

ONE-NINETEEN TO NOTHING

That's the Uni. of Nebraska score against Haskell. That's about our score in the Good Clothes Game. We make the long end runs and make the touch downs of meritorious goods. We kech the goal of right prices. We buck the center and crumple up the opposition of high prices. We make steady gains by giving our customers the proper signals for securing bargains.

Suits \$10 to \$40

Overcoats \$10 to \$40

The time to buy is right now and we were never so well prepared to render you a distinct service by giving you style, color, fit, durability and fabric as now. We aim to make "repeating customers"---the customers who are so pleased with our bargains that they return time and again for more of the same kind.
