

Wage earners of a city are a purchasing power. When directed toward home patronage this power in its benefit is multiplied. A preference for the community in which you labor has a general result in which merchant and wage earner each profit.

FRANK S. PERDUE.

Deputy Superintendent Frank S. Perdue has filed with the Secretary of State his application to have his name placed upon the primary ballot as candidate for the republican nomination for the position of state superintendent of public instruction.

Superintendent Perdue has been deputy in the superintendent's office since January 1, 1909. At the time of his appointment to the deputyship, he was county superintendent of Madison county, resigning that position to take up the work with Superintendent Bishop. He has been identified with the school work of Madison county since 1895, having been city superintendent at Tilden and Madison before his election to the county superintendency.

He has had twenty year's experience in the schools of Nebraska, as county school teacher, grade teacher, high school principal, city superintendent, county superintendent, institute instructor, normal school teacher, member state board of examiners for life certificates and deputy superintendent of public instruction. His training includes high, school, normal school, and college work. His work has taken him into

every part of the state. His knowledge of the school problems through his varied experience qualifies him for the position of state superintendent.

Mr. Perdue's experience on the committee for life professional certificates, of which he has been a member for the last three years, has convinced him that the normal courses, both in the state schools and in the private and denominational schools, should be as definite in the quantity of work required as in the standard college course. There should, however be the same flexibility of choice as to subject matter as exists in the standard college courses. This result should be brought about gradually, so as not to inconvenience seriously the students who have already enrolled in the various normal schools and normal departments of colleges. The course should be formulated by a united conference of the state superintendent, the committee for life professional certificates, and representatives of each of the schools offering the normal courses. Entrance requirements should be clearly defined, and equivalents so far as possible worked out, by this conference.

FOR SECRETARY OF STATE.

Addison Wait, the present able deputy is a candidate for the republican nomination for secretary of state. Mr. Wait has held the position of deputy for four years and is therefore thoroughly posted in the affairs of the office to which he aspires. He is always courteous and accommodating and this has made him friends without number, not only as an official but as a citizen of the state as well. Mr. Wait has resided in the state since 1870, locating in Syracuse, Otoe county. He has all the qualifications that go to make up an able official and at the present time indications are that he will be successful. Mr. Wait is the author and promoter of the Lincoln monument fund, is a veteran of the civil war and is a man who is fully deserving of the position which he seeks. At the present time he has no opposition and the indications are that he will win the nomination at the coming primary. As a citizen he stands high in the estimation of all and is widely and favorably known throughout the state.

EDWARD B. COWLES.

Hon. Edward B. Cowles, who has been commissioner of public lands and buildings for the past four years, has announced his candidacy for reelection subject to the office he has filled with credit to himself and the state. Mr. Cowles during his term of office has had many questions of moment to handle and he has shown in every instance that he was fully able to cope with them. His friends are many and they are certain that he will succeed himself. This being his first term he feels justified in asking the voters at the coming primaries for their support. Mr. Cowles is well and favorably known in this city and throughout the state and has many staunch friends. He is a resident of Fremont.

FOR COUNTY COMMISSIONER.

John R. Bennett, present republican county commissioner, is a candidate for second term to this office. He has been careful and attentive to the duties of the office, and it is asserted by good men in a position to know that he has been the direct means of saving money to the tax payers of the county. Particularly is this true as regards county printing, where there had been no little extortion and leakage under former administrations. He is also conspicuously clear of jobbery or crooked deals and has been a most faithful public servant.

Mr. Bennett has been a resident of Lincoln for many years and is highly respected. Up to date he has little or no opposition for a second term.

GRANT G. MARTIN.

Hon. Grant G. Martin, who has been Deputy Attorney General of Nebraska for the past four years, under Attorney General Thompson, has announced his candidacy for the office of Attorney General, subject to the action of the voters at the republican primaries. During his term as deputy Mr. Martin has become thoroughly familiar with the work of the office, and has had a leading part in the important litigation between the state and the corporations, principally the railroads in the freight and passenger rate cases. He has been an invaluable assistant to Attorney General Thompson, and has proved himself amply qualified to succeed that popular official. Mr. Martin has been a mem-

HAVE "THE EVANS" DO YOUR WASHING.

Think of the development of the laundry business in Lincoln since 1890. At that time The Evans had 8,000 square feet of floor space; in 1900, 12,000 square feet of floor space; 1910 over 17,000 square feet of floor space is needed to take care of the work in the plant.

Please note the nifty, exclusive finish to their shirts. Note that their shirts are ironed to fit. "The Evans Way."

The Evans Laundry will be pleased to have you visit the following departments:

Collar Department, to see the careful starching, drying, dampening, ironing and folding. All your high turnover collars have the full, round fold, superior even to new work.

Hand Shirt Ironing Department, where the work is in charge of one of the best artists in the west, and they guarantee you nothing finer in

the world is done than in this department.

They charge a little more for this work, but beg to remind you that shirts are both starched and ironed entirely by hand—absolutely hand work throughout.

Their machine work on shirts is done by the very best process known to the laundry world.

The Evans Laundry is pleased to inform its customers that it has recently installed a Conkling Water Softening Plant and all washing is now done with absolutely pure soft water. This means for your laundry work absolutely sanitary treatment. It also means entire absence of all strong salts and soap curds. Your linen will wear much longer, it will be much whiter and softer. Notice the brightness of your colored goods. All perspiration stains on cuffs now a thing of the past.

The Evans will be much pleased to demonstrate the merits of this soft water process, if you will visit their plant, 327 North Twelfth street. Also they especially invite you to see all the other departments in operation. They take your entire family washing, exclusive of shirts, collars and cuffs, shirt waists and lace curtains, wash, starch and dry all pieces needing starch, and all flat goods ironed. This all done at six cents a pound. This is a little higher price than most laundries charge, but the quality is remembered long after the price is forgotten.
