While going down the river Euphrates, he experienced a severe attack of Fever and Ague. On discovering his condition, one of the boatmen took from his person an Amulet, saying, "Wear this and no Fever will touch you."

On further investigation he found that the boatman attributed it to miraculous powers, and said it could only be obtained from the Priests of the Sun. Sometime afterwards, the gentleman in conversation with a Priest, obtained from him the secret of its preparation, and ascertained where the medical herbs were found, of which it was compounded.
