LOCAL BREVITIES.

Sawed Off Items That Have Only a Local Interest.

Labor Temple directors meet Monday evening.

Typographical Union meets tomorrow afternoon at 2:30 at Fraternity hall.

Capital Auxiliary meets with Mrs. W. M. Maupin, 647 South Twenty-seventh, Friday, June 12.

"The Church at Work," the local organ of the Christian churches, now bears the label of the Allied Printing Trades.

L. M. Gorman has taken the Majestic theatre in charge and is now giving picture shows that are the talk of the town.

The places that union and brotherhood men patronize should be the places that are boosting union-made tobacco and cigars.

Charley Young, the Burlington pump man who has been laid up for several months with a bum leg, expects to return to work in a short time.

W. J. Bryan returned Thursday from his tour of northwestern Nebraska. His receptions were the greatest ever known in that section of the country.

"The Real Bryan" is the title of a book recently compiled by Richard L. Metcalfe and printed by the Personal Help Co. of Des Moines. It bears the label, of course, "Met" saw to that.

Mayor Brown speaks in praise of the way the tricycles, Rock Island, Moline and Davenport, keep their parks. But they spend more on them in a week than Lincoln spends for parks in a year.

The new city park is in fine condition these days. The people are rapidly grasping the fact that they have the foundation of the magnificent park system, and will soon realize the folly of trying to maintain and improve it with a beggarly \$5,000 a year.

Capital Beach is now open, and the attendance promises to be vastly increased under the new order of things whereby one fare pays for the trip. The boating is especially fine. Now what's the matter with a yacht club and having some sailing and rowing regattas?

The board of directors will meet in regular session next Monday evening, and at that time an effort will be made to begin at once to realize upon the helpful advice secured at the

meeting Tuesday evening. Every director should make it a point to be present.

Speaking of practical sympathy manifested for unionism by the clergy, how's this: Rev. P. M. Orr, pastor of St. Mark's Reformed church, proudly displays the label on his wearing apparel—hat, coat, pants, vest, shoes, shirt and collar. "If it's made anywhere by union men and women it's what I always insist on having," says this popular clergyman. That's the sympathy that helps some.

THE PLUMBERS.

Lincoln Entitled to a Department of Plumbing Inspection.

Lincoln now has a duly authorized plumbing inspector in the person of Bert Chipman. At present Mr. Chipman is working under the bureau presided over by City Engineer Grant, but the time is near at hand when the office of plumbing inspector will be a department of the city all by itself. This will be the case when it is officially declared that Lincoln is a city of 50,000 people. As Lincoln now has nearer 60,000 than 50,000, it will not be difficult to get the declaration in due time. And the city would have to look a long while before securing the services of a man better equipped for the position than this same Bert Chipman.

That picnic is still under discussion. When it is pulled off it will be something calculated to make folks sit up and take notice. The committee is busy with the arrangements, and if anything calculated to add to the enjoyment is escaping notice, please call attention to it.

THE BRICKLAYERS.

Bits About the Boys Who Build the Brick Buildings.

At the international convention of the Bricklayers and Masons' Union recently held in Detroit, steps were taken with a view of promoting harmony between the Bricklayers and Masons and the Journeymen Stone Cutters' association. A plan to create a reserve fund large enough to meet any and all contingencies was adopted. Reports from the various sections of the country show that a large proportion of the unions have secured the eight-hour day and that wages have increased very materially. The increase in membership during the last two years has been phenomenally large, upward of 200 new

unions with an aggregate membership of 20,000 being added to the original roll.

The Bricklayers and Masons' Union of the state of Ohio have just closed a very important state convention, held at Canton, Ohio.

A Seattle item says: "None but union bricklayers are now working on the First Methodist church building and the Rosenberg hotel. A tacit understanding has been reached between the unions and the contractors whereby none but union bricklayers are to work on these jobs in the future."

Union bricklayers at Hamilton, Canada, recently secured a three-year agreement at fifty cents an hour and an eight-hour day.

Bricklayers in the Edmonton, Eng., district went on strike recently against a reduction of 4d per 1,000 bricks. Most of the large brick fields are therefore idle in the district.

