

### MISS ANNIE CATRON.

### CATARRH MADE LIFE A BURDEN TO ME.

MISS ANNIE CATRON, 927 Main St., Cincinnati, Ohio, writes: "As I have found Peruna a blessing for a severe case of catarrh of the head and throat which I suffered from for a number of years, I am only too pleased to give it my personal endorsement. "Catarrh, such as I suffered from, made life a burden to me, my breath was offensive, stomach bad, and my head stopped up so that I was usually troubled with a headache, and although I tried many so-called remedies, nothing gave the permanent relief. I was rather discouraged with all medicines when Peruna was suggested to me. "However, I did buy a bottle, and before that was finished there was a marked change in my condition. Much encouraged I kept on until I was completely cured in a month's time, and I find that my general health is also excellent."

People who prefer solid medicines should try Peruna tablets. Each tablet represents one average dose of Peruna. **Man-a-lin the Ideal Laxative.** Ask Your Druggist for Free Peruna Almanac for 1908.

### DEAR LITTLE CHAP.

Bob—Say, ma, were men very scarce when you married pa, or did you just feel sorry for him?

### Inevitable.

"So Nelson is dead. What killed him?" "You know he had one foot in the grave?" "Yes." "Well, some one pulled his leg."—Harper's Weekly.

### Pa Was Bald.

"Say, ma?" "Well, my child?" "Why doesn't pa gild his dome?"

### The Proper Fee.

"What do I get for this stunt?" "asked the vain but execrable amateur. "If I were a police magistrate," answered the manager, "you would get 30 days, but as I'm not, you'll simply get out."

### The Test.

American—Our senate is superior to the upper legislative houses of any European nation, and I can prove it. Briton—How do you make it out? American—Because our upper house is without a peer.

### Electrical Plant.

A plant has been discovered in Nicaragua which appears to be charged with electricity. If one of its branches is touched with the naked hand, a distinct shock similar to that produced by a battery is felt. Its influence upon a magnet's needle is noticeable at half a dozen yards, and as one gets nearer the plant this influence increases. If the instrument is placed in the center of the bush it will assume a circular movement. The intensity of the influence manifested seems to depend upon the time of day.

### Wise Move.

Dumley—I don't understand how you could possibly laugh so heartily at that poor joke of Mutley's. Wise—I had to, in self-defense. Dumley—In self-defense? Wise—If I hadn't laughed he'd have repeated it, thinking I hadn't seen the point.—Philadelphia Press.

### Purely Culinary Sadness.

"My wife and I had a quarrel in the morning and when I came home and found her preparing dinner she had a tearfully appealing look." "Was it the appeal of penitence?" "No; it was a peel of the onions."

### MORE DESIRABLE THAN BEAUTY.

Writer Makes Good Argument in Favor of Neatness.

We all long for beauty, but there is within the grasp of all women something even more desirable than beauty—namely, exquisite neatness. The writer has descanted on the desirability of neatness more than once, but it is something that will bear to be talked about more than once, or twice, or even a dozen times. "Faith," says Pat, when reproved for lying, "O! have such a respect for Truth, O! wud not be dhragging her out on every occasion." The writer differs in this respect from Pat. She has such a respect for neatness that she would be dragging her out on every occasion.

A man who had traveled much and seen many women in many countries, said the other day, "I prefer neatness to beauty. Beauty does not last, while the woman of 80 can still be charmingly neat." By neatness he meant more than simple tidiness. It included style and care and taste and the indefinable art of putting on one's clothes properly. It is a faculty, alas, that Canadian women do not possess to any extent, says a writer in the Montreal Herald. They doubtless inherit the lack of it from their English ancestors, who are noticeably untidy. The mass of Englishwomen do not seem to know the meaning of the word. Their skirts and belts always separate at the back. Their hair is never beautifully coiffed like the Frenchwoman's, their whole aspect is frowsy to an extreme. Of course, this does not apply to all Englishwomen. There are exceptions to every rule. On the other hand, the Americans are neat, and hence smart, for it is impossible to be smart without perfect neatness. They have a trim, trig way of wearing their clothes that gives a style to the cheapest ready-made. If you cannot be beautiful you can at least be charmingly neat. And neatness has an attractiveness that mere beauty lacks.

