

Onions, Onions, Onions.
 600 bu. of Salzer's Red Globe Onion per acre at 80c a bu. brings \$480.00. That pays.
 \$600.00 from 3 acres Salzer's Morning Star Cucumber is well worth taking along. 640 bu. Salzer's 12 Podder Earliest and Best Pea sold in the green state at \$1.50 a bu. makes \$960.00 per acre. Such yields Salzer's pedigree vegetables stand for.
 Feb 12c
 and this notice the John A. Salzer Seed Co., La Crosse, Wis., in order to gain 250,000 new customers during 1908, will mail you free their great plant and seed catalog together with:

 or if you send 16c, we will add a package of Berliner Earliest Cauliflower. John A. Salzer Seed Co., La Crosse, Wis. K. & W.

Winter Tourist's W56.
 A Boston young girl saves the scenery, which in Florida's all to the greenery, but with tears in her eyes she sighed in surprise.
 "Why, nowhere I look is a beaery."
 With a smooth iron and Defiance Starch, you can launder your shirt-waist just as well at home as the steam laundry can; it will have the proper stiffness and finish, there will be less wear and tear of the goods, and it will be a positive pleasure to use a Starch that does not stick to the iron.
 On every occasion that leads thee to vacation apply this principle—that though this is a misfortune, to bear it nobly is good fortune.—Marcus Aurelius.

This woman says Lydia E. Pinkham's Vegetable Compound saved her life. Read her letter.
 Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:
 "I can truly say that Lydia E. Pinkham's Vegetable Compound saved my life, and I cannot express my gratitude to you in words. For years I suffered with the worst forms of female complaints, continually doctoring and spending lots of money for medicine without help. I wrote you for advice, followed it as directed, and took Lydia E. Pinkham's Vegetable Compound and it has restored me to perfect health. Had it not been for you, I should have been in my grave long ago. I wish every suffering woman would try it."

FACTS FOR SICK WOMEN.
 For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?
 Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Alabastine
 THE ONLY
Sanitary Durable WALL COATING
 In dry powder form, ready to use by mixing with cold water, full directions on every package, applied with an ordinary 7 inch flat brush.
 Alabastine is packed in carefully sealed and properly labeled packages, in sixteen beautiful, rich, velvety tints, which DO NOT FADE or change color, also white. A package will cover from 300 to 450 square feet of wall surface.
 These tints may be intermixed to produce innumerable color effects and you can do the work yourself.
 Alabastine safeguards health, makes walls sanitary and homes beautiful.
ALABASTINE CO.

VOLUMES MIGHT BE WRITTEN
 Of the Success That Awaits the Farmer in Western Canada.

The story of wheat farming in Western Canada (that portion of Canada lying north of Dakota and Montana) has been frequently told, but it will stand a lot of telling, and still retain its touch of interest. During the year just closed 277,376 persons made their homes in Canada as compared with 215,912 for the year 1906, an increase of 61,464. Those from the United States numbered 56,551. A writer in "Industry" recently said: "To-day the Dominion of Canada is witnessing a 'mighty movement of population' than ever stimulated a Biblical writer to pen a chapter of Scripture." The same writer says: "From the Rhine and the Rhone river valleys; from the port cities of Germany and the 'farms of the Fatherland, from the peasant soil of Russia; and out from the grimy Lancashire and overpopulated Yorkshire, the discontented and ambitious of every clime are seeking to take advantage of the 'opportunities afforded by the fertile soil and exhilarating climate of the 'Empire of the North.'"
 Continuing the same writer says: "While a million human beings throng the shores of the United States every year, the smaller number arriving in 'Canada come with a more well-defined purpose.' The question has been asked why do these people come to Canada? The available land between the Mississippi and the Pacific has been exhausted, and the farmers within that territory find that their sons have to seek newer climes. Canada offers one hundred and sixty acres of land free to each. This land yields from 20 to 40 bushels of wheat to the acre. In Southern Alberta, the winter wheat belt of Canada, as high as 60 bushels per acre have been harvested. Less yields than the one mentioned have netted the farmer as much as \$35 per acre. There are no words that tell the tale so effectively as those of the farmer himself, the man who has ploughed the fields, sowed the grain, and with folded hands rests while nature, bounteous in that country, in less than three months, placed at his disposal hundreds of acres of ripened grain, now waiting the arrival of the reaper, and therefore we reproduce the following letter.
 Any agent of the Canadian government will be pleased to give information regarding the district mentioned or any of any other that may be desired.
 E. T. Holmes, Esq.,
 Canadian Government Agent,
 St. Paul, Minn.