HOW IT WAS.

Jere Sullivan Explains It in Very Clear Language.

"The Merry Widow" gave "The Man of the Hour" "The Soul Kiss" for "The Honor of the Family," while "The Servant in the House" who kept company with "The Yankee Prince" who was "Nearly a Hero" for refusing to eat at a place when the Waiters did not wear the Green Button and the Barboy did not belong to the union. This is "The Talk of New York" for "Father and the Boys" accompanied "The Warrens of Virginia" to hear "The Music Master" and "A Grand Army Man" tell of the "Witching Hour" when "The Flower of the Ranch" asserted that you could not secure good service nowadays unless you insisted on being cared for by union bartenders, cooks and waiters.—Jere Sullivan, in Mixer and Server.

CENTRAL LABOR UNION.

First June Meeting Will be Held Next Tuesday Evening.

The Central Labor Union will meet next Tuesday evening. Several delegates have already expressed the opinion that it is not too early to begin figuring on a Labor Day celebration. No celebration worthy of the name has been held for two years, chiefly because of the inability to secure union bands. Now that Lincoln has a Musicians' Union band, there seems to be no reason why there should not be a monster pa-

rade this year. In this connection it might be well to remind the Musicians' Union that its delegates to the central body have not been very faithful in their attendance.

Final settlement of the bills for the recent label exhibition will be made, and delegates from unions that have not yet paid in their per capita are urged to bring the money. Speaking of the label exhibition it will please Lincoln unionists to know that they gave the company the third largest crowd it exhibited to. Mr. McMorrow, the manager, estimated the Lincoln audience at about 2,200. At Kansas City, a couple of nights later, the audience numbered less than 500.

President Rudy is not yet willing to let the "political scheme" drop. He insists that he is going to hammer away on it until he sees results in the shape of a determined effort on the part of union men in Lancaster county to have representation in the next legislature.

THE NATURAL RESULT.

One of Pat Calhoun's cars was held up Thursday night by a lone highwayman who afterward proved his experience as motorman by running the car to a place of safety, after disposing the regular crew. Calhoun imported a large number of strike-breaker desperadoes last year, and the incident of Thursday night indicates that at least one of them is still in the city. A sense of poetic justice evidently impelled him to seek financial relief from his whilom benefactor.—San Francisco Star.

Fruit Wafers.

Mix three cups of graham or whole wheat flour with a cup of cold sour cream; add half a teaspoonful of salt and knead well. Divide in two parts and roll one thin; on this spread a layer of chopped figs and lay on the other layer; press the two together with the rolling pin, cut in squares and bake quickly. Instead of figs you can use dates, or dates and figs chopped together, or figs and nuts. Or stewed and stoned prunes may be used alone or with the figs.

Sliced Beef Relish.

Take two pounds of raw, tender beefsteak, chop it very fine, put into it salt, pepper and a little sage, two tablespoons of melted butter. Add two rolled crackers, made very fine, also two well-beaten eggs. Make it up into the shape of a roll and bake it. Baste with butter and water before baking. Cut in slices when cold.

DEMAND The UNION LABEL

BE PERSISTENT.

Thoughtless union men remind us, That it's a distressing crime, If we don't persist in calling For the LABEL all the time. —Kansas City Labor Herald.

The Worries of Childhood.

It must be a terrible thing to be a child nowadays. Overwhelmed with warnings and restrictions, they must not play with earth or sand, because these might contain the bacilli of phthisis, typhoid or tetanus; they must not play with other children, for fear of contagious diseases; their food is weighed; they are even forbidden to allow anyone to kiss them. This microbophobia is absurd.—Vienna Familienblatt.

Will Loan Money to Farmers.

The Transvaal government, through the medium of a land bank that is being opened, is about to lend approximately \$12,000,000 to the farmers of the country to enable them to purchase modern agricultural machinery and implements.

To Keep Him in Trim.

"I visited the home of Sankoid, the celebrated contortionist, the other day, and I must say he has installed one very peculiar feature."
 "And what might that be?"
 "He has his bed built in the form of an upper berth."
