required by law.....131,590 27

The Union Fire Insurance company
is incorporated under the law of 1873,
which is the only mutual insurance law
that absolutely limits the liability of
the assured to the amount stated in
the premium contract. The premium
can all be paid at once, in which case
10 per cent discount will be allowed,
or premium can be paid in annual in-
stallments without interest. Your
horses, wagons, and harness are pro-
tected against fire, lightning, cyclone,
tornado and wind storm anywhere in
Nebraska (even in livery and feed
barns). The limit this company will
pay on horses and cattle per head is
stated in your policy. The natural in-
crease of the stock owned at time of
insurance is also protected by our pol-
icy. The only insurance company in
Nebraska that confines its business ex-
clusively to farm property, detached
dwellings in town, churches and school
houses. This company adjusts all
losses promptly and pays them without
discount upon receipt of proof. This
company is the oldest and most suc-
cessful farm company in Nebraska.
All conservative loan and trust com-
panies accept our policies as security.
An investigation will confirm the
above statements.
