LIBERTY FLOUR

No better flour sold on the Lincoln market. Every sack warranted. We want the trade of Union men and women, and we aim to deserve it. If your grocer does not handle Liberty Flour, phone us and we will attend to it. Ask your neighbor how she likes Liberty Flour. We rely on the recommendation of those who use it.

A. J. MORRIS.

The office of Register of Deeds is a very important one, and the voters should see that they cast their vote for the best man fitted for the office. Mr. A. J. Morris is a candidate for the nomination on the republican ticket for this important office and is receiving the support of a host of friends. The union men of our city should at all times vote for those whom they know to be friendly toward their cause and a vote for A. J. Morris means a vote for a friend. If Mr. Morris receives the nomination, and is elected to this high position, he will devote his time and attention to the office in a manner that will reflect credit on himself and the citizens of Lancaster county. He will represent all the people and not any certain class. Mr. Morris has served the people of this city in the capacity of secretary of the board of education for the past ten years in a commendable manner, and is well qualified to fill the position to which he aspires.

A LITTLE BOUQUET.

Will M. Maupin, recently appointed labor commissioner of Nebraska, was chosen president of the newly formed Federation of Labor, which met in Lincoln, Neb., last week. Mr. Maupin is well fitted for the position and will build up the Federation. An aggressive man is needed in the president's position who can meet all kinds of people and make good. Maupin is "it" when it comes to an argument, and is well posted on labor subjects. His election assures the success of the Nebraska Federation of Labor. Joplin (Mo.) Trades Unionist.

H. V. HOAGLAND.

It is the custom by common consent, to accord a county officer who has served acceptably for one term, the right to a second. Most fair-minded men agree to this. Mr. Hoagland is a candidate for the nomination for reelection on the republican ticket. There is an old adage that it does not pay to swap horses in the middle of a stream, and the many friends of Mr. Hoagland contend that the phrase holds good in this instance. By his fair and impartial manner in conducting the sheriff's office he has won the esteem and respect of all and it is for the best interests of the people that he should be his own successor. If he is nominated and re-elected to this important position the citizens of Lancaster county can have every assurance that the office will be conducted along the same careful, conservative lines in the future as it has in the past.

NATIONAL CONFERENCE.

The National Woman's Trade Union league has issued a call for a conference to be held in Chicago beginning September 27. It is expected that delegates will be present from Great Britain, France and Germany and from all trade organizations of women in the United States.

V. W. MATTHEWS.

The present coroner, V. W. Matthews, is asking the nomination on the republican ticket for a second term. Mr. Matthews has fulfilled every pledge made in his last campaign, and has saved the taxpayers of Lancaster county at least fifty per cent compared with former administrations. He has

always shown his friendliness toward the cause of organized labor, and in the erection of the new undertaking establishment that is nearing completion, built by Castle, Roper & Matthews, of which firm he is a member, Mr. Matthews stipulated that all work should be done by union labor. If nominated and elected he will conduct the affairs of this office in the same conservative manner in the future as in the past. The man with a card will make no mistake by casting a ballot for V. W. Matthews, at the primaries, August 17.

A GREIVIOUS ERROR.

Boot and Shoe Workers Fail to Follow a Universal Rule.

Among other things done by the Boot and Shoe Workers when they met in Syracuse a few weeks ago was to neglect to follow a universal rule. The matter of helping the striking hatters came up, and thus was afforded an opportunity to adopt a lot of high-sounding resolutions of sympathy. But the Boot and Shoe Workers signally failed to rise to the occasion. Instead of appointing a committee of men capable of slinging English into high-flown phrases they actually dodged and contented themselves with appropriating \$10,000 for the aid of the Hatters.

Now wouldn't that jar you? Missing a chance to resolute and resolve and contenting themselves with putting up ten thousand paltry dollars. Gee, but these trades unions are becoming sordid and mercenary. They are actually beginning to think of their unfortunate brothers in dollars and cents instead of in resolutions and resolves.

And now, instead of sitting around and reading a lot of eloquent words from the Boot and Shoe Workers, the striking Hatters will have to content themselves with eating a few square meals.

Isn't it awful, Mabel, to see our beloved traditions thus ruthlessly slaughtered and smashed to smithereens?

Fourth annual benefit Lincoln Central Labor Union, Oliver theatre, Friday evening, July 30. Tickets 25 and 15 cents. Courtesy Grace Hayward Stock Co. and Frank Zehrung, manager. Oliver.

SCANDALOUS DEMANDS.

Those Pesky Socialists Actually Asking for the Possible.

The Socialist party in New York has some scandalous demands in its platform. It wants playgrounds, and kindergartens established; thinks the city should reclaim all franchises, and operate its own public service facilities and would have the city engage in a policy of reclaiming all available lands and occupying them with modern, sanitary houses, to be rented at cost to working people. Ever hear of anything so crazy? Yes? Where? Why in all the great cities of Europe, where municipal government is fast being made a science instead of a stench. But, of course, free and enlightened America doesn't want such things.—Washington Daily Times.

"POPULAR MECHANICS."

Popular Mechanics is the name of a monthly magazine that has enjoyed a large circulation among union mechanics. Recently the managers of this publication decided that it preferred to have its printing done by non-union printers and pressmen, so the work was given to an unfair shop. Union men and women should allow Popular Mechanics to circulate only among non-union mechanics.

THAT "NEAR-TOBACCO."

What You Get When You Smoke the "Scab" Stuff.

Hay and arsenic sold for tobacco by the great and glorious Trust. The above is the official analysis made by the Pure Food Bureau of the Agricultural Department in Washington. There is hardly a dead wall in the city which does not contain an advertising poster of the tobacco, asserting it is the only genuine smoking tobacco.

Whole walls of houses are covered with a large picture advertising its virtues. It is one of the oldest brands on the market. Many smokers when they go into a tobacco store and are offered some other brand of tobacco will shove it back and call for the brand analyzed and say, "Throw that stuff away. I want some real tobacco."

The neat little sack containing sixty-three per cent alfalfa, six per cent arsenic, one per cent opium, three per cent of fluid and actually twenty-seven per cent of tobacco is handed out to them. Then they roll it in a paper doped with more opium and brag on the fine brand of tobacco they are receiving.

In closing we make bold to mention the fact that the tobacco in question is Bull Durham.—Michigan Union Advocate.

A state bureau of labor and statistics has been created by the Texas legislature.

Hot Weather Comforts

Mr. Inside Man, you have an electric fan. How about your good wife? Has she an electric fan? Is she still broiling herself and the steaks over a red-hot coal range? Why not pause and consider her comfort and convenience a little bit? If not both electric fan and gas range—

Get a Gas Range

It will make the kitchen comfortable; it will save hours and health, and make home happy. Cheaper than coal—and so clean, convenient and comfortable. We sell the ranges (cash or payments) and furnish the gas. You furnish the match. And then the housewife is equipped with labor-saving machinery. Once used, never abandoned. Ask 5,000 Lincoln women who cook with gas.