Dear Sir:—
 In 1905 I located on a claim about 30 miles from the town of Wadena, on the Canadian Northern Railroad, have lived on my claim most of the time since. I consider this to be one of the best districts in the country for grain growing. In 1906 wheat averaged from 30 to 51 bushels per acre on some of my neighbors' farms, within 4 miles of my claim. Oats go from 75 to 100 bushels. It is also a good country for stock. Where I am there is plenty of fuel. Homesteads nearly all taken the settlement being largely Germans, and Americans, all well-to-do. I left Wadena in February, 1907, returning April 25, so that I missed part of the winter, which the old settlers tell me was one of the worst they ever saw, but there was no suffering, as the people are pretty well fixed, and there are no blizzards in that country, at least there never has been known to be one. Wild land sells at from \$10 to \$15; closer to town it is higher.
 In the summer we have all sorts of wild fruits very plentiful, and I never saw better vegetables, and game is so plentiful a man need not starve for want of something to eat. Plenty of good water too. You need not hesitate to recommend this district, but the homesteads are nearly all taken, most of the homesteaders are living right on their claims.
 (Signed), FRANK MORREY,
 Kelvington, Sask.

Beware of Ointments for Catarrh that Contain Mercury,
 as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Where He Hung Out Most.
 She was sulking over a broken resolution ament late hours, but forgetting this for one the nonce, he said:
 "Do you know, darling, I never tire of looking at this snapshot of you?"
 "You might have it framed and hung up in the lodge, then," she answered tartly.
 Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

To Clean Weed.
 If your kitchen table or your bread board is discolored, and scrubbing with soap does not whiten it, take a piece of bath brick, wash the board with hot soapy water, and then rub it thickly with the bath brick. Then use a good scrub brush and more hot water, give a thorough scrubbing, rinse it in clean water, and if possible put it out in the sunlight to dry. Fine sand used instead of a bath brick will usually, in conjunction with soap and water, remove the obstinate stains.

Now is the time for the patient Filipino to turn the other cheek to the sugar trust.
 It was poor management to pull off a total eclipse where hardly anybody could see it.
 With what is left of the million dollars, doubtless the earl of Yarmouth will be able to get on for awhile without a wife.
 Nearly three billion people were carried by the railroads in 1907, some of them were delivered undamaged at their destinations.
 A Denver girl has become the bride of a Pueblo chief who cannot speak English. Perhaps she will have a title among the Indians.
 Thirteen women's clubs have voted not to trim their hats with the plumage of birds. That is a lucky number for the feathered songsters.
 The Japanese have all they can do to look after their lives at home in a time of profound peace. They are getting automobiles by the cargo.
 Argentine farmers just now are busy hauling a big wheat crop to market. Automobile drummers should pack their grips for South America.
 A French inventor now claims to be able to send photographs by wireless telegraphy. What would a sudden wind storm do to Gov. Hughes' whiskers?
 About the nearest thing we remember to living music heretofore has been the crying of a baby at 2 a. m. as the patient father walked the chilly floor.
 Really, Count Boni is a man of spirit. He will make faces at the prince or do something equally dreadful if the latter dares to marry his former wife.
 A moving-picture machine exploded in Canton and 300 Chinese lost their lives in the resulting panic. Civilization is dangerous unless one knows how to handle it.
 If Prince Helle de Sagan proves as costly a piece of bric-a-brac as did his cousin, the count, it will keep the Western Union and the Wabash humping to run the show.
 The Chinese imperial telegraphs had net earnings during 1906 of \$645,537 on a working capital of \$1,232,000. Evidently the Standard Oil Company isn't the only thing on earth, after all.
 Sixteen soldiers in Spain were arrested as plotters against Alfonso because they visited a newspaper office. They will get off scot free, of course, if they declare they called to whip the editor.
 Ocean-going ships soon will be fitted with all the comforts of home. About the only thing that will be missed is the village feud and maybe steamship proprietors will be dragging that in next.
 A Newark man was fined \$20 for laughing at a policeman. In most cities the majesty of the law considers itself sufficiently vindicated when it has beaten the mirthful one over the head with a club.
 There is in Berlin an artist who is going to marry a widow with \$5,000. This is excellent. Now let some delightful heiress add to the gayety by bestowing her hand and fortune upon some struggling poet.
 A California architect predicts that we shall soon have 100-story buildings. If his prediction is verified it will be necessary for our fellow citizen to build some pretty tall stacks if they expect to keep us choking with smoke.
 Science has harnessed the potato bug, as it were, and is making it do stunts in the interests of humanity. That is grand, sweet revenge for all the miserable hours it has brought to boys who had to "bug taters" when the fishing in the branch was fine.

