

### Sønderjylland.

**En Anholdelse.** I Anledning af Købmand Baldbjørns Jordfæstelse i Haderslev var hans i Randers bosatte Søn med sin Hustru kommen til Haderslev, men uheldigvis uden i Forvejen at have indhentet Tilladelse. Dagen efter kom Politiet da hen til Enkefru Baldbjørns og purgerte om Sønnen. Han var ikke nærværende. Saa gik Politiet hen paa den Højstuegaard, hvor den unge Baldbjørn og hans Hustru boede under deres Ophold. Baldbjørn var ikke heller der. Han var imidlertid kommen hjem til Moderen og sit Underretning om, hvad der var i Gære imod ham. Det blev saa besluttet at rejse med næste Tog, Attentog Nord paa. Men Politiet var paa sin Post. Et Par Ventjener var tilstede paa Banegaarden ved Togsens Afgang. Den ene af dem kendte Baldbjørn og anholdt ham, skønt en tilstedeværende forestillede ham, at han jo kunde se, at den unge Mand var i Færd med at rejse, og det syntes temmelig maaltidig at anholde ham. Men det hjalp ikke; Baldbjørn blev ført i Arresten paa Raadhuset. Rigstinget gjordes der fra forfærdelig Sider Forsøg paa at faa ham ud; men det var forgæves. Baldbjørn maatte tilbringe Natten i Arresten, medens hans Hustru der er aldeles ufødselig med den Slags Forhold, var ganske forfærdet over en saadan Behandling.

**Hvad saa?** Berliner Tageblatt meddeler følgende karakteristiske Udslag af Udvisningspolitiken: Den danske Underfaat, Kornhandler N. Duxen, der for en Tid siden blev udstødt fra Haderslev, har i Kristiansfeld ved Haderslev en Svigerføn, Købmand Schröder. For nylig forespurgte Hr. Duxen, der endnu har Forretning i Haderslev, hos Landsraaden, om han kunde faa Tilladelse til at opholde sig tre Dage i Haderslev for at ordne nogle Forretningsangegender. Hertil blev der svaret, at det var der ikke noget i Vejen for, hvis hans Svigerføn, Købmand Schröder, var villig til at medde sig ud af den danske Forening „Frej.“ Svigerfønnen medte sig ud, og i Begyndelsen af forrige Uge var saa Duxen i Haderslev. Men hvis nu Købmand Schröder igen melder sig ind i den danske Forening, hvad saa? spørger Berl. Tagebl.

**Et Monument.** „Kieler Zeit.“ meddeler, at den danske Regering for nogen Tid siden hos et Firma i Kiel har bestilt et Monument over de den 5te April 1849 ved Ederne faldne danske Soldater. Mindesmærket, der nu er færdigt, og som skal afsløres paa 50-Aarsdagen for Slaget ved Ederne, er en paa en Sokkel staaende Søjle af rødt svenskt Granit, 2½ Meter høj og ½ Meter i Diameter. Paa Mindesmærket staar med latinske Bogstaver følgende Indskrift: „Denne Sten satte det danske Folk over trosfaste Sønnen, som hengav Livet for Fædrelandet den 5te April 1849.“

**En Henvendelse med Spørgsmaal til Kristne Politifere.** (Af Peter Tørtelsen.) Arbejder-Spørgsmaalet er en Sag, som i vor Tid trænger sig frem til Drøftelse. Det gør den nemlig ved Strejker, og ofte i de strenge Vintermaanedes, da mange fattige, særlig i de flove Byer, nogle vel nok selvforskyldt, andre uden Skyld, savner det nødvendige til Livets Ophold. Paa Spørgsmaalet: hvad skal vi gøre for at faa bedre Løn og Kaar? har jeg ofte henvendt til den Vej, vor Herre har anvist os, hvor det hedder: Søge for Gud og hans Retfærdighed! Hertil svares: nej, den Vej vil de fleste Menneker, hørtene rige eller fattige, ikke gaa. Jeg mener, vilde endda blot de fattige begynde for Alvor, saa vilde vi ved Guds Hjælp og Størelse snart spore en stor Forandring til det bedre. Den eneste Maade, hvorpaa Mennekelivet kan blive rigtig lykkeligt er, naar det gennemgøres af Retfærdighed, som er den fuldstændige Kærlighed. Al Slags Nød vilde da snart blive afhjulpet og aflaget, fordi Menneket begynde med at handle efter Guds Villie. Ved de her fremsatte Spørgsmaal tænker jeg mig kun en Mulighed til at forbedre saadanne Kaar, som vil leve et ordentligt Mennekeliv; der er andre som ikke vil, dem maa jeg lade ude af Betragtning.

