Get My Book, if Sick.

Don't Send a Penny.

Don't send a penny. Just wait till you see what I can do. Let me take the risk. Let me prove up first what Dr. Shoop's Restorative can do. The Restorative will gain your friendship, your endorsement, if you test it. And for a whole month you can use it without the slightest risk.

I will tell you of a druggist near you who will furnish six bottles of

Dr. Shoop's Restorative

A Month on Trial.

I will absolutely stand all the cost if it fails. If you say, "I did not help me," that ends it as far as cost to you is concerned. Do you understand me? I am telling it as plainly as clearly as I can. I want you to know absolutely and without doubt that this offer is made on honor. I have the prescription that cures. My only problem is to convince you that Dr. Shoop's Restorative will cure—in an uncommon remedy. A common remedy could not stand a test like this. It would bankrupt the physician making the offer. And I am succeeding everywhere and here is the secret of my success. I found invariably that where there was a weakness, the inside nerves were weak. Where there was a lack of vitality, the vital nerves lacked power. Where weak organs were found, I always found weak nerves. Not the nerves commonly thought of but the vital organs' nerves. The inside—the invisible nerves. This was a revelation. Then my real success began. Then I combined ingredients that would strengthen, that would vitalize, these nerves. That prescription is called a restorative. It is known the world over now as Dr. Shoop's Restorative. Thousands are accepting my offer and only one in each forty writes me that my remedy failed. Just think of it. 30 out of 40 get well and these are difficult cases, too. And the forties has nothing to pay. That is a record I am proud of. It is wrong to stay sick when a chance like this is open. If well, you should tell others who are sick, of my offer. Don't let a sick friend stay sick because he knows not of my offer. Tell him, get my book for him. It is your duty. You may be sick yourself, sometimes. Sick people need help. They appreciate sympathy and aid. Tell me of some sick friend. Let me cure him. Then he will show his gratitude to both of us. Your reward will be his gratitude. Send for the book now. Do not delay.

Simply state which book you want and address Dr. Shoop. Box 390, Racine, Wis.

Mild cases, not chronic, are often cured with one or two bottles. At druggists.

THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Absorbent Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Absorbent Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; the cost but 25 cents a box at drug stores, and although in some sense a patent preparation yet I believe I get more and better charcoal in Stuart's Absorbent Lozenges than in any of the ordinary charcoal tablets."

SMOKE YOUR MEAT WITH A BRUSH.

The new method of smoking meat has come to stay. It has already come and staid so long in many parts of the country that there is no longer any more thought of going back to the old method than of returning to the old-fashioned oxcart. When you smoke your meat with our Modern Meat Smoker, you accomplish all that could possibly be done by the old method, and something that the old way does not accomplish. The meat is better protected against decay and against the attacks of germs and insects. It tastes better, it looks better, and it will bring more money. The old method of smoking dries out the meat and reduces the weight. The shrinkage is often one-fifth, and this runs into money when you consider the amount of meat the average Farmer usually smokes. Our Modern Meat Smoker is practically condensed liquid smoke which can be applied in a minute with a brush or sponge, and that ends the process. You run no danger in losing by fire or theft, and save both time and money. Our Modern Meat Smoker is put up in quart bottles only. One bottle will cover 250 to 300 lbs of meat. Regular price, 75¢; cut price, 50¢.
