

DOES YOUR MONEY WORK FOR YOU?

Or is it lying idle, or hidden in an unproductive investment? Most ambitious people are anxious to know HOW TO MAKE MONEY. One way to make money without large capital, without long and continued labor; to make it honorable, quickly, and in a large amount in proportion to the investment is to

Buy Good Mining Stock

A noted Methodist minister says of mining: "I admire a miner's wealth. It is clean. There is neither blood nor tears on it. It is acquired away from the scheming and cut-throat competition that characterizes ordinary ventures, where the success of one man often means the disaster and downfall of some other man, or perhaps a number of men."

Nobody has been pinched; nobody has been wronged. The miner who digs a fortune out of the ground has the satisfaction of knowing that he hasn't robbed, even though he becomes a thousand times a millionaire. The man who makes a fortune on the board of trade or the stock exchange or in building up a gigantic business house adds nothing to the world's store of available wealth. He is richer because some one is poorer. The miner, on the other hand, whether he digs out \$10 or \$100,000 adds that much to the world's wealth. The only man comparable with the miner is the farmer. He gets what he has direct from nature, but he produces perishable wealth. The gold miner is today the king of wealth producers of the country, and I honor him above all others. It is no dishonor; it needs no apology to emulate his example or assist him in his efforts."

A Mine Now in Operation--Not a Prospect.

A group of Nebraska people have recently bought the well-known Greenhorn Mine, located in the Greenhorn Mountains, in the famous Gold Fields of Eastern Oregon. This property is not a raw prospect, but a well developed mine, for several years ranked among the producers. It is in the center of the rich Greenhorn District, surrounded by producing mines, with every advantage of timber, water, transportation, and equipment for future work. THE GREENHORN GOLD MINING COMPANY has been formed to take over and operate this property. The history of this mine warrants the belief that it will become one of the biggest mines of the country.

Thousands of Dollars in Bullion

have been shipped from this mine by former operators who were working under a lease. Bullion receipts from the United States Mint and from the banks of Baker City, Oregon, now in the hands of the new company, prove the richness of its ore veins. The following from among many bullion receipts show results obtained:

United States Gold for the Bullion.

The following is an exact reproduction of one of the certificates of the United States Mint officers, returning payment for one shipment of gold bullion. This is only one of many returns received. Its accuracy can be verified by addressing the United States Assay Office at Boise, Idaho. Cr. Acc.

No. 890. **MEMORANDUM OF GOLD BULLION** deposited at the UNITED STATES ASSAY OFFICE, at BOISE, IDAHO, the 29th day of July, 1901, by Citizens Bank, Baker City, Oregon. Hunter & Brummer.

DESCRIPTION OF BULLION	WEIGHT				GOLD			SILVER			Chgs. for melting, refining, parting, and alloy		Net Value		Returned to Depositor.

	Ounces	Dec.	Ounces	Dec.		Dollars	Cents		Dollars	Cents					Dollars	Cts.	Dollars	Cts.
No. 1107. Bar	21	86	21	79	669	301	34	281	3	58	2	29	302	63			302	63

Charges and interest on advance.....\$ 2 00

Remitted by check No. 25802 on Asst. Treas. U. S. at Chicago...\$300.63

Paid July 29, 1901.—Citizen's Bank, Baker City, Oregon. Note.—This memorandum is for the information of the Depositor, and is of no other value. J. W. CUNNINGHAM, Assayer in Charge.

CITIZENS' BANK, BAKER CITY OREGON.
No. 1113 Baker City, Oregon, August 14, 1901. Received of Hunter & Brummer, 159 ounces of gold for shipment. It is understood that the bank acts as agent for the owner and shall not be liable for any loss from acts of God or the public enemies, mobs, riots, insurrections or from any dangers incident to time of war. (Value 159 ounces at \$20 per ounce \$3,180.) S. L. Barr, V. P.

CITIZENS' BANK, BAKER CITY OREGON.
No. 1131 Baker City, Oregon, Oct. 30, 1901. Received of Hunter & Brummer 23 85-100 retort ounces of gold for shipment. It is understood that the bank acts as agent for the owner, and shall not be liable for any loss from acts of God or the public enemies, mobs, riots, insurrections, or from any dangers incident to time of war. (Value 23.85 ounces at \$20 per ounce \$477.) D. W. French, Cashier.

