### Open the Campaign.

To Nebraska Populists: Are you ready for the hottest fight ever made? A battle for the people, and a most important one, regardless of parties? While we may not elect the national ticket, there has not been such a chance to carry the state ticket and legislature for many years, thereby relieving the whole people of the stigma in the United States senate and many kindred evils.

Every election presents its peculiar issues, and while the republicans only expect to carry the state by a constant hurrah for Roosevelt and by covering up state issues, the rank and file can not be fooled. They are honest in their demand for a change in the state, and boldly declare they will support our ticket on the matter of equal taxation and to stop republican waste and extravagance.

The Omaha Bee is with us on this proposition. The Lincoln Daily Star claims it is the only simon pure republican daily in the state.

Mickey was a heavy load before, but Mickeyism is now considered a calamity. We have a strong, clean ticket.

The people feel the burden brought upon them by the present administration. They don't forget that the entire session of the legislature was consumed in the election of United States senators, or rather in their appointment, one by one railroad faction, and the other by another. They do not forget one of them today, although so little he could crawl through a very small technical hole to keep out of the pen. As was said by republicans of the last state convention, it was simply a railroad meeting, so it could be said of the last legislature. They do not forget that the state floating debt has increased to more than \$2,250,000. They do not forget that the redeemers of 1903 appropriated \$5,740,280.70, while the populist legislature of 1897, only appropriated \$2,335,843.40—a republican waste of \$1,404,437.30. They do not forget the elevator trust. They do not forget the Standard Oil episode. They do not forget the bank wrecking official. They do not forget the adjutant general "that put it back." They do not forget the property destroyed at the Pen and Norfolk, under incompetent help. We could go on enumerating such evils, that are not forgotten, almost without number.

We can win this fall if every populist will go to work. Begin now. Keep it up every day until the polls close November 8th. From a financial standpoint it will be the most profitable labor you have ever performed. Remember that the state's debt is your debt, and that you must pay your share to make good the senseless waste and extravagance of the last republican legislature.

The state committee desires to hear from every active populist in the state regarding the conditions and outlook in his neighborhood. Write today with any suggestions that you can make as to the most effective manner for conducting the campaign in your locality. Don't put it off but write fully and frankly. If you have the time to solicit campaign contributions from your neighbors and can send in something to help pay for postage and stationery it will be valuable assistance. Yours for victory,

B. R. B. WEBER, Chairman.

### Impenetrable Armor.

(From Uncle Sam's Note-Book.)  
I've got the boss amalgam  
For the armor of my feet;  
No cannon made can bust it;  
It defies the iron sleet.

Take a steamboat owner's conscience.  
And a corporation's soul,  
Add the Western Union's honor  
("A hiatus in a hole").

Mix the scruples of a lawyer  
In some Standard holy oil  
With a bishop's views on labor;  
Bring the mixture to a boil.

Alloy with human kindness  
From a Sultan's tender heart,  
A politician's honor,  
And a very minute part.

Of Calvinistic doctrine  
(Just a "point" or two—that's all);  
But don't forget a minim  
Of Bell Telephonic gall.

Put all in a converter,  
So the cheerful mess will face,  
With "right divine" of William  
And the silent Judge's views.

### CORDIAL SUPPORT.

Editor Independent: Please allow me some of your valuable space to express my views on the political situation which will meet the approval of every advocate of reform in northeast Nebraska. First, fusion was a step in the right direction. Success will reward our efforts in fighting the enemy. While defeat will crown confusion every time.

Second, the democrats of Nebraska are at par with the populists in fighting against the railroad ridden republican misrule in Nebraska, and on election day they will be found at their post, with the populists in relieving Nebraska from such misrule. Had the democrats in 1896 and again in 1900 known that Mr. Bryan was a galvanized plutocrat he would have got a cold reception in the democratic camp as well as the populist. Mr. Bryan may be doing a Christian act to the reorganizers of his party in returning good for evil but in my mind he has a big return coming. We should not criticize Mr. Bryan too severely for trying to get at the least third place in the race for his new ideals, Parker and Davis. So he can make a good showing for 1908. Evidently Mr. Bryan has forgot the words of Henry Clay, "It is better to be right than to be president."

The rush on the farm will soon be over, then I will do what I can to aid the two Toms and the Nebraska Independent, financially and otherwise.

### THE DAIRY INDUSTRY AT THE STATE FAIR

Life Size Models in Butter.  
Much interest is being manifested in the various exhibits representing the dairy industry at the state fair. About 20,000 hand separators are in use in this state at this time and all of the principal hand separator manufacturers have secured space in the dairy

building and will have their various makes of machines on exhibition, and competent men to explain the desirable and useful qualities.

