us by the manufacturers. These main features of our Dress Goods stock are daily adding enthusiastic confidence and friends to our already large list of regular Dress Goods and Silk customers.

Browns and Tans are among the good shades for Spring and Summer wear in wool goods and silks, plain and fancies. We are showing a nice assortment in the proper shades.