TEXAS FARMS.
 For Sale or Exchange for Eastern Nebraska or Western Iowa Farms, 3566 acres Brazos Valley land in Baylor county, Northern Texas, subdivided into 160 acre tracts. Strong, rich soil. Suitable for winter wheat, oats, corn cotton and alfalfa. All kinds of vegetables and fruit. Sufficient timber for fencing and fire wood. Abundant rainfall. Healthful climate. Near good county seat town of 3,000 people. For further information call on or write, F. A. Field, Room 686, New Brandeis Bldg., Omaha, Neb.

Gorillas Terrorize Congo Natives.
 Alfred Yorke, a young explorer, who has returned to London from the French Congo, brought back with him three immense gorillas. He states that a section of the French Congo and the German Cameroons is filled with these big beasts.
 The natives had been driven away by the ferocious animals, which had even succeeded in getting rid of all the monkeys.
 These animals are generally armed with heavy clubs, and woe to the caravan that is attacked by them. Mr. Yorke describes one such incident that happened to the caravan with which he was traveling, and says that he and his companions owe their lives to the large amount of ammunition they carried, with which they succeeded in routing the gorillas.
Color Photography.
 The London Times says that the work of pioneers in color photography has reached a promising stage and that a plate is now on sale upon which a fairly satisfactory halochrome transparency may be made with one exposure and with little more trouble than when making an ordinary negative.
Why He Fought.
 Magistrate—Pat Murphy, the constable says you were fighting. What have you to say for yourself?
 Pat Murphy—Well, your worship, OJ had a clean white shirt on, an' OJ was so mighty proud of it that OJ got up a bit with a row wild a mon so as OJ cud take me coat an' wescot off and show it.

Irrefutable Tramp Evidence.
 Tramp—I understand that a pocket-book, containing \$20,000 has been found on the street and you got it here. I lost it!
 Police Justice—What proof have you got that you lost it?
 Tramp—This big hole in my pocket.
"Brown's Bronchial Troches"

ALL KNOW THIS MAN

THE TIME-STEALER ONE OF THE EVERLASTING NUISANCES.
 Minutes, Hours, Days and Weeks Are His Plunder—Foe to Industry with Whom It is Very Hard to Deal.
 He is known among his acquaintances—and about everybody knows him—as the time thief. Not that he relieves his friends of their watches; that wouldn't be so bad, because watches can be replaced, but the time thief takes what can never be recovered or duplicated—minutes and hours, and days and weeks, which do not belong to him. Unlike the ordinary thief who steals from those who have the most of what he covets, the time thief steals the golden moments from those who have the fewest to spare.
 The time thief is not ordinarily a bad sort of fellow. But for his pernicious habit of taking what does not belong to him he might be a good citizen and an ornament to society. The modus operandi of this foe to industry constitutes the peculiar enormity of his offense, for he carries on his nefarious business openly and cheerfully, persuaded that he is an angel of beneficence to his fellow men.
 He "blows" breezily into the office of his victim at the busiest hour of the day and this is what takes place:
 "Hallo, old chap," says the time thief, slapping his victim on the back. "There you are with your nose at the grindstone again. You'll peg out one of these days and never know you've been alive."
 "How are you?" returns the victim, with forced politeness, for of course it is impossible to kick the time thief. "You'll excuse me if I finish what I'm at here—awfully busy this afternoon."
 "Busy, nothing," says the time thief, jovially. "You only think you're busy. Nothing but habit, old man, nothing at all but habit. If I didn't drop in every day or two to jar you out of your rut I don't know what would become of you. Now, just chuck that pen while I'm here and put your feet up on the desk. Got a little story I want to tell you."
 But the victim, who has been through all this before, laughs as politely as possible, and keeps on with his work. If the time thief didn't have a hide as thick as an alligator he'd take the hint and ramble out. But such a course never occurs to him. Being a time thief, he won't go until he has obtained enough plunder to make it worth his while. Accordingly, he plunks himself down in a chair, puts his feet on the desk, and tells his little story. The telephone rings, visitors arrive to transact business with the victim, the office boy comes in with papers for him to sign. These are very annoying interruptions for the time thief, but they do not discourage him to the point of giving up his attack. He always begins again at the point where he left off and carries his story through to the end—and begins another.
 The time thief never has any business of his own, and never can see why anybody else should have any. "Look at me," he says boastfully. "I look 20 years younger than you do now, and I'll live that much longer than you. All because I know how to live. Well, so long for now; I'll drop in again to-morrow and cheer you up again."
 Although the time thief boasts that he knows how to take things easy, it would be worth while to have him tackled by another time thief. The chances are that he would see things in a different light at once. But the effect would only be temporary, and he would pounce on his victim with all the more delight at the next opportunity. In all probability the time thief will last while time lasts.

