## Working Men Should Support Their Own Paper

# Underwood Standard Typewriter

## A LEADER

The principle of construction in the **Underwood** was found first in the **Underwood**, and every typewriter seeking business in the same field with the **Underwood** which has been put on the market since the advent of the **Underwood**, has been an imitation of, and in general appearance like, the **Underwood**.

The last "Blind" advocates of importance have now fallen into line, and there is not today a single "blind-writing" typewriter actively on the market. Recall all the arguments you have heard in past years by **Underwood** opposition, and you will realize what an advance agent of progress the **Underwood** has been; then bear in mind that the **Underwood** was the first fully "visible," has had that to develop and improve, and is today the most perfect typewriter made.

"The Machine You will Eventually Buy"

### GENERAL MENTION.

Brief Bits of Labor News Deftly Picked and Pilfered.

Building trades in Germany are inclined to strike.

Coal miners and operators have reached an agreement in Illinois.

The Philadelphia street car strike has been settled on a compromise basis.

Army officers in Cuba have been drawing full salary from both treasuries.

The primary election law of Wisconsin is upheld by the supreme court of that state.

British naval bands have been notified to demand the regular union rates hereafter.

Attracted by deceptive advertisements, many men are idle at Bellingham, Washington.

On the roads in Western Canada, over 15,000 section men are demanding a better scale.

The bill to protect coal miners has been placed in "cold storage" in the United States senate.

Building laborers in Spokane have organized and affiliated with the Central Labor Council.

Live property is to be increased in assessed values twenty-five per cent in New York City.

The threatened strike of the street car men at Columbus, Ohio, has been averted by arbitration.

Barber shops in Oakland, California are maintaining the Sunday closing rule very successfully.

Contractors in Spokane must hereafter hire men through the free employment bureau for all city work.

The first estimate of the spring gold clean-up in the neighborhood of Fairbanks, Alaska, is \$9,000,000.

The woman's nine-hour law has been knocked out in Michigan. Courts want "freedom" for women to slave.

The members of the Farmers' Union now exceed three million. They are very friendly with the A. F. of L.

Lumber piers in Melbourne, Australia, have been awarded by arbitration an advance from 25 to 27 cents an hour.

The New York, New Haven and Hartford repair shops have reduced work to 46 hours a week and no Saturday work.

Farmers near Spokane are considering the proposal to put the union label on all products shipped to the local markets.

The Steel Trust is said to be contemplating an increase in wages that will give nine millions a year more to its employers.

Oakland, California, Chamber of Commerce recently placed an ad with the Saturday Evening Post for \$6,000 in spite of the protests of the Allied

Printing Trades and organized labor. The returns from that investment in rat printing did not amount to sixty cents. The next advertisement scheme of the Chamber of Commerce invested in had the union label, and the returns were very satisfactory.

The Philadelphia street car combine is nearly broke, and must issue bonds. The strike wiped out its surplus funds.

Spanish Liberals and Radicals are likely to follow England in levying a tax on land values exclusive of improvements.

Bakery Salesmen have been successfully organized in Oakland and surrounding towns throughout Alameda County, California.

By recent enactment women in Germany are forbidden to work in factories at night, also their hours shall not exceed ten.

The province of Quebec will prohibit the exportation of wood pulp cut on the Crown lands of the province to the United States.

Hogs have all the diseases that man is heir to; and some men claim that man is half hog at his best, and all hog at his worst.

It is said that eight more battleships would have prevented the Spanish war. The reply is that eight less would have also prevented it.

At Honolulu 800 Russian laborers have been turned loose destitute after being inveigled to come there to work on sugar plantations.

In Maine the organizers of paper and pulp workers have been refused halls and compelled to hold meetings on leased vacant lots.

Vast concourses of people in Berlin have been perfectly peaceable, but the demands for extension of franchise rights very determined.