Til at begynde med vil jeg fremsætte et ofte brugt Led i socialt Arbejder-Program, hvor det hedder: Arbejdet fulde Udbytte er den naturlige Arbejdsløn. Hvad om vi vil en saadan Løn gennemført ved Valguren, at Arbej-

ren foruden sin Løn nemlig den han er lejet for, skulde ved Aarets eller Arbejdet Slutning være berettiget til den Del af Udbyttet, der ved et retfærdigt Skifte kan tilfalde ham, dog saaledes at forfaa: Mesteren sin Del som Mester i Forhold til hans Stilling og Værd, Svenden sin Del som Svend, og Drengen som Dreng. Den rige skal ikke miste sin Rigdom, ej heller svares Magten til at forsøge den, men kun forhindres i at forsøge den ved Arbejdernes Møje uden at yde denne tilstrækkelig til Livets Ophold i Veberlag. At dette Tilfald, som Arbejderen saaledes kunde faa ved Skiftet, ikke altid kunde blive ret meget til enhver ad Gangen, er nok muligt; men der er ogsaa andre Sider ved denne Sag. Naar Arbejderen har Del i Udbyttet saa tænker jeg Strejkerne falder bort og derved bliver mange Ulygter afværget. Dertil tænker jeg, at ved en saadan Løn vil al utidig og urimelig Redfættelse af Løn forhindres. Det bliver Arbejdsgiveren lidt mere vanskeligt at sætte sine Arbejdere Stolen for Døren naar som helst han ønsker Forandring til egen Fordel eller lign., da han jo alligevel skal afstaa Arbejdernes deres Del ved Skiftets Døgn. Dertil tænker jeg, at dette, at sla og sparke den Arbejder, som formeddelt Alder, Svaghed eller lign. ikke kan følge Trop, Slag og Spart er jo taaligere for de gamle end Ulfed og Sult, vil falde bort. Men vil en saadan Løn gennemført ikke blive til Hindrer for de store Kampes eller Million-Industriens Drift? Den burde ikke være det, da Arbejdernes Penge, som han faar ved Udbyttets Skifte, kan jo tjene ligesaa godt i Driften som Rigmandens Penge, dersom Arbejderen kan undvære dem; derved bliver han jo selv interesseret i Driften.

Om en saadan Ordning kan blive mange til Velsignelse, ved jeg ikke, jeg spørger kun om andres Mening. Min Hønsigt med disse Linier er et Forsøg paa at finde en loelig Vej til at forbedre de Mennekers Kaar, som vil leve et ordentligt Liv, men ikke kan fordi de fravristes Arbejdet Værd, og det ser paa mange Maader. For ikke at optage mere Blads i Bladet end efter mit Lykke maa, skal jeg blot fremstille en Maade fra det virkelige Liv. En Mand morder paa sin Arbejdsplass færdig til Arbejde kl. 6½, der skal arbejdes og han begynder. Kl. 9½ bliver han aflagt og indskrævet for 2 Timers Arbejde. Han vender saa til hen paa Eftermiddagen, om ikke det muligt skulde blive lidt mere, jo, kl. 2½ begynder der igen og holdes op kl. hende 5 og han faar atter en Time. 15 Cents i Timen, Lønnen er upaaklagelig. Naar han faar udbetalt sin Ugeløn, er den omtrent 3 a 4 Dollars, men Selskabet fradrager \$1.50, som den tilbageholder i Tilfælde af en Strejke, og Manden kommer hjem til sin Familie med Resten. Saaledes gaar han Ar efter Ar uden Udsligt til bedre Kaar, og han skal enten arbejde ualmindelig haardt, eller ogsaa drive og intet fortjene. Anderledes er det, naar en Mand kan have Arbejde den meste Tid af Aaret til \$1.00 eller \$1.50 daglig, saa har han ingen Karig til Klage og kan under almindelige jævne Forholde leve et lykkeligt Liv, men denne Lykke i vor Tid findes kun de færre.

Og nu, kære Medkrifne, hvad tænker I om en saadan Løn gennemført ved Valguren? Jeg har en Slags Anelse om, at faar vi ikke en Forandring til det bedre med Arbejdernes Kaar, er det at beyrigte, at vore Børn vil opleve onde Dage. Det begynder at gære og ulme i Masjerne. Hæven over Rigmandsvædet, Hæven over Præsten og Guds Menighed; men han, som har al Magt i Himlen og paa Jorden, skal nok forfaa at vogte sin Hjerd, men vi maa ikke forglemme, at vi som kristne har et dobbelt Kald og Mission: Mennekesfægtens Frigørelse fra Trældom til Synden, og tillige at forbedre den ved Svendens Magt ødelagte menneskelige Ordning, det Arbejde, man i daglig Tale falder Politit.

