

Fall Millinery STYLES

Fashion's dictates are peculiar, and the millinery establishment that serves its patrons well must be up-to-the-minute in all of fashion's details. My

New Fall Styles

are correct in every detail, and I am especially desirous of adding you to my rapidly growing list of customers. My stock of Pattern Hats is especially full and complete this season, and you will find the prices moderate. My force of designers and trimmers is not only adequate in numbers, but every one is an artist in her line.

I am now ready to show you the very latest fall designs in millinery and to give you prompt service and complete satisfaction. Whether you contemplate immediate purchase or not, I extend to you a cordial invitation to call and inspect my complete stock.
