Lincoln, Nebraska

THAT GARNISHEE LAW.

Judge Kennedy of Omaha Knocks a Big Hole Through It.

The decision rendered by Judge Kennedy involving the garnishment law passed by the last legislature, is of much importance to the working people. This decision holds that the 10 per cent may be included in the

\$500 exemption allowed the head of a family. In other words, one's wages cannot be garnished unless the total personal property including 10 per cent of his wages, amounts to \$500.

This decision is a hard blow to that class of people who make a specialty of coercing the payment of claims, be they just or unjust. This law was secured for the purpose of its effects

upon employment instead of its remedy for non-payment of debts.

The rule of most corporations is that any employe who has his wages garnished the second time will be discharged. Thus the fear of discharge was the hope of those who sought the enactment of the law.

Judge Kennedy has rendered the poor people a valuable service when

he holds the exemption of \$500 applies to wages as well as to personal property.

What is of more value to the workingman than his wages. His only commodity, his stock in trade, the only means of an existence, deny him the right to work and you have forced him into poverty. An adequate remedy is always at hand in defense of the dead beat. No one is forced to give credit, and where credit is given a certain percentage is always figured for loss by credit. In other words, those who pay cash pay a percentage on those who fail to pay their bills.—Omaha Labor Advocate.

RYDER IN OMAHA.

Conferring With Interested Parties on Child Labor Law.

John J. Ryder, deputy labor commissioner, was in Omaha a couple of days this week, conferring with the child labor commissioners and prominent educators concerning the enforcement of the child labor law of the state.

A number of employers wanted to know a few things about the law, and they asked for a conference. Mr. Ryder announces that he has no desire to rigidly enforce the law in the few cases wherein enforcement will work a hardship against children and parents, but he wants it understood that the general provisions of the law must be complied with. It is realized that rigid enforcement at all times will, under present circumstances, work occasional hardships, but the framers and supporters of the law had their eyes more on the future than on the present. Those who seek to evade the law are going to find themselves up against prosecution.

EIGHT-HOUR FACTORY.

The McDonald overall and shirt factory at St. Joseph has gone to the eight-hour basis. This is another reason why Lincoln unionists should buy the output of this factory. Another reason is that the garments made in the McDonald factory bear the union label. Another reason is that the garments made in the McDonald factory are the best that can be purchased at the price asked for them. The way to put the "sweat shop" overalls and shirts out of the market is to demand the union label.

HAS LIVED AND LEARNED

Mr. Killkinton on Way to Revise His Views as to Humor of An Old Song.

"You remember," said Mr. Killkinton, "that grand old song, 'Grandpa's teeth are plugged with zinc?'"

"Well, I always supposed that that zinc business was simply a grotesquely humorous flight of fancy. I never thought that anybody's teeth could really be filled with zinc; but now I am not so sure about that."

"Lately I have had four teeth filled, and no two have been filled with the same material. One was filled with amalgam, one with gold, one with porcelain and one with gutta percha; and now the material they used to fill grandpa's teeth with in the song doesn't seem to me anything like so ridiculous as it did."

"I have seven teeth yet to be filled; and if the dentist keeps on as he has begun, using something different for every tooth, why, I wouldn't be surprised if before I got through I had one tooth at least filled with zinc."

NEW YORK AS CIGAR MARKET.

New York is the greatest cigar making state in the Union, its product more than equaling in value that of its nearest two rivals, Pennsylvania and Florida. In spite of the vogue of Havana labels and the superstition that only desirable cigars come from the West Indies, the importations from that quarter are only a drop in the bucket compared with the vast domestic output, which in the year 1904 reached a value of \$214,000,000. As a matter of fact, New York State turns out more than fifteen times as big a supply of cigars as the whole country imports from Cuba.

WHEN MILDRED SAW THE LORD

In the midst of the Sunday school lesson Mildred interrupted with the startling assertion, "I've seen God."

"You have, my dear?" the teacher replied, "and when was that?"

"Last week; and God sells clams. When he came to our house, mama went to the door and she said, 'My Lord! I don't want any more clams'

JUST IT.

When you have contrasted inconvenient and expensive methods of cooking with a tidy, Modern Gas Range you will be impressed with the points in favor of **The Gas Way** **The Clean Way** A clean, cool, dainty kitchen is always found when Gas is used for cooking.
