since he lead that memorable raid on Washington he was reported to be worth over a million dollars.

United States Circuit Judge W. W. Marrow has handed down a decision which sets the railroads up a peg or two higher than any judge ever did before. He decides that the Union Pacific and other roads can charge a higher price for hauling sugar from San Francisco to Kearney than it charges from San Francisco to Omaha. Then he adds, to put it in common every day language, that the interstate commerce commission has no business fooling with rates in any way. The effects of the landslide are becoming more perceptible every day.

A Washington dispatch says: "Senator Smoot will not be deprived of his seat and Judge Swayne will not be impeached." What is the use of loading down the wires with such stale stuff as that. After the landslide no one expected that any such thing would be done.

The supreme court of Ohio has knocked out the 3-cent fare franchise for a street car line in Cleveland. That is also a part of the landslide.

The receiver of the O'Neil bank found ten cents in the vault. That is better than the Iowa bank which "busted" some time ago, where only seven cents in coppers were found.

If there is an official in the United States more devoid of the instincts of a gentleman than another, that man is Governor Vardeman of Mississippi. To a courteous telegram sent to him by President Francis of the St. Louis fair he replied in about such language as one would expect to hear in a back alley of the Third ward in Omaha.

The congressional workshop will be opened next Monday. There will be no reduction in wages or increase in hours.

The St. Petersburg dispatches say that the czar has accepted the most of the demands made by the zemstvos and turned their recommendations over to the imperial council to put them into form. There will hereafter be a free press in Russia, freedom in religion, an impartial rendering of justice and the people shall have a vote in naming representatives who shall take part in the government, but the czar would not consent to the people having any part in taxation and expenditures of the government. To an American, the last would seem to be the most important of all the reforms asked for. The next day the dispatch said that neither the czar nor the imperial council would have anything to do with the zemstvo demands. That is the way the Associated Press fills the columns of the newspapers in this country.

Senators Hale and Aldrich and Speaker Cannon have all given out statements declaring that they will persistently oppose any tariff revision whatever, either at the regular session or at a special session to be called by the president. In those three men reside the controlling force in both house and senate.

The Rhode Island state returning board, after throwing out 3,593 votes as defective declared that Daniel L. D. Granger, Aldrich's man, was re-elected to congress. That sort of work is part of the landslide, and is even better than Colorado can do.

The Chinese soldiers are having a hard time of it for they have not only to serve at a cent a day, but must lose their hope of heaven, for the Empress Tsi Ann has ordered all their queues cut off.

porterhouse steak look like thirty cents. They tried it first on turkey and it worked so well, they will continue it until the bureau of commerce get through with investigating the meat trust, and then they say it will be just as easy to make it look like forty cents.

The newspapers have continued to print each day from two to three columns of what purported to be dispatches from St. Petersburg, Mukden, Port Arthur and Tokio, while the Chee Foo liar has been still more prolific with his tales than usual. Out of this stuff, the only real news that seems to be authentic is that the Japanese have made some real advance toward the capture of Port Arthur. During the first days of this week there have been continuous attacks on 203 Meter hill, both through engineering and mining methods and open assaults. The latest news is to the effect that the port and all its fortifications have been captured. What the effect of that will be it is impossible to tell. Some dispatches say that it will give the Japanese a position from which they can shell the whole harbor and the Russian warships in it, and some deny it. There has been no fighting, except skirmishes between the armies commanded by Kuropatkin and Marshal Oyama. The Japanese are evidently waiting for the fall of Port Arthur, so as to be able to attack the Russians with a superior force by sending the armies now besieging that port to Oyama.
