

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me, I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

Prophecy Fulfilled. "That baby, madam," said the doctor to the proud and happy mother, "will make his mark in the world some day."

Note the fulfillment of the prediction. In less than 16 years that boy was the scoreboard artist in a great baseball park.—Chicago Tribune.

THE WONDERBERRY.

Mr. Luther Burbank, the plant Wizard of California, has originated a wonderful new plant which grows anywhere, in any soil or climate, and bears great quantities of luscious berries all the season. Plants are grown from seed, and it takes only three months to get them in bearing, and they may be grown and fruited all summer in the garden, or in pots during the winter. It is unquestionably the greatest Fruit Novelty ever known, and Mr. Burbank has made Mr. John Lewis Childs, of Floral Park, N. Y., the introducer. He says that Mr. Childs is one of the largest, best-known, fairest and most reliable Seedsmen in America. Mr. Childs is advertising seed of the Wonderberry all over the world, and offering great inducements to Agents for taking orders for it. This berry is so fine and valuable, and so easily grown anywhere, that everybody should get it at once.

Same Effect. "Cyril," said his mother, as they sat down to the breakfast table, "did you wash your face this morning?" "Well, no—mamma," said he, slowly, evidently casting in his mind for an excuse, "but," he added, reassuringly, "I cried a little before I came downstairs!"—Delineator.

Professor Munyon has just issued a most beautiful, useful and complete Almanac; it contains not only all the scientific information concerning the moon's phases, in all the latitudes, but has illustrated articles on how to read character by phrenology, palmistry and birth month. It also tells all about card reading, birth stones and their meaning, and gives the interpretation of dreams. It teaches beauty culture, manicuring, gives weights and measures, and antidotes for poison. In fact, it is a Magazine Almanac, that not only gives valuable information, but will afford much amusement for every member of the family, especially for parties and evening entertainments. Farmers and people in the rural districts will find this Almanac almost invaluable.

It will be sent to anyone absolutely free on application to the MUNYON REMEDY COMPANY, PHILADELPHIA.

IS HUMAN ICEBERG

SENATOR HALE THE BANE OF WASHINGTON REPORTERS.

Very, Very Seldom Will He Condescend to Talk to Newspaper Men—Will Not Tolerate Anything Like Familiarity.

Washington.—Formerly it was the practice among city editors in Washington, when there was a new or "cub" reporter to be "broken in," to assign to him the task of interviewing Prof. Langley of the Smithsonian Institution, on the subject of aviation. If he survived—if he came back still imbued with the idea that he was cut out to do newspaper work—he was considered a "find" by the city editor and usually was given regular employment. Langley has been dead for several years. Now city editors send their news men to interview Senator Eugene Hale of Maine. If Langley was impossible, Hale is inexpressible. Langley was like a roaring lion when confronted by a person seeking information about his hobby. Hale is haughty and scornful in his treatment of representatives of the press when approached by one of them on any subject. Langley sometimes gave to the public, through the press, some benefit of his great store of information on scientific matters. Hale abhors interviewers, even to the point of being rude to them, and it is seldom, very seldom, that he talks to any of them for publication.

Writers, probably, viewing their subject from the galleries of the senate or from afar, have said that Hale is of the "old school" of statesmen. Rather, Hale is of the aristocratic type of statesmen.

Statesmen of the "old school," to which Morgan, Vest, Edmunds, Cock-

EUGENE HALE

rell and others of their contemporaries belonged, were dignified always, but they also were affable. They had a cheerful "good morning" and "good night" for every senate employe, from the man who scrubs the polished marble floors of the private corridors up to the vice-president.

Senator Hale rarely notices any person at the capitol who occupies a lower place in the scale of officialdom than a representative. He addresses those under him when he needs them to perform a service for him, but never can it be truthfully said that he hobnobbed with one of them.

Old senate employes have learned, some of them painfully, that the senator from Maine will not tolerate familiarity, nor anything that approaches familiarity. It was a new member of the capitol police force that met Mr. Hale coming into the big gray building not long ago.

"Good morning, senator," breezily exclaimed the copper.

"Man," angrily returned Mr. Hale, "if you presume to address me again, your position will be worth nothing—absolutely nothing."

Then he strode down the corridor into his committee room, leaving outside a large man, mouth open and trembling, unable to figure out just what sort of a breach he had committed, but at the same time certain that he had done something dreadful.

A certain elevator in the senate wing of the capitol has on it a sign that reads: "For members of the congress and the supreme court." Although not mentioned on the placard, newspaper correspondents, by courtesy, are allowed to use the "lift." Senator Hale rang for the elevator recently. He wished to go from the first to the second, or senate floor. When the car stopped he stepped aboard, and was followed by a stranger. Before the conductor could close the door, Hale stepped out of the car, saying to the conductor:

"When you have taken this person to his destination, you may return for me."

Incidents such as these in which Senator Hale has figured are numerous at the capitol. From the galleries the senator appears to be a fatherly person. Those who know him intimately say he is agreeable and kindly—he has few intimate friends. His record shows that he is an effective legislator, and he is recognized as one of the biggest men in the senate. Yet to the casual person with whom he comes in contact, he suggests a human iceberg.

Experienced reporters would just as soon jump into the Potomac on a winter's day as to try to get a talk from Hale for publication.

OFTEN THE CASE.

