THE LABOR PRESS.

International Typographical Union
 Urges Its Unanimous Support.

At the Boston convention of the International Typographical Union the press committee brought in a ringing report that was unanimously adopted by the convention. Believing that this report will be interesting and profitable, The Wageworker herewith presents it:

Boston, Mass., Aug. 14, 1908.
 To the Officers and Members of the International Typographical Union: Ladies and Gentlemen—Your committee on press respectfully presents the following report for your consideration:

In view of the fact that the great need of the trade union movement is more concerted and enlightened effort among the great rank and file of the trade unionists it is the opinion of your committee that the labor press of the country is the greatest instrument for the accomplishment of this purpose.

In every jurisdiction that has a labor paper, the condition of the worker has shown an improvement and the antagonistic attitude of a large proportion of the non-labor press has been dissipated.

It is recognized that the Typographical Journal is without doubt the best of the trade union papers in the country. However, we believe that the influence of the general labor press should be extended and that it is our duty as printers to take the lead in the support of the labor press.

We make the following recommendations:

That the delegates of the International Typographical Union to the American Federation of Labor convention be instructed to use their influence to the end that various national and international unions having labels give a larger degree of support to the labor press, especially along the line of advertising their labels therein.

Recommendations adopted:
 That this convention goes on record as protesting in a most emphatic manner against the present law and attitude of the postal department of the United States in its restrictions of the service with regard to the second-class privilege, believing that such restrictions are inimical to the free institutions of the country and par-

ticularly to the freedom of the press. We therefore request that the president of this organization convey our protest to the president of the United States, the senate, and the house of representatives.

The protest was adopted.
 That it is the sentiment of this convention that all Typographical Unions should show in a practical manner their belief in the power of the labor press, by subscribing for such papers as a body, where such papers exist.

Adopted.
 That our delegates to the American Federation of Labor convention be instructed to use their best endeavor to bring about some system of syndicated news of the labor world weekly to prove bona fide labor publications, such proof of their bona fide character to be furnished by the secretary of the American Federation of Labor by the central body of the respective town or city.

Adopted.
 That, as the running of a labor paper is a direct advantage to our membership in providing employment, in addition to the general benefits accruing to the entire labor movement, we recommend that the International Typographical Union issue a folder of sufficient size and number of pages to fittingly present the need and value of the labor press and that a sufficient number be issued to afford a thorough distribution, the limit of such distribution to be determined by the executive council. We recommend that a sufficient sum be taken from the general fund to defray the expenses of said publication.

Adopted.
 That the following be incorporated in our book of laws under the head of "Resolutions:" "That the International Union urges upon all members the advisability and necessity of subscribing for the labor press (if any exists in their jurisdiction) in a body and render further support, such as the patronizing of its advertisers to the exclusion of others, provided also that unfair firms or merchandise are not advertised in its columns, to the end that the value of its columns as an advertising medium may be fully appreciated by the friendly business element of its community."

Adopted.
 The committee endorses the action

NEW FURNITURE.

General Agent Slossen, of the Union Pacific at Lincoln is feeling fine these days, and City Agent Matsen is happy beyond expression. The new mahogany furniture for the city office is arriving, and before the first of the month the Union Pacific city office will be a bit the finest of any railroad office in this section of the moral vineyard.

GOD SAVE US!

"We are the friends of labor, and not its enemies," writes an official of the Anti-Saloon and County Option Leagues in trying to explain by mis-statements of facts why J. W. Dick can take care of my enemies," decision received no consideration. "I clared the Danish king, "But God save me from my friends."
