# Fought to Retain Formula Which Has Made a Fortune

L. T. Cooper, the man who believes that 90 per cent. of all ill health of this generation is caused by stomach trouble, is fast winning a national faith in his theory. His claim is now admitted by a surprising number of people throughout the country, and he is gaining new adherents every day.

While speaking of his success in a recent interview, Mr. Cooper said: "I believed ten years ago that any one who could produce a formula that would thoroughly regulate the stomech would have a fortune. When I got hold of this formula I knew within six months that I was right, and that my fortune was made. I called the medteine Cooper's New Discovery, although I did not get up the formula. I have owned it, however, for over ave years. I have had one lawsuit over it, which I won in the courts. When it was settled The Cooper Medicine Company became the only firm in the world that can prepare the medicine. The preparation has sold like wildfire wherever introduced.

As I have said before, it is successful simply because it puts the stomach in perfect shape, then nature does the rest. There are any number of complaints never before associated with stomach trouble that the medicine has alleviated in thousands of

Among statements obtained recentty from users of this medicine that is arousing such universal discussion is one from Mrs. Emma Stanley, living in most complicated case that Mr. Cooper years with my stomach. I consulted with doctors and took many patent medicine preparations without result. My stomach was in such a wretched shape that I could not enjoy a meal

"I was very nervous, and could hardly sleep. I had a roaring in my ears and dancing spots before my eyes. I telt very bad and weak. Then there was a very sore spot at the pit of my stomach that nearly set me wild.

"I heard about the Cooper medicine and decided to try it. I used four bottles, and the improvement in my case has been really wonderful. My nerves have been quieted, and I am so much improved that I feel like a new woman.

"I cannot say too much for these wonderful remedies, for they have made me well."

Particular interest attaches to the personality of Mr. Miller, not alone because of his accession to the seat of power over a great railway system, but also through his close relations with J. J. Hill, the "wizard of the railroad world." For the last seven years,

railroad.

Three years later he became a clerk in the general freight offices of the St. Louis, Iron Mountain & Southern railway. In 1881 he was made chief clerk to the general manager.

When two years more had passed he held the position of general freight and ticket agent of the road. While climbing the ladder of promotion he had married Miss Sue C. Brown at Morris, Ill., in 1882.

The Memphis & Little Rock railroad next claimed his services as general freight and passenger agent, which occupied his attention from 1887 to 1889, when he was made traffic manager.

Then came a succession of short stays with one road or another as traffic manager until he went with the Missouri, Kansas & Texas in 1896 as traffic manager and later was elected vice-president of the road. In 1898 Mr. Miller became second vice-president of the Great Northern railway and in 1903 became vice-president of the Chicago, Burlington & Quincy railroad, with special supervision over traffic.

## COINCIDENCE IN BIG FLOOD

Will Float Although Submerged."

Paris.-Although it will be many days before the city will be back to its normal condition after the ravages of the recent flood, great improvements have been made and in many places it is difficult to tell that the gay capital of France was so recently threatened with destruction

Years and years ago the authorities of Paris adopted the civic arms herewith produced. It shows a curious

coincidence with the conditions that prevailed during the flood.

Under a field of the lilies of France an ancient galley is shown, while the motto at the bottom, "Fluctuat nec Mergitur," may be freely translated, "It will float although submerged." The city having withstood the torrential rush of the waters it is pointed out by some Parisians that the motto is a lucky omen for the capital which did not fleat away when hundreds of square miles of its territory were submerged.

Only Chance. "Do you believe," queried the fair widow, "that universal peace will ever

be established?" "Not unless people quit getting married!" growled the old bachelor.
