money out of children's work are very eager to plead State's Rights as against any Federal control. Nobody believes more in the reserved rights of the states than I; nobody is more for local self-government. But I don't believe that a state which is willing to degrade and destroy the next generation of its people shall be allowed to and thereby destroy their industrial system. The trusts maintain two sets of attorneys—one set at the state capital to protect that all state legislation is an encroachment on the Federal power; the other is stationed at the national capital to protect that all Federal regulation of trusts is a violation of the rights of the states."