Det vilde sikkert være gaunlig om en saadan Ordning kunde gennemføres og vore Lovgiverne vilde sikkert gaae Landt med mere ved Gennemførelsen af lignende Lovene end de nu gøre ved at forhindre og vedtage en hel Del Lov, som ofte ere mere til Fortræd end til Gavn for Folket.

**Gammel Kærlighed.** Gammel Kærlighed rufter jo efter sigende ikke, og i Tilfælde til, at det gamle Ord virkelig taler sandt, begynder man allerede saa maalt at drøfte

Spørgsmaalet om, hvorvidt Fyrst Ferdinand af Bulgarien, der nys er blevet Entemænd, atter vil gifte sig, og om det da bliver med hans gamle Kærlighed, hans Kusine, Prinsesse Clementine af Belgien, Søsteren til den østerrigste Enkeltronprinsesse og den i den senere Tid saa omstridte Prinsesse Louise af Koburg. Prinsesse Clementine har en temmelig trist Historie. Hendes Forældre leve som bekendt alt andet end godt sammen, og den Omstændighed, at hun har været Kong Leopolds Yndlingsdatter, har stadigt bevirket, at Moderen har været mere end Kælig overfor hende. For at undgaa Moderen har hun i de senere Aar stadig ledt sig paa den ene eller den anden Rejse, og for Tiden bor hun sammen med ham i den Villa ved Ribdelhavet, medens Dronningen, der harer Syden, opholder sig i Brüssel.

Det var en Gang en afgjort Ting, at hun skulde have været Fyrst Ferdinands Gemalinde. Kong Leopold og Prins Ferdinand's Moder vare enige om Giftermaalet, og Prinsessen havde begivet sig til Brüssel for formelt at anholde om sin Bruds Haand. De unge vare overordentlig lykkelige ved hinanden, og Declarationen skulde just finde Sted; da Prinsessen en Aften pr. Telegram blev kaldet til Spa, hvor hans vordende Svigermoder opholdt sig.

Hvad der er foregaaet i Spa, ved man ikke. Men Resultatet blev da, at Prinsessen ikke efter Løfte vendte tilbage til Brüssel, men at han i Stedet for sendte et Brev, hvori han gav Afstald paa sin Bruds Haand. Fyrst Ferdinand blev nogen Tid efter forlovet med Prinsesse Louise af Borna. Prinsesse Clementine derimod blev alvorslig syg, og hun har siden saagobt som aldrig været sammen med Moderen. Den en Gang livlige og livsglade Prinsesse blev en stille og indadvendt Natur, og indviede Kærlighed vidste, at der var ulykkelig Kærlighed i Spillet. Men nu skal der atter være kommen lidt Liv over hende. Hun nærer maatte endnu haab til den gamle Kærlighed, der aldrig rufter!

**Gammel Bispe.** Verdens ældste Bispe er vistnok den græsk-katolske Patriark Sofranis i Alexandria. Han fejrede nylig sin 100aarige Fødselsdag, ved hvilken Anledning han selv prædikede og det med ungdommelig Kraft og Varme, og høres tunde i den store Domkirke næsten

lige saa godt, som da han for 60 Aar siden for første Gang forretdede i samme Kirke som Bispe. Blant Fødselsdagsgratulationerne var det russiske Keiserpar, Kongerne af Grækenland, Serbien og Rumænien, Fyrsterne af Bulgarien og Montenegro samt Sultanen. Fra Rusland modtog Jubelanten 100,000 Rubler, hvorefter Keiserhuset gaabte bidraget den største Del.