Women Struggle Hopelessly Along, Suffering Backache, Dizzy Spells, Languor, Etc.

Women have so much to go through in life that it's a pity there is so much suffering from backache and other common curable kidney ills.

If you suffer so, profit by this woman's example: Mrs. Martin Douglass, 52 Cedar St., Kingston, N. Y., says: "I had a lame, aching back, dizzy spells, headaches, and a feeling of languor. Part of the time I could not attend to my work and irregularity of the kidney secretions was annoying. Doan's Kidney Pills brought me prompt relief."

SKIN ERUPTION CURED.

Was So Sore, Irritating and Painful That Little Sufferer Could Not Sleep—Scatched Constantly.

Cuticura's Efficacy Clearly Proven.

"When about two and a half years old my daughter broke out on her hips and the upper parts of her legs with a very irritating and painful eruption. It began in October; the first I noticed was a little red surface and a constant desire on her part to scratch her limbs. She could not sleep and the eruptions got sore, and yellow water came out of them. I had two doctors treat her, but she grew worse under their treatment. Then I bought the Cuticura Remedies and only used them two weeks when she was entirely well. This was in February. She has never had another rough place on her skin, and she is now fourteen years old. Mrs. R. R. Whitaker, Winchester, Tenn., Sept. 22, 1908."

Too Much for His Mind.

"My first impulses," wailed the Sad-Eyed Individual, "are invariably good. In fact, I think that I may venture, with a fear of undue exaggeration, to say that they are very good. But I never act on them! I always act on second thoughts. This trait in my character has ruined my career, because my second thoughts are always bad! In fact, I think I may say, without fear of misrepresentation, that they're punk."

"Well," suggested he who was listening, "why don't you wait until third thoughts, and act on them?" Mournfully, despondently, the Sad-Eyed Individual shook his head.

"My dear sir," he groaned, "I never had three successive thoughts about anything in my life!"

BRIGHT SIDE TO BUSINESS.

Occasional Flash of Humor Enlivens Chase After Dollar.

It is supposed that business letters are deficient in humor. Still there have been exceptions, and the latest, sent by a member of the well-known wholesale soap-making firm of (let us say) Cake & Son, is one of the most brilliant. A retail dealer in a small way had sent for a consignment of their goods: "Gentlemen (he writes) 'wherefore you have not sent me the soap? Is it because you think my money is not so good as nobody else's? Dam you, Cake & Son! wherefore have you not sent the soap? Please send soap at once, and oblige yours respectfully, Richard Jones. P. S.—Since writing the above my wife has found the soap under the counter.'"

COFFEE BRULO IS EXCELLENT.

Popular Beverage That Had Its Origin in New Orleans.

In this country coffee brulo seems to have had its origin in New Orleans. On the other side it has been popular for years, especially in France and Hungary. A tray is brought the hostess, bearing the coffee urn, a silver bowl with a wide mouth, a small ladle, bowl of loaf sugar, a little dish of whole spices, cloves, cinnamon and cassia buds, and another with the peel of a mandarin orange minced fine. There is also a little flask of brandy. The hostess, counting noses, puts into the wide-mouthed bowl a lump of sugar for each person, then the cloves, cinnamon and orange peel. Over this a little brandy is poured, which is then lighted and allowed to burn until the alcohol has all disappeared. During this burning it must be occasionally stirred. As soon as the flame has disappeared the coffee, black and strong is poured in until the bowl is full. A final stir and this is ladled out into after dinner coffee cups.

RHEUMATISM PRESCRIPTION

The increased use of "Toris" for rheumatism is causing considerable discussion among the medical fraternity. It is an almost infallible cure when mixed with certain other ingredients and taken properly. The following formula is effective: "To one-half pint of good whiskey add one ounce of Toris Compound and one ounce of Syrup Sarsaparilla Compound. Take in tablespoonful doses before each meal and before retiring."

Toris compound is a product of the laboratories of the Globe Pharmaceutical Co., Chicago, but it as well as the other ingredients can be had from any good druggist.

WONDERBERRY PLANT.
THREE MONTHS FROM SEED.

THE WONDERBERRY

Luther Burbank's Greatest Creation. A Luscious Berry Ripening in Three Months from Seed. Seed 20 Cts. Per Pkt., 3 Pkts. for 50 Cts., Postpaid

Fruit blue-black like an enormous rich blueberry in looks and taste. Unsurpassed for eating raw, cooked, canned or preserved in any form. The greatest garden fruit ever introduced and equally valuable in hot, dry, cold or wet climates. Earliest plant in the world to grow, succeeding anywhere and yielding great masses of rich fruit all summer and fall—and all winter in pots—(as a pot plant it is both ornamental and useful). The greatest boon to the family garden ever known. Everybody can and will grow it.

Luther Burbank, of California, the world famous hybridizer, originated this new fruit and turned it over to me to introduce. He says of it: "This absolutely new berry plant is of great interest and value as it bears the most delicious, wholesome and healthful berries in utmost profusion and always comes true from seed."

Address JOHN LEWIS CHILDS, Floral Park, N. Y.

P. S.—This offer will not appear again. Write for Wonderberry seed, and Catalogue at once. Do not neglect or delay. You can be the first to grow it in your town and make big money selling both berries and seed. I raised 550 quarts from a few plants.
