which will interfere with dividends. Talk to us about helping the republicans? Who is it that aids the republicans to maintain the present system of class legislation? The national democratic party. Democratic votes in the house and senate helped the republicans repeal the tax on incomes just after the civil war. Demorcatic votes killed the bill to re-enact that tax in 1878. Democratic senators and congressmen aided the republicans in taking the burdens of taxation off the backs of the poor, down-trodgen national bankers, manufacturers and railroads soon after the civil war. Democratic votes chartered and rechartered national banks down to 1902, at which time the two old parties were so much in accord that in giving the national banks another twenty-year charter the roll was not even called. Democracy did not even "demand the yeas and nays." Democracy did not even go through the usual form of speech-making opposition. With a campaign pledge against national banks fresh on its lips, democracy "touched" the pen and gave a favored few for another generation the tremendous undemocratic power and profit of exerand profit of exer-

How does national democracy stand that kind of test? What is the reputation it bears in the community in which it lives for keeping its contracts? Has it so kept faith with the people in the redemption of its pledges as to deserve confidence and support? Let us see. It made to the people in 1892 the fairest promises which persuasive language could embody. The pledge was accepted, and the democrats were contrusted with the reins of power. They were given full control-president, house and senate. If it was honestly earnest in its declaration for reform, here was its chance. They were monarchs of all they surveyed. The republicans were in a hopeless minority. They could not sit on the fence and

Cleveland's second administration!
God help us all. The people will never forget it, History will class it with the black crimes of her annils. The democratic campaign book of 1852 had declared that the national banks were doomed because they would soon have no bonds to bank on. Cleveland came their relief. He gave them; the and had echoed what was the campaign book about the farmer, and the la-re robbed of the fruits

Not one single campaign piedge did the democratic bosses redeem.

Now what? The very same gang which ran the Cleveland second administration is running Parker's campaign. There is Gorman, who changed Wilson's democratic tariff bill into a republican measure. There is Carlisle, the cabinet officer, who took orders from the sugar trust. There is Olney, the railroad lawyer, who loaned the United States army to the Pullman Palace Car company in Illinois. There is Belmont, whose name reeks of that midnight bond deal. There is Lamont, who belongs body and soul to the corporations. There is Cleveland himself. who schemed to get the nomination, expected to get it, and by the logic of events should have had it. Then the tableaux would have been perfect. But ennoble the human race. he tells the whole world that Parker is a man after his own heart. That being so, we can guess what Parker is. In 1892 the eastern democrats who were backing Cleveland were willing to promise reform. They made distinct pledges. In 1904, the same eastern democrats who are backing Parker will not make any pledges of reform at all, As construed by their candidate, their platform contains no definite promise

trary, what will they do in 1994 when they are not even hampered by a single pleage? From what motive has the Standard Oil company been financing Parkers campaign? From what motive has Belmont, Gorman; Carlisle and all this old gang of plutocratic boodlers taken such ravenous interest in Parker? So far as the public can see, there is no reason for all this corpora-tion activity in behalf of Parker. If the corporations expect nothing more battle, with every man at his that the platform discloses, why should the flag flying to the last! they not be supporting Rooseveltevery one of them? The platforms are practically the same; no intelligent man denies it. Parker's running mate said as much at the very beginning. Why is it then that a certain lot of the tursts and corporations are spending their money to elect Parker? Somewhere or other in this political wood pile there's a hidden nigger! Don't you doubt it. As sure as you live, secret pleases have been made for Parker, just as they were made for Cleveland in 1892. In no other way can the interest of Belmont, Gorman and the tandard Oil company be accounted for. One of two things is true, to a moral

racy controls; and the eastern democrat is a republican all but the name. The national democratic party can do nothing for the people. It is ruled by corporations. And it has no common purpose, no unity, no cohesion. Therefore it is not really a political party in any true sense. A vote for either Roosevelt or Parker is a vote to continue these conditions.

"But are you forced to vote for either one of these candidates? liappily not, since the people's party-a comparatively new political organization-has adopted a platform directly opposed in its principles to those of the republican and democratic platscience, convictions and a sense of forms, and has nominated for the pres-honor!