The United Brotherhood of Carpenters will celebrate its twenty-ninth anniversary in August. Local celebrations will be held everywhere.

With 59 avowed Socialists in the Spanish parliament, it would seem as if there should be something doing in that wornout old country.

Conductors and brakemen on the lines of the Pacific Lumber Company at Eureka, California, have demanded better pay and treatment.

The ex-secretary of the Federal Labor Union of Spokane, Ed Lane, is said to be wanted for absconding with \$200 of the union's money.

An employment agent for the Philadelphia street car combine recently received sixty days on the rockpile at Rochester, N. Y. He carried a gun.

At Butte, Montana, the miners have joined the A. F. of L. The strife between the Western Federation of Miners and the A. F. of L. is at an end.

Jewish strikes against the meat shops in New York have put a number of them out of business. The high prices are bitterly resented and the local dealers blamed.

In Milwaukee the Allied Printing Trades Council has been awarded the right to have its label returned from an unfair firm that used it after it was demanded.

Three cent street railway fares on the Cleveland traction system have not only proved a paying venture, but promise to give a handsome surplus to the railway company.

In Oakland the newspaper printers are endeavoring to secure a new scale increasing rate about seven and a half per cent. Over half the men employed now receive it.

In Germany the Christian Trades Unions were established to offset the Socialist Trades Unions. Now the two have joined a demand for better conditions in the building trades.

Cincinnati's city council has re-

pealed the ordinance passed a year ago whereby "more daylight" was to be secured by setting local clocks two hours fast from May to October of each year.

The Gripenuts fake has had to pay out many thousands of dollars to notify people that it used no peanut shells in its trash food products. This excessive denying looks itself suspicious.

The Sugar Trust violated some Federal injunctions. Other Federal judges, upon being appealed to, said the injunctions were too strong. They were thereupon swept into the has-been bin.

The railroads have brought pressure to bear on the different commercial bodies on the Coast to ask for no railroad regulation laws from Congress. Like slaves, the business men of Seattle fall in line.

The directors of the Tronoto, Canada, Labor Temple Company have decided that the only tenants that may rent rooms in their building in the future will be those affiliated with international organizations.

In Montgomery, Alabama, \$30,000 was raised to equip a hospital for women in China last January. In March a woman died on the streets because for a month there was no place for her to go to secure medical attention.

Dr. Lepage, the eminent surgeon, has sent in his bill for \$20,000, his fee for the operation performed on King Leopold a few days before the king's death. It should be worth that much to have gotten rid of the old reprobate.

In response to the demand for liability of the employer for the injured and killed workmen, the National Civic Federation calmly proposes to collect, per force, a sufficient sum (and then some, no doubt, from the workers to do it.

The recent killing of a boy on the wharf of San Francisco who was alleged to be an escaping military prisoner is reported by the S. F. Star to be a deliberate and wanton murder. Being a military affair it will probably be glossed over.

Oklahoma "open" shop contractors will learn with horror that all bids must contain an agreement to employ only union men, eight hours a day, and at union pay. Why not have something like that in Oregon?

Recently an "open" shop establishment in Las Angeles has been discharging its union men and urging them to withdraw from the union to be reinstated in their position. An "open" shop is a closed shop to union men as fast and as far as its owners dare make it so.

Senator Chamberlain is making good in Washington. He is on the right side and the progressive side every time. He is not given much space in the plunderbund organ's dispatches, but he is there with the goods when the opportunity offers. He is not a plutocratic Democrat.

The United Italian Trades, with a membership of over 65,000, is to be affiliated with the A. F. of L. It is hoped to include in its ranks all of the Italian mechanics and laborers and to secure better conditions for them, as well as to prevent competition between them and organized labor.

Spokane is to seek to revise its charter shortly with a view to establishing a commission form of government. That term covers a multitude of sins. If it includes direct legislation by the people, it is somewhat better than the ordinary kind; but if it has the preferential vote it is better. With these and proportional representation it is best.