At the expiration of the Hunter & Brummer lease the Greenhorn Gold Mining Company began active operations sinking a new shaft, adding to the mining equipment on the property, and preparing to carry on more extensive operations. The results have more than met expectations, as shown by the assays of ore:

By	Description	Gold value per ton
By American Smelting and Refining Co., Omaha.	Geo. C. McIntyre, Assayer,	
	Brown ore from cut west of shaft house.....	\$ 63.20
	Ore from incline shaft and tunnel level.....	278.00
	Ore from west side south stope.....	129.20
	From footwall of south stope.....	81.20
By Prof. H. H. Nicholson, Professor Chemistry, University of Nebraska.	Ore from south stope.....	287.60
	Composite of many different samples.....	47.80
By R. H. Officer & Co., Assayers, Salt Lake City.	Average on right of old incline shaft.....	44.80
	Average on left of old incline shaft.....	15.20
By George A. Carter, Supt. I. X. L. Mine, Greenhorn, Oregon.	Part of vein in new shaft.....	\$100.80
	Average of vein in new shaft, excluding part as assayed above.	27.20

MILL RUN.
The following table shows the amount of money (\$99.64) received from a wagon load of 2590 pounds of ore from the Greenhorn mine. The total cost for drayage, sampling, etc., was \$12.14, leaving a profit on the one load of \$87.50. The ore is FINE MILLING and as soon as the mill now contemplated is in operation the cost for mining and milling will not exceed \$2.00 per ton. The excess of receipts above that will be clear profit to the stock holders. It is to put the necessary machinery in place quickly that the stock is now being offered at the remarkably low figure of 12 1/2 cents per share—fully paid and non-assessable.

BAKER CITY SAMPLING WORKS.
Baker City, Oregon, July 29, 1901.
Bought of HUNTER & BRUMMER, Greenhorn Mine. July 24th

Lot No.	Description of ore	Empty sacks	Weight in Pounds			Assay per ton		Gold per oz.	Cost of treatment per ton	Net Price per ton	Am't
			Wet Wt.	Per Ct. Moisture	Dry Wt.	Gold	Silv'r				
105-1	43 sacks ore	35	2590	1	2530	4.26	4.88	\$19.50	\$7.00	\$78.77	\$99.64
					Less	freight	ht to smelter	at \$5.50	per ton		7.14
							Less sampling charge.....				5.00
											\$87.50

The first block of treasury stock is being sold for development purposes. The company desires to sink its shaft 100 feet further, and block out ore reserves. It is expected that a stamp will be installed during the coming summer.

NOW IS THE BEST TIME TO BUY STOCK. It is low in price, and is sure to advance with the opening of the ore bodies now being developed. A few cents invested while the company is young and the property under development should become dollars within short time. Stock is being offered at 12 1/2 cents per share, subject to withdrawal at any time. Full information will be sent on application to

W. P. KILLEN, 923 Omaha National Bank Bldg., Omaha, Neb.

Note—The owners of the Greenhorn Gold Mine are personally known to The Independent. The mine is now in operation and promises the richest results. They are honest men on limited capital and are selling stock in the mine for the purpose of adding new machinery to increase the gold output. We are confident the stock will prove an unusually profitable investment.

Not Difficult

Mrs. Marion Todd, one of the brainiest and most brilliant writers on economics, in a private letter to the editor of the Mercury, asks why a date so suspiciously near the date of the democratic convention was selected by the people's party. Having opposed to the end such action, we pass the question up to the Nebraska Independent for answer.—Milton Park, in Southern Mercury. The date was a compromise to avoid too deep a wound in Col. Park's "honah." It should have been after both old party conventions in order to take advantage of the political chaos which will undoubtedly exist. Notwithstanding Col. Park's protestations that Hearst is to him "an

Ishmaelite." The Mercury's perfervid praise of the millionaire editor can have no other object than to create a Hearst sentiment at Springfield which may ripen into a nomination to be used as a club over the democratic convention. The time for accomplishing such a coup is rather short, as the date was fixed, and Col. Park will be compelled to work a little harder than if his date (June 14) had been adopted. But if Sister Todd will keep her eyes open she will see several things besides the date which may seem "suspiciously near."

Patriotism

One night, at a banquet of politicians, I was seated beside a man who had grown rich by unswerving loyalty

to a corrupt ring—"the party organization," he would have called it—which had done more permanent harm to his country than a European army could do in two wars. He was not a politician, but a business man; not a boodler, but the backer of boodlers, and his conversation was a defense of "poor human nature," till the orchestra struck up a patriotic air. That moved him deeply. "Isn't it beautiful!" he exclaimed; and when the boodlers joined in the chorus, he murmured, "Beautiful, beautiful," then leaned over and with tears in his eyes he said: "Ah, but the tune for me, the song I love, is 'My Country 'tis of Thee'."

LINCOLN STEFFENS.

J. J. Eager, Eastland county, Tex.: "Please find enclosed list of names, all of whom I believe will join the Old Guard. We are forming our battle line in Eastland county for the fight for human rights and the emancipation of the industrial slaves. We have more speakers and writers in our ranks in Eastland county than any other county in the state. You will hear from us later."

Albert Keitel, Pierce county, Neb., writes that he has been a populist for 15 years, but that he has bolted and is now a socialist. He is charmed with the Appeal to Reason's semi-populist "socialism," but it's dollars to doughnuts that when he learns the "surplus value" theory thoroughly he won't stay a "kangaroo."