**Frygtelige Skibbrud.** De Storme, der har raaset i de 5 sidste Maaned, har forarsaget frygtelige Skibbrud og Tab af mange Mennekeliv paa Havet og de store Indsøer. Men ikke alene de mægtige Bønde har sine Farer, der forekommer Skibbrud ogsaa paa Land, ligesaa forlige og mere hyppige. Hr. Carl L. Reichel, Frankfurt, Mich, beretter følgende: „Jeg var bogstavelig talt et Brag som Følge af Dyppepsia, som jeg havde lidt af i femten Aar. Jeg kan sige, at jeg ikke var istand til at spise, da jeg maatte kaste alt op igen, som jeg havde trunget ned. Mange Læger forsøgte at helbrede mig, men til ingen Nytte. Jo: to Aar siden hørte jeg om Dr. Peters Kuriko og bestemte mig for at probere den. Jeg var da saa medtaget, at jeg ikke vejede mere end 115 Pund. Jeg begyndte at bruge Medicinen. Da jeg havde taget tre smaa Glas, syntes jeg at blive bedre. Jeg brugte alt i alt et Dussin Provetabletter, og i Dag er mit Helbred ypperligt bedre end den har været i tyve Aar. Jeg kan spise, hvad der sættes foran mig — og spise med Velbehag. Ord kan kun sjogt udtrykke min Taknemmelighed mod Dem; det skal være mig en Fornøjelse at anbefale Dr. Peters Kuriko til alle, som lider af Dyppepsia. Jeg vejer nu 150 Pund.“

Kuriko, ulig de fleste Mediciner, kan ikke erholdes paa Apotheker, men af Lokalagenter eller direkte fra Fabrikanten, Dr. Peter Hofmeyr, 112-114 So. Hoyn Ave., Chicago, Ill.

**Prob Grain-o! Prob Grain-o!** Ved ebers Grøremynd om i Dag at vise eder en Palle Grain-o, den ny Drif, som bruges i Stedet for Kaffe. Pærn kan lige laavel som voldsme driffe den uden skadelige følger, og alle, som prøver den, liden den. Grain-o har samme brune Kulst som Waffa eller Java, men er lavet af Sød, og den vil give en meget sød Kaffe, 15 og 25 Ck. pr. Palle. Faas hos alle Kolonialhandlere.

**Hog som Batteriedraber.** En italiensk Videnskabsmand, Dr. Palozzi, har nylig anstillet endel Forsøg med Hog som Desinfektionsmiddel. Han undersøgte de Røgens Ene til at rene Luften i et lukket Værelse, for Smitstoffer. Det Værelse, han benyttede, laa i første Etage, havde to Vinduer og en Dør samt 50 Kubikmeters Volum. Til at frembringe Røgen anvendte han Særlig af forfærdelig Slags i en Mængde af 2½ Kilogram til hvert Forsøg. Som Forsøgsmateriale brugte han Olierstift, Miltbrand, Tuberkel og andre Batterier i Reiniturer eller faadan, som de forekommer i Naturen i Eggdomsprodukter. Batterierne var anbragte paa endel Tøjer eller fordelte paa Møblerne og i Værelsets Luft.

Det viste sig, at Røgen udvæde en ødelæggende Virkning paa alle sygdomsfrembringende Spirer, som var fordelte i Luften, sættede til Vægge og Tøjer eller liggende i Sprækker. Der medgik forfærdelig Tid til at dræbe de forskellige Batterier, hvilket er Tilfældet ogsaa med alle andre Desinfektionsmidler; de Batterier, som hang løst paa Overfladen af Vægge og Møbler, dræbtes hurtigere end de, som befandt sig dybt nede i Sprækker.

Palozzi tror at kunne fastslaa som Resultat af sine Forsøg, at til Desinfektion af Luften overgaar Hog i Virkning alle hidtil anvendte gasformige Midler; den kan suldt ud fylles ved Siden af Formaldehyd, som i den sidste Tid har vundet megen Udbrædelse netop som Desinfektionsmiddel for Luften, og har den fordel fremfor dette, at den let kan fremstilles og er meget billig.

Vetingselserne for, at Midlet skal gøre Virkning er følgende: Røgen maa indvirkende mindst 36 Timer med paafølgende fornyet 12 Timers Røgning; Værelset maa være lufttæt, og Sagstifelsen maa have en vis Fugtighedsgrad, hvorefter der optaas en hvid Røg, som ikke spærter Vægge og Møbler.

Palozzi anbefaler Metoden til Desinfektion af Fernbanevogne, Stalde o.s.v.

**Gammel Bispe.** Verdens ældste Bispe er vistnok den græsk-katolske Patriark Sofranis i Alexandria. Han fejrede nylig sin 100aarige Fødselsdag, ved hvilken Anledning han selv prædikede og det med ungdommelig Kraft og Varme, og høres tunde i den store Domkirke næsten

lige saa godt, som da han for 60 Aar siden for første Gang forretdede i samme Kirke som Bispe. Blant Fødselsdagsgratulationerne var det russiske Keiserpar, Kongerne af Grækenland, Serbien og Rumænien, Fyrsterne af Bulgarien og Montenegro samt Sultanen. Fra Rusland modtog Jubelanten 100,000 Rubler, hvorefter Keiserhuset gaabte bidraget den største Del.