PERUNA EDITORIAL NO. 1.
 Dr. Hartman is now offering Peruna to the public as a regular pharmaceutical product. It is just as ethical as any compound put up for the medical profession. No straining of medical ethics can find any fault with it. THE PRINCIPAL ACTIVE INGREDIENTS are prominently incorporated in the label on the bottle, that the people may know that the claims made for Peruna have a true justification.
 The only departure we shall make from medical ethics in the conduct of Peruna affairs in the future, is the fact that we shall continue to advertise and sell our product TO THE PEOPLE.
 If we would agree to sell to doctors only, to advertise for doctors only, then the medical fraternity would be obliged to recognize Peruna as being entirely within their approval.
BUT WE SHALL NOT DO THIS.
 We shall continue to offer Peruna to the people. We shall continue to convey to the people our claims for Peruna as a household remedy. We shall continue to supply the people with free literature, teaching them how to use our medicine, teaching them how to avoid disease, teaching them many things of benefit to the home. We shall continue to do this, whether the medical profession like it or not.
 We are proposing from this time on to take the public into our confidence. Notwithstanding that some imitators and substitutes will be attempting to put up something which they consider just as good as Peruna, we are going to draw aside the veil of secrecy and allow any one who chooses to know exactly OF WHAT PERUNA IS COMPOSED.
 This ought to disarm all honest criticism. We expect, however, that criticism will continue. On some pretext or other those who are envious of the success of Peruna will continue to find fault. But we are determined to give such people no just complaint. PERUNA IS A GREAT MEDICINE. It has become a household word in millions of homes. Our faith in the remedy is stronger than ever. Every year we expect to establish new plants in foreign lands until the people of all the world are supplied with this valuable household remedy.
WE CLAIM PERUNA TO BE A CATARRH REMEDY. Buy a bottle and try it. If it helps you, be honest and acknowledge that it has helped you. If you want us to we will publish your statement exactly as you furnish it to us. We will add no words, take away no words. If you wish us to we will publish your portrait in connection with it. We will not do this without your written request, without your entire consent.
 Peruna has cured thousands of people of chronic catarrh, in many phases and locations. At least, that is what the people say to us, through unsolicited testimonials. Peruna will cure many thousand more, in spite of fabricated slanders to the contrary.
WE GUARANTEE EVERY BOTTLE OF PERUNA TO CONTAIN THE INGREDIENTS PRINTED ON THE LABEL.
 We guarantee that every testimonial we use is absolutely true—in the exact language of the testifier.
 We guarantee that every photograph published is the photograph of the person whose name it bears, that every word of every testimonial was authorized by the hand that signed it.
 We are determined to beat our opponents by being fairer than they are, by dealing squarer than they dare to. We are determined to meet falsehood with truth, duplicity with candor, insincerity with sincerity.
 We know that the users of Peruna will appreciate our stand. We believe that the dealers in Peruna will applaud our course. We expect even our opponents will be obliged to acknowledge finally that Peruna is not only an honest and useful remedy, but one of the GREATEST HOUSEHOLD MEDICINES ON THE CONTINENT.

People Who Object to Liquid Medicines Can Now Secure Peruna Tablets.