At the St. Louis exposition it is a "fad" for states making an exhibit of dairy products to attract attention by life size models in butter placed in the show window occupied by such state. In order to keep up with the times in this direction, the Beatrice Creamery company of Lincoln have arranged, at an expense of several hundred dollars, to have one of the most expert artists employed at the St. Louis exposition come to Lincoln and model in butter a life size exhibit to be placed in the refrigerator in the dairy building on the state fair grounds, and in order to accommodate this exhibit and show it to the best possible advantage, the state fair management have planned to enlarge the window in the front of the refrigerator to 6x8 feet, with plate-glass front.

### WORLD'S GREATEST CIRCUS.

Barnum & Bailey Will be Here Tuesday September 13—Majestic Parade in the Forenoon.

Nearly all the European papers have said "they saw too much" in the Barnum & Bailey Greatest Show on Earth, and that "it certainly required four visits to see all the attractions." There are wonderful acts. Twenty champion riders appear at various times during the exhibition, all of whom do novel and daring feats. The grand equestrian tournament is still another great feature, and contains all kinds of riding exhibitions. A thrilling and perilous headforemost dive is made from the roof of the canvas into a net, and the turning of a triple somersault in mid-air causes everyone to wonder at each performance why the daring performer is not instantly killed. Angiolotti, the modern Ariel, Volo, the Volitant, Chico and Solo, the wonderful unicyclists, all tempt death in defying the law of gravitation, while the double simultaneous slide for life by two Japanese artists thrills everyone. And comic episodes are enacted in three rings and upon the stages with great rapidity, which in turn are succeeded by the trained animals. Three herds of elephants and a herd of giraffes are in the menageries, with cages of wild beasts. The exhibition in the menagerie tent contains giants, midgets and a huge collection of freaks, and lots of magicians, jugglers, dancers, musicians and specialists. It is a grand and glorious exhibition, and will come here on 96 railroad cars, with 500 horses, elephants, 12 acres of tents, and a stupendous advance corps, and will exhibit its thousand novel features in three rings, on three elevated stages, and hippodrome race track—or what is equivalent to six rings. The big show's date here is Tuesday, September 13. The parade will take place the morning of arrival.

### TOM WATSON'S BOOKS

Many readers know that Hon. Thomas E. Watson, people's party candidate for president, is an author of the highest rank. At this time his histories and books are especially interesting. His history of France is the story of a people, not of their rulers only. It is fascinating reading and every admirer of Mr. Watson should have a copy in his library. To read it is to be convinced of the genuine sympathy the author has for the welfare of the plain people.

Mr. Watson's treatment of history is from a new and entirely modern point of view. The well-known political leader says in his preface that at has been his purpose to lay before his readers "a clear narrative of the gradual development of a great people \* \* \* to note the varying forms of government, to trace the ancient origins of modern laws and customs, to mark the encroachments of absolutism upon popular rights, to describe the long continued struggle of the many to throw off the yoke of the few, to emphasize the corrupting influence of the union between church and state; to illustrate once more the blighting effects of superstition, ignorance, blind obedience, unjust laws, confiscation under the disguise of unequal taxes, and a systematic plunder year by year of the weaker classes by the stronger." The author is in very keen sympathy with the mass of the people, and for the first time we have the historical point of view of the laborer and mechanic told in a style that is bold, racy and unconventional. It is a vigorous and democratic presentation of history.

The "Story of France" is a two-volume work and retails at \$5.00. The Independent is prepared to supply its readers with the books at that figure. Address all orders to The Independent, Lincoln, Neb.

### For Thoughtful Women.

It is a noticeable fact that those families who seem to prosper and get ahead financially do so through the careful and judicious management of the household expenses by the wife and mother. Many women who complain of the insufficiency of the allowance provided by their husbands are themselves most to blame for the shortage. Some women can and do make ten dollars do nearly twice as much service as others. Every wife should remember that it is as much her duty to spend in the most careful and judicious manner the money provided by her husband as it is his duty to furnish it. Study the subject. Place to get the most for your money. Read the advertisements and take advantage of bargains and special sales. Every woman should be especially interested in the eight pages of furniture advertising by Rudge & Guenzel Co. of this city. The firm is the most reliable in all the west and the stock is by far the largest and most complete. It is as safe to buy goods from Rudge & Guenzel Co. by mail as over the counter. In either case satisfaction is guaranteed. A complete catalogue will be sent free on request. Please mention The Independent when ordering goods or writing for catalogue.