**Frygtelige Skibbrud.** De Storme, der har raaset i de 5 sidste Maaned, har forarsaget frygtelige Skibbrud og Tab af mange Mennekeliv paa Havet og de store Indsøer. Men ikke alene de mægtige Bønde har sine Farer, der forekommer Skibbrud ogsaa paa Land, ligesaa forlige og mere hyppige. Hr. Carl L. Reichel, Frankfurt, Mich, beretter følgende: „Jeg var bogstavelig talt et Brag som Følge af Dyppepsia, som jeg havde lidt af i femten Aar. Jeg kan sige, at jeg ikke var istand til at spise, da jeg maatte kaste alt op igen, som jeg havde trunget ned. Mange Læger forsøgte at helbrede mig, men til ingen Nytte. Jo: to Aar siden hørte jeg om Dr. Peters Kuriko og bestemte mig for at probere den. Jeg var da saa medtaget, at jeg ikke vejede mere end 115 Pund. Jeg begyndte at bruge Medicinen. Ord kan kun sjogt udtrykke min Taknemmelighed mod Dem; det skal være mig en Fornøjelse at anbefale Dr. Peters Kuriko til alle, som lider af Dyppepsia. Jeg vejer nu 150 Pund.“

Kuriko, ulig de fleste Mediciner, kan ikke erholdes paa Apotheker, men af Lokalagenter eller direkte fra Fabrikanten, Dr. Peter Hofmeyr, 112-114 So. Hoyn Ave., Chicago, Ill.

**Kredsmede.** Den vestlige Iowa Kreds af „den forenede danske Kirke“ afholder, om Gud vil, sit Foraarsmøde i Elkhorn, Iowa, fra Torsdagen den 16de til Søndagen den 19de Marts 1899. Mødet aabnes med Substjensette Foredrag Formiddag kl. 10. Forhandlingsemner: 1. Forelaet af Kredsens: „Naabet“ Eph. 1, 17-19) indledes af Pastor Fr. Anter. 2. Forelaet af Menigheden: „Fred med Gud,“ (Rom 5, 1-11) indledes af Pastor G. Grill. Præstensmøde Torsdag med Foredrag af Pastor A. M. Andersen over Emnet „Sjælepleje.“ Herre! send dit lys og din Sandhed (Salm. 43, 3.) U. Mathiasen, Kredsformand.

Den danske ev. lutheriske Menighed i Elk Horn indbyder hjerteligt Venner fra fjern og nær til Deltagelse i Kreds-mødet. Tilrejsende bedes om forud at meddele til hvilken Tid og hvilken Station, de vil komme, saa at de kan blive afhentede. Ved om Herrens Velsignelse til Mødet. Paa Menighedens Vegne, B. E. Hansen, Elk Horn, Iowa.

**For Dyspepsia, Forstoppelse, daarlig Mave, træg Lever, Opblæsning, osv., brug Dr. Peters Kuriko**

Den gamle, paalidelige Medicin. Ikke tilsalgs paa Apotheker. Specielle Agenter følger den.

Dr. Peter Fahrney, 112-114 So. Hoyn Ave., Chicago, Illinois.

**SEND NO MONEY** WITH YOUR ORDER, cut this out, and send to us, and we will send you our high-grade BURDICK SEWING MACHINE by freight, U. S. subject to examination. You can examine it at your nearest freight depot and if found perfectly satisfactory, exactly as represented, equal to machines others sell for \$40.00, we will return you \$15.00 any day if you are not satisfied. We sell different makes and grades Sewing Machines at \$5.00, \$10.00, \$15.00, \$20.00 and up all of which are fully described in our Free Sewing Machine Catalogue, but \$15.00 for this 7-DRAWER BURDICK is the greatest value ever offered by any house. THE BURDICK is a good point of every high-grade machine made with the defects of none. Made by the best maker in America. HOLIDAY CABINET, BEST COVER. Latest 1899 Skeleton frame, piano finish, finest nickel drawer pulls, rests on casters, ball bearing adjustable treadle, genuine Smith's iron stand, finest large blade arm head made, positive four-motion feed, self threading vibrating shuttle, automatic bobbin winder, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just how anyone can run it and do nothing but plain, simple, automatic bobbin winding, adjustable bearings, patent tension liberator, improved loose wheel, adjustable presser foot, improved shuttle carrier, patent needle bar, patented needle, and every modern improvement, every attachment is furnished and our Free Instruction Book tells just
