### THIS IN AMERICA!

Workers Wives Victims of the Degenerate Employers in Pennsylvania.

"A pit of infamy where men are driven lower than the degradation of slaves and compelled to sacrifice their wives or daughters to the villainous foremen and little bosses to be allowed to work. I was allowed to enter the plant at my will a few years ago, but I saw too much of the malicious crime perpetrated daily, and the gates closed on me. It is too horrible to discuss."

This statement was made by Rev. Father A. F. Toner, pastor of St. Mary's Roman Catholic church, McKees Rocks, when asked what he knew of the treatment the employees of the Pressed Steel Car company received.

Daniel Kissam Young of Philadelphia, writing to the New York Call on the McKees Rocks strike, said:

"Our Pittsburgh salesman told me that at the works of the Pressed Steel Car company at McKees Rocks, near Pittsburgh, the bosses and foremen threatened the Polish, Bohemian and Slavish workers with discharge unless the wives and daughters of the workers were given to them for prostitution, and that starvation being stronger than morality among the poor wretches, these demands were frequently acceded to. It appeared to be much earlier for the worker with a comely wife or daughter to obtain work at the mills than for others. This salesman is not at all a socialist, but is a very good representative of the employe who upholds capitalism and all its hideous phases, and therefore I have no reason to doubt his word."

### WONDERS NEVER CEASE.

One Federal Judge Actually Denies a Labor Injunction.

Judge Baker, of the federal court in Indiana, denied an application on the 26th of the American Sheet and Tin Plate company of Elwood, Indiana, for an injunction restraining its striking employes from picketing the plant of the company. The company complained that some of its employes had been attacked by strikers and intimidated; that the wives of some of the men who had remained at work had been threatened and hints made that homes would be dynamited; and, that but for the picketing of the strikers, many employes would return to work, but under present conditions were afraid to do so. But Judge Baker denied the injunction because, as he said, the affidavits of the company did not make any specific allegations against any of the defendants, and did not show that the defendants had attempted to interfere with the freedom of the company in the labor market. He held that the strikers had a legal right to organize and leave their employer in a body, and that they did not interfere with the employer's access to the labor market. Elwood city authorities testified that the strike had been orderly.

### DISGRACED THEIR SEX.

Office Girls Degrade Themselves by Becoming Strikebreakers.

Press dispatches tell of five female stenographers taking the place of miners who struck at the Plymouth Gypsum company's mines at Fort Dodge, Iowa, when their demand for a wage increase was refused. Grace Jackson, one of the stenographers employed in the offices of the company, suggested to four others that they desert their typewriters and descend into the mine and drive mules. The other girls fell in with the suggestion, and they induced some of the men from the company's mills to act as cagers and track men. No doubt

there are some who will look upon the strike-breaking stenographers as heroines deserving of respect and praise. But the fact is, they were guilty of an act of disgrace not only to their sex, but to humanity.—Detroit Union Advocate.

### LABOR LEADERS IN ENGLAND.

B. A. Larger, general secretary of the United Garment Workers of America, and John P. Frey, editor of the Iron Moulders' Journal, are in England, where they went last week as fraternal delegates from the American Federation of Labor to the British Trades Union Congress.

# Get a Gas Range

It will make the kitchen comfortable; it will save hours and health, and make home happy. Cheaper than coal—and so clean, convenient and comfortable.