**Diabolo in the Past.** More diabolo discoveries. In the National Library at Paris are two prints, one entitled "The Game of Diabolo at the Beginning of the Last Century"; the other entitled "The Devil for Four (the old diabolo)." Two couples are playing diabolo excitedly in a room; the furniture is upset and the mirrors broken. Another design is entitled: "The Good Devil, How He Goes!" A young woman throws a big, simple fellow in the air, and from his pocket fall pieces of gold. In the same picture is another woman, with her diabolo cord round the neck of a man, with the inscription below: "See how we lead them!" Diabolo raised a furor in France in 1812. It was then, according to the Figaro correspondent, imported from England, and an English caricature of a later date represents a great Wellington sending to St. Helena a very little Napoleon riding on a diabolo. Long before the revolution of 1789 some missionaries in Peking sent an exact reproduction of diabolo to a French minister of state who collected Chinese curiosities. The Chinese are always found to have forgotten everything we are beginning to learn!—Dundoo Advertiser.

**A Sailor and a Chow Dog.** At the hour when women were making afternoon calls one day last week a man attired in the uniform of a sailor in the navy attracted a good deal of attention in West Fifty-fourth street, New York, by something he carried under his right arm, a something that looked at first like a white bundle, but which, on closer inspection, proved to be a Chinese chow dog that the sailor was trying to sell. The little animal was unusual enough in itself to catch the eyes of the women who stopped to speak to the sailor about it. But more unusual than that was the way in which the tiny pet was clothed as protection against the cold. He not only wore a coat with "sleeves" for his front and hind legs, but he also had his furry head covered with a veritable baby's hood, with a ruffle around the front of it, the cap being tied under his neck with red ribbons. The "costume" attracted quite as much notice as the chow dog did so long as its owner remained in sight on the block.

**Future Hardwood Supply.** America's future hardwood supply must come mainly from the Appalachian mountains, according to the forest service. The other chief centers of production are now in the lake states and lower Mississippi valley, but in the former the presence of hard woods is an almost certain indication of rich soil, and the tracts once cleared are turned to agricultural uses. In Arkansas, Louisiana and Mississippi the production of hard woods has reached its height, and in Missouri and Texas it has begun to decline. The Appalachians contain the largest body of this timber remaining in the United States, and have the greatest variety of species. Rightly managed, their forests would produce 20,000,000,000 feet per year, since their soil and climate combine to make heavy stands and cause rapid growth. Much of this area, however, has been so damaged by fire and cutting that it will be years before its 75,000,000 acres are fully productive.—Leslie's Weekly.

**Queens.** "You may not believe me," said the conceited beau, "but I called on four ladies last night." "What!" snorted the poker fiend, "you must be a quitter. I'd keep on raising all night if I had a hand like that!"

### VIRGINIA MERCHANT RID OF A VERY BIG GRAVEL STONE.

Another Remarkable Cure of Serious Kidney Trouble.

C. L. Wood, a prominent merchant of Ferrisburg, Norfolk Co., Va., was suffering some months ago with frequent attacks of hard pain in the back, kidneys and bladder and the kidney secretions were irregularly scanty or profuse. Medical treatment failed to cure him.

"At last," says Mr. Wood, "I began using Sloan's Kidney Pills, and before one box was gone, I went through four days of intense pain, finally passing a stone, one-half by five-sixteenths of an inch in diameter. I haven't had a sign of kidney trouble since."

Sold by all dealers, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### DOCTOR SAID "USE CUTICURA"

In Bad Case of Eczema on Child—Disease Had Reached a Fearful State—His Order Resulted in Complete Cure.

"When I was small I was troubled with eczema for about three months. It was all over my face and covered nearly all of my head. It reached such a state that it was just a large scab all over, and the pain and itching were terrible. I doctored with an able physician for some time and was then advised by him to use the Cuticura Remedies which I did and I was entirely cured. I have not been bothered with it since. I used Cuticura Soap and Cuticura Ointment but do not know exactly how much was used to complete the cure. I can safely say that Cuticura did a lot for me. Miss Anabel Wilson, North Branch, Mich., Oct. 20, 1907."

**Traveler's Picture Books.** Picture books for the benefit of travelers are kept in the Paris police stations. It frequently occurs that foreigners lose things which they are unable to describe, because of their unfamiliarity with the French language. The picture books contain representations of various articles, and the inquirer has only to turn the leaves and point out the illustrations which resemble the property he lost.

**Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nice cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.
